Dear Mr. Wanta,

Thank you for your recent letter. Your message of support for the Declaration of Principles and the Agreement of Mutual Recognition, signed between Israel and the Palestinians is truly appreciated.

Israel has taken considerable risks upon itself in order to create an opportunity for peace and to put an end to violence and war. It is our wish to open a new chapter in the history of the Middle East - a chapter of mutual recognition, good neighborliness, mutual respect and understanding. We hope we have begun a new era in relations between peoples everywhere.

From Jerusalem, the eternal capital of Israel and the Jewish people, in the language of the Bible, we say, "Peace, peace to him who is afar and to him who is near".

Sincerely yours,

Yitzhak Rabin

Stuck in the Promised Land

Israel: With unrest rising, many settlers want out

NOT EVERYONE IN THE MILITANT Jewish settlement of Kiryat Arba thinks it's the promised land. "We went because of the money; it was cheap to get an apartment there," says Sarah Malul, who moved to Kiryat Arba 10 years ago. Malul and her husband, Avi, raising four children in a fearful place surrounded by enraged Palestinians, often thought of moving to Jerusalem. But they couldn't afford to. Then Baruch Goldstein, a Kiryat Arba resident, gunned down 29 Muslim worshipers in nearby Hebron, and everything changed. "My 8-year-old said to me, 'I'm afraid the Arabs will kill me now,'" recalls Sarah. The Maluls demanded government help—and with a \$275 monthly subsidy, they were able to rent a tiny apartment in Jerusalem. "I feel like a prisoner who has been freed," says Sarah.

Thousands of Jews living in other settlements deep in the Israeli-occupied West Bank and Gaza Strip want to get out, too. But it's not so easy. They were lured there by government offers of huge mortgages at rock-bottom rates, at a time when Israel's leaders wanted Jews to populate Arab lands captured in 1967. The settlers bought homes they could never afford in Israel proper. Yet now that Israel is preparing to trade land for peace, the same houses have plunged in value. "Many families want to leave," says Malul, who can't find a buyer for her apartment in Kiryat Arba. "But they don't have the money to make that choice."

The trick is to survive Palestinian stones, bullets and bombs until the government of Prime Minister Yitzhak Rabin offers compensation, then take the money and run. Settlers recall the precedent set at Yamit, the Sinai settlement returned to Egypt as part of the 1979 peace treaty. Then the government paid \$300,000 for each evacuated farm, and \$75,000 to \$150,000 for other households that pulled up stakes. So far, however, Rabin has resisted pressure to offer a deal to the settlers in the West Bank and Gaza. "He doesn't want them to leave now because he's still negotiating," says Hagai Meir, one of two Labor Party legislators running a hot line for settlers who want out. "Rabin says to himself: 'If they move now, the

Climate of fear: Israeli soldier clubs a Palestinian protester

PATRICK BAZ - AP

Palestinians will think we are weak."

That approach has left many settlers feeling like pawns in an increasingly dangerous game. Just last week the Islamic militant group Hamas issued a warning to Jews living in certain West Bank and Gaza settlements: leave by March 15 or face increased attacks. The threat is not empty bluster. In February Hamas gunmen shot dead a pregnant woman who was traveling between Tel Aviv and the suburban-style settlement of Ariel. More recently, nervous Israeli soldiers killed an Ariel resident who was driving at night—they thought the settler was a Palestinian terrorist.

So far the government is providing only minimal assistance to help relocate low-income families desperate to get out. Estimates for the cost of fully compensating most of the 125,000 settlers range up to \$10 billion. "Somebody will have to pay

for it," says Meir, who suggests that Saudi Arabia could help if settlements were used to house Palestinians in the future. Washington is another likely candidate. Israel got a pledge in 1992 for \$10 billion in U.S. loan guarantees to help absorb Jewish immigrants. Rabin hasn't asked to use the money for relocating settlers, but a U.S. official in Jerusalem says Washington "would be willing to examine such a proposal if it was raised."

But where will the settlers go? Avi and Sarah Malul moved from Kiryat Arba to an affordable apartment in Pisgat Ze'ev—a Jewish neighborhood built after 1967 in occupied East Jerusalem. Negotiations over the fate of Jerusalem aren't due to start for another two years or more. Meantime, bulldozers are hard at work in Pisgat

Ze'ev, a burgeoning neighborhood of 30,000 Jews, clearing land for even more low-cost apartments. Until a final peace settlement is reached, nobody knows for certain where they can make a home, and who will pay the price.

Rabin's Coalition: Where's the Beef?

THE MIDEAST PEACE PROCESS CLAIMED another casualty last week: nonkosher meat. Israeli Prime Minister Yitzhak Rabin, trying to pursue a controversial peace policy with only a minority coalition in the Knesset, needed to entice the ultraorthodox Shas bloc back into his ruling group. But Shas had a price for its support: legislation that would outlaw the import of nonkosher meat. (Most Israelis don't care about the meat itself; the issue is part of the always heated struggle over how secular Israel should be.)

Rabin wanted to reinforce his Labor-led coalition ahead of his visit this week to Washington. The new meat bill is expected to become law this week—despite opposition by some leftists who found it unpalatable. The Shas bloc will probably rejoice in Rabin's government. That means the peace process, at least, may stay on the menu. ■

Honorable William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

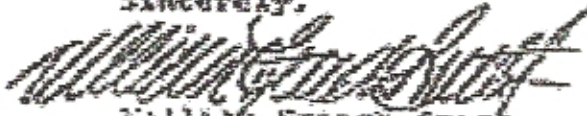

Dear Bill:

Thank you for your letter regarding the procedures governing the reporting and use of information concerning federal crimes. I have reviewed the draft of the procedures that accompanied your letter and, in particular, the minor changes made in the draft that I had previously sent to you. These proposed changes are acceptable and, therefore, I have signed the procedures.

I have been advised that a question arose regarding the need to add narcotics violations to the list of reportable non-employee crimes (Section IV). 21 U.S.C. §874(h) provides that "[w]hen requested by the Attorney General, it shall be the duty of any agency or instrumentality of the Federal Government to furnish assistance to him for carrying out his functions under [the Controlled Substances Act] . . . section 1.8(b) of Executive Order 11333 tasks the Central Intelligence Agency to "collect, produce and disseminate intelligence on foreign aspects of narcotics production and trafficking." Moreover, authorization for the dissemination of information concerning narcotics violations to law enforcement agencies, including the Department of Justice, is provided by sections 2.3(c) and (i) and 2.4(b) of the Order. In light of these provisions, and in view of the fine cooperation the Drug Enforcement Administration has received from CIA, no formal requirement regarding the reporting of narcotics violations has been included in these procedures. We look forward to the CIA's continuing cooperation with the Department of Justice in this area.

In view of our agreement regarding the procedures, I have instructed my Counsel for Intelligence Policy to circulate a copy which I have executed to each of the other agencies covered by the procedures in order that they may be signed by the head of each such agency.

Sincerely,

William French Smith
Attorney General

US Federal Reserve was created by Russian and Chinese capital a century ago

[3 comments.](#)

[Brahman](#)

Few people know, for example, that the US Federal Reserve in fact - a product of the notorious financial Rothschilds. And it is based, as it turned out, the Russian gold.

Interview with Sergei Zhelenkova, historian of the royal family, which is already more than a quarter century, delves into the closed and open archives, met with the descendants of those people who at the end of the nineteenth - early twentieth centuries were in the thick of things.

Enemies is a life-and-death

Great was the year **1862 the first** of the Nativity. Russian Empire began to "get up off its knees" after the defeat in the Crimean War. In Novgorod takes the solemn celebration of the millennium foundation of Russia. Only a year ago, it was the abolition of serfdom. Begin revolutionary military reforms. Alexander II acquires worldwide fame. It is called now and always will be called the king of the Liberator.

At the same time, in secret from all parts of the great and far-flung empire by special decree of the emperor in the Crimea, more precisely, in Sevastopol stretch strange military convoys. Usually it is one or two indoor Carrying surrounded by fifty picked Cossacks. "In the name of the Emperor" - they shouted, changing horses at the inns. "Had the war again?" - Baptized peasants. Everything was easier to Crimea drove gold empire. He had a long way - to the mountains Gishpanii.

Meanwhile on the other side of the world, in America, raging civil war between North and South. President Abraham Lincoln idealist fought there, not only with the slave-owners, but also European-English Rothschild banking clan, actively assist the South at the direction of the world intriguer - Queen Victoria. In London, I do not like to think about it, but as they say, from the song words can not erase.

" Lincoln Alexander and agreed on a common hostility to the Rothschilds, playful hands that dug not only the European, British and American economies, but also in international politics . They gadih both Washington and St. Petersburg, buying packs of politicians and officials of the two countries. But the state alone could not withstand the financial one of the largest financial clans. Then both the governor decided to create a joint Russian-American trust, by means of which it would be possible to give a more dynamic economic development of the two countries. At the same time as Alexander and Lincoln, we had personal grievances against the Rothschilds. Conversely, the financiers of the American president announced his enemy number one because of his refusal to re-create the private central bank of America to introduce the equivalent of a gold dollar, despite the fact that most of the world's gold has already belonged to the Rothschilds, "- says the royal family historian **Sergei Zhelekov .**

It is noteworthy that the Rothschilds funded not only through its South Bank in Paris, but also the North - in London. Meanwhile, in Russia the clan tried to create the Central Bank under their control. Alexander II, their plans were thwarted.

But the Russian monarch is not limited only sympathy for the transatlantic fellow sufferers. At its highest order to the shores of America, and more specifically in San Francisco November 7, 1863 Russian squadron arrived Atlantic Imperial Navy under the command of Rear Admiral **Stepan Lesovsky .** After it approached the Pacific squadron and Admiral **Andrei Popov .** The whole world sounded terrible roar of the Russian Emperor, "If England and France will have a military or any other assistance to the South, Russia would consider this a declaration of war." London and Paris were shut.

While there were international games in the Crime a has accumulated nearly 50 tons of gold bullion for creating Russian-American trust . The courts of the Russian Society of Shipping and Trade (ROPIT) gold is accompanied by a special military team of 19 people selected personally Autocrat of all Russia, it was transported in a special vault in the mountains of Spain. He supervised the entire operation officer for special assignments and a general of the Ministry of Internal Affairs of the actual state councilor **Plato Kuskov** .

But the project to build the trust failed. The theater was assassinated Abraham Lincoln. And after a few years as a result of the next attempt and killed Alexander II. Gold remains in Spain. Is it a coincidence that both Rothschild enemy were killed, the clan opened the way to the world financial domination?

Nicholas II - the founding father of the United Nations

What kind of joint projects were discussed already known. Archives during this time were fairly cleaned. Although historians claim that some of the original agreements between Russia and America are still kept in the personal archives of descendants of some Russian participants in those events. The royal archives of course, they were kept. But let's not get ahead of ourselves.

On Tuesday, May 14 (old style), 1896 in the Assumption Cathedral of the Moscow Kremlin sacred coronation to the throne Nicholas II and Empress Alexandra Feodorovna. Ascended to the throne received an excellent education ambitious in the best sense of the word emperor. Although before World War I there were still as many as 18 long years, Nicholas knew that **must be the creation of a supranational framework** that would help to smooth out not only political, but also economic contradictions between the powers. Three years later - are learning modern bureaucrats! - On the initiative of Nicholas II was the first neutral Hague Peace Conference. In addition to issues of arms limitation on it was approved the decision on the establishment of the Hague tribunal. The principles laid down in its work of more than 100 years ago, are considered immutable so far. The second conference was convened in 1907 by the initiative of Emperor Nicholas.

"In 1904 a group of representatives of 48 states (by analogy with the present it can be dubbed «G-48») **at a secret meeting in Paris, approved the procedure for establishment of the International Financial System (IFS), and global source of the money supply** . Also, in coordination with the heads of other states - participants of the Conference in The Hague, on the proposal of Nicholas II it was decided to create the League of Nations (now called the United Nations). To ensure that trade relations between the two countries, it was decided on the basis of the League of Nations to create a single global financial center with its currency.

To create a "gold pool" of the League of Nations through the **Russian Bankers House of Rothschild made in the "authorized capital" MFS 48.6 tons of gold stored in Spain**. Half of it was sent to Fort Knox vault in the United States. A half settled in underground storage facilities on the island of Mallorca, is still part of the Spanish autonomous community of the Balearic Islands. However, the documents which the parties have signed, all the gold should be kept in New York. **This supply of Russian gold in the US in 1904-1912, respectively, Russian Empire acquired the rights to the assets in the "golden bullet" in the amount of 52 billion dollars in gold**, "- continues the fascinating story Zhelelenkov.

62
19

But financiers Rothschild beat "on a gold field" and Nicholas and other members of the conference «G-48." To finance the election campaign of US President Woodrow Wilson, they were just two days before Christmas in 1913 literally forced him to transfer to their private property the Federal Reserve System (FRS), created in place of the global financial system based on gold and "pool". Thus, **the share of 88.8% in the Fed still belongs to Russia**, and the remaining 11.2% - mostly Chinese beneficiaries supervised by the grandson of the last Chinese emperor of the Qing Dynasty **Lee John**.

"Now of the three Russian copies of agreements embedded in the Fed gold in our country there are two. One - in a hiding place in the Nizhny Novgorod region. The second - from a major figure of the Soviet era. Third - presumably in a Swiss bank - says Zhelelenkov. - In the same cache in Nizhegorodchine are documents from the royal archives, among which there are 12 "golden", or rather, given their history, "bloody" certificates. If they are present, the global financial hegemony of the United States and the Rothschilds simply collapse, and our country will get a lot of money and all the opportunities for development, as it will cease to choke from the ocean "- said the historian

Documents in the studio

"Between the United States and Russia signed an agreement on the transfer of our gold is not as a gift, and, let's say, for rent. For a period of 100 years, which expired in 2013. In the special agreements is checked that the interest rate for the use of 48.6 tons of gold reserves in the year is 4% per annum. **That is 4% a year the Fed was supposed to transfer to Russia and China**. But interest, it must be said, has never been paid. The agreements were written in six copies, three of which were stored in the US, three were transferred to Russia. There were also released 12 "gold" certificates (48.6 tons) bearer. The certificates were handed over to the Russian Tsar. That, in turn, passed them on to **Grigory Rasputin**. The reasons unknown to me, but Nicholas Gregory revered priesthood as a non-possessors of worldly goods. Shortly before his ritual execution of Rasputin as if anticipating death, she brought them back to the king. **One according to one version, distributed them to the most reliable members of the family, on the other - deposited the godfather to his son Pyotr Nikolayevich Dolgoruky** ", - said Mr. Zhelelenkov.

Meanwhile, for those certificates developed this hurting. Another would be - in principle, any holder of them could destroy the Rothschild financial empire. By the way, at the time when the house Yusupov murdered Rasputin on Gorokhovaya, where he lived, he was made the most thorough search. "There were even lining oportunity chairs and armchairs, cushions ripped open, broken cabinets" - the newspapers of the time. But, of course, they found nothing - again certificates were available of the royal family.

17/29

"I will soon die in horrible suffering, but it will be the salvation of my dear sovereign and holy Russia" - prophesied shortly before the murder of Rasputin. The prophecy came true.

Revolution as a means of

Karl Marx wrote in his "Capital": "Provide 10% capital gains and capital to agree to any application, at 20%, it becomes a lively, at 50% positively ready to break my head, at 100%, it tramples on all human laws, at 300 % there is no crime for which he did not dare to go, at least in fear of the gallows. " And here at stake is not the profit, and world domination!

"After the failure of Rasputin became clear that without the elimination of Nicholas and his entourage threat of the Fed and the Rothschilds would last forever. Through banking house Uncle Leon Trotsky) was funded at the beginning February, and then the October revolution. Right hand of the Rothschilds in Russia was the deputy chairman of the State Duma and the Cadet Mason **Nikolai Nekrasov** . He has conducted virtually all the banking houses, giving them access to Western credits through their communications. Later, in 1939, he was arrested. During interrogations, he told all about the financing of the February and October revolutions (secret protocols of interrogations so far).

After the first revolution of the family of Emperor Nicholas was exiled to Tobolsk. After the second - in Yekaterinburg. From Tobolsk of the royal archives, including **three copies of Russian-American agreements and 12 "gold" certificates managed to take and hide the head of security of the king Evgeny Kobylinsky** ". continues Zhelenkov.

During the turmoil of the Civil War and the subsequent struggle for power in the Soviet top of all it was not until the Russian gold stored in the US bins. Yes, and where the documents on it - no one really knew. But towards the end of the 30s of the last century theme surfaced again. Stalin was well aware that the country is on the verge of another major war. But any war - is finance, finance and finance again. According to some reports, however, did not officially vindicated (archives were almost completely destroyed under Khrushchev), about 1936-1937. Soviet representative **Vyacheslav Molotov** was planning to speak at a meeting of the League of Nations. And tell the whole world about the US debt Soviet republic. This would cause

a huge international scandal. But it is "on time" - in 1939 the Soviet Union was expelled from the international organization allegedly due to the war with Finland. Then came the Great Patriotic War. In 1953, Stalin died. And on the subject of debt repayment fell silent again.

Kui loot, while it's hot

In the postwar period until the collapse of the Union, as well as in our time the Rothschild financial empire (and owned by a clan Fed) increased their world domination. Almost all banks in the world as created by state-owned and private, are included in "LIBOR". That is, they are expelled for unknown accounts 4% of annual profits. All those trillions of funds deposited in the accounts of the Rothschild clan. By the way, the rate of "LIBOR" acts and the Central Bank of Russia. Especially it is not hidden, but not emphasized. **Status CBR virtually incomprehensible and so confusing that many independent economists call it the Russian branch of the Federal Reserve.**

Anything in the world, there are several central banks of countries which actually are public and not "private Rothschilds' benches." This is Syria, Venezuela, Cuba, Iran and Vietnam. Hungary a few years ago only hinted about his nationalization of the Central Bank and immediately got on his hands with a remarkable phrase: "for the violation of democracy."

Sometimes, the top management of a major bank, not dedicated to intrigue "Madrid court", bucks and no longer allocate money to no one. Then the management of the bank is disobedient at the labor exchange with blacklisted. Or "accidentally dies of natural causes." In just the past few years more than 60 major Western bankers for one reason or another have gone to the best of all possible worlds.

"In 2006, on the table top leadership of our country lay Fed official document that from 1913 to 2006 at a rate of "LIBOR" of the world economy was "pumped" with the amount of 50 zeros. In modern mathematics, in my opinion, does not even have a term for such amounts.

For better control of their money through Congress and the US Senate in January 1995, "certain forces" were able to carry out a decision to create an international organization of sovereign Department of International Financial Control (OITC). Headquartered in Thailand and offices - all over the world. For the implementation of any infrastructure project which has a movement of currency across borders, requires permission OITC. Still there BISbank in Basel. Through it are all major international payments. For example, even Ukraine, paying for Russian gas, holds a payment through the bank. Guess - who controls it? - Rhetorically asks historian of the royal family.

"Heirs" with a brooch

Obломov repeated attempts robbery, Rothschild family decided to go the other way. It was decided to designate heirs to the assets of the Fed, which entered into law immediately renounce them in favor of the benefactors. In this role he has been chosen so-called "Grand Princess" **Maria Vladimirovna** and her offspring of George.

"With the filing of Boris Nemtsov and Pavel Borodin, the son of Mary, and it was presented to the court of Boris Yeltsin. PR for Western money was terrific. And even after he leaves the Kremlin "family" Maria Vladimirovna continues to keep abreast of the Russian policy. She flies around the country, with private jet to **Dm. Medvedev** squadron of "Russia". Circuited meets with the governors, with ambassadors, the highest ranks of the

19/29

Russian Orthodox Church, the Duma and other public institutions. Interestingly, the cross on the neck "successor" of the Orthodox monarch has not been noticed, but there are almost always cast as Madeleine Albright - said, showing pictures, Zhelenkov. - Actually, why not wear a brooch as the chief apologist for anti-Russian policy? After all, **the father of Maria Vladimirovna - the Grand Duke Vladimir Kirillovich Romanov wore the title of SS-Obergruppenführer**. And until the last days in the bunker of Hitler led him to subordinate troops KIAF (Corps of the Imperial Army and Navy). Just a few days before the Victory managed to escape to Liechtenstein. And two of her aunt's family (sisters Vladimir) were married high-ranking Nazi officers: a pilot and a sailor. "

Also, a historian claims in 2013 on the island of Malta Maria Vladimirovna as "the legitimate heir and successor" Nicholas II had to transfer the right to these assets, awarding three "American" copy of the agreement. To do this, the island gathered representatives of the leading countries of the world, which at the beginning of the last century, to sign the document on reforming the global financial system. But Russian security services managed to disrupt the event, bringing to present information on the Nazi past of his father "successor." Such attempts will be many more. The end justifies all means.

Where did the "Philippine" gold, which after the victory in World War II was to depart the Soviet Union? How many Russian assets lies in Western banks and who controls them? What is the secret agreement signed in 1990 in Paris, Soviet President Mikhail Gorbachev?

Who robbed the power in the 80-90-ies of the last century?

Where is the money?

As it turned out, for the last hundred years into the coffers of the Rothschilds got not only 48.6 thousand. Tons of Russian gold, which for the establishment of the World Financial Center in 1913 highlighted Nicholas II. Immediately after World War II, the victorious countries divided between looted in the occupied countries of the gold reserves of Japan, which was stored in the Philippines.

- There were about 65 thousand tons, which were divided into four parts. **17 thousand tons were to depart the Soviet Union as a party affected by the hostilities of the eastern ally of Hitler**. All documents on this gold is, they are stored in archives. Why did Stalin not pervez these bars to the Union - the big question. Probably, in the beginning it was a purely technical problem, and then the Cold War began, and 100 kilometers from Manila reopened the US Naval Base Subic Bay. Forced removal could lead to an armed confrontation with the Americans. Yes, gold is the metal

itself is of little interest. Throw it on the world market meant to bring down the price to a minimum, was rescued at the national level minor money. And to ensure the ruble it was simply not necessary. While the **issue of Soviet currency is not determined by the decisions of the Federal Reserve, or the so-called foreign exchange reserves, as it is today, and the need of economic development**. Amount of money asked by the Council of Ministers of the State Planning Commission estimates, - says **Sergey Zhelenkov** who studies the history of Russian gold reserves royal times to today.

The subsequent Soviet leaders, up to Yuri Andropov, and not particularly thought about the "privatization" of 17 th. Tons of Japanese gold. Big politics - the art of the possible trade-offs.

The maneuvers as a cover

About inflexible security officer and poet Yuri Andropov separate conversation. It tells Zhelenkov, General Secretary of the CPSU, after long negotiations with the Americans managed to get access to Japanese Gold Room. But not in the budget, and supposedly for the needs of the Russian Orthodox Church.

"The export of bullion from the Philippines did not, but **with the consent of the United States and its allies under the gold standard is January 12, 1983 was opened 468 accounts worldwide**. How many there now "haroslo" percent - is unknown. Keeper of these funds - some Tyannikov living in Manila. It is called the head of the international financial group, which legalizes the money of dictators and the "common fund" of various criminal gangs. Also called "black trader" Fed.

A separate theme - the looting of gold reserves at the end of the existence of the Union and the beginning of a new "democratic" Russia. There were implicated officers created Andropov still in his tenure as head of the KGB certain group «Z». After members **of the country's exported crazy amounts of values, including billions of dollars in cash**. Now, some survivors' zetovtsy "run by non-public financial trusts in Europe, USA and South-East Asia. Others find a living is no longer possible.

At the king's and the Philippine gold and 5 th. Tons of Soviet gold reserves, which have been exported to the United States in the autumn of 1983, banks belonging to the Rothschilds, holds more than 70 thous. Tons of our gold. It's just something that has been documented. We have them, of course, we can try to return. But it is necessary to create a state commission with powers that can protect the custodians of documents ", - says Zhelenkov.

According to the historian, half the Soviet gold reserve was overloaded on US ships during naval maneuvers of the Soviet Navy "Ocean-83" (September 1983) in the Indian Ocean. They - an infrequent event - attended by about 40 ships of the Soviet merchant fleet.

Interestingly, the originals of most international agreements concluded by the Soviet Union and its "probable enemy", including documents that scam, disappeared from the archives of the Central Committee immediately after the events of August 1991. A few months later in a unified Germany "pops" a very high rank of the party of the International Department of the Central Committee. They say that his own departure, and a one-time crossing the Soviet border near Brest without border and customs inspections of seven trucks "Sovtransavto" supervised by the same people from the already created Ministry of Security of the Russian Federation.

By the way, the remaining half of the real golden bank reserve Union - a little more than 5 thousand. Tons - tried to find people of the first president, Boris Yeltsin, when they found almost zero - only 240 tons - on gold accounts of the State Bank of Russia. Attracted even detective agency Kroll, paid for his work millions of dollars under the pretext of search for "gold party", but alas ...

Golden dependence

In 1969, in just a year and a half after antidollarovogo demarche de Gaulle (he demanded the US to change cutting paper on a specific French gold), almost all the major world powers have agreed to fix the amount of its national bank's gold reserves ("PO"). USSR said that his "PO" is a little over 10 thousand. Tonnes. Motivation disclosure gold reserve was simple - the then leading currencies of the world were the gold standard, which simplifies the international settlements. A Union trade not only in oil, gas and other raw materials, as it is today. And the Union of party calculations was crucial.

By the way, **at that time we could finally dump the dollar as the sole international currency by selling their products for the so-called transferable ruble**. This insisted predsovminna Alexei Kosygin. But Leonid Brezhnev, was already on the "détente", refused his usual rude manner.

But it was only the first step. August 15, 1971, US President Nixon during a speech on national television announced the temporary ban on the conversion of the dollar into gold. Golden Software Majors kicked the bucket. The world moved to the era of floating exchange rates.

After 6 years - in 1977, **seven high-ranking Soviet party officials (two of them are still alive and doing well enough) signed with the International Monetary Fund and the World Bank (read - the Rothschilds, who, not hiding, behind these seemingly international organizations) package closed agreements**. Among them is the Declaration on the phrasing out of economic sovereignty by limiting the emission of the national currency - a full-fledged Soviet ruble. From now on, print if the State Bank of the USSR will not be as much need for economic

development, and in abbreviated form. Slowly approaching the volume of the domestic money supply, in accordance with the volume of its foreign exchange reserves. That's when the Soviet economy began to drive to a standstill. **At the same time, and the mechanism was launched collapse of the Soviet Union**. Although agreements have been concluded for 25 years, the Union "choked" before.

US is no limit. Hence, including the American breakthrough in the science, production goods demand, the development of the US military-industrial complex and the arms race. They could afford it, we - there is because of the limited issue rubles.

Lawyer "Empress"

The first such opportunity sounded more former mayor of St. Petersburg, Anatoly Sobchak. He is not waiting for the end of all forensic examinations and decisions of the State Commission for the identification and burial of the remains of the royal family, she was handed Maria Vladimirovna certificate of death of Nicholas II. And then, after losing mayoral election to Vladimir Yakovlev became their personal attorney. Evil tongues even claim that his daughter Xenia was engaged to the son of Maria Vladimirovna George. But the lie, of course.

"Death certificates are important from the point of view of the law of succession - without an investigation and rehabilitation of Nicholas and the royal family would have been impossible. In early October 2008, the Presidium of the Supreme Court finally rehabilitated shot Nicholas II, his wife and children. Thus, **in fact legitimize claims Romanov to the throne**" - recalls historian Zheleznikov.

By the way, **the only senior Russian officials, who assured his signature the conclusion of the state commission on the authenticity of the remains of Nicholas Romanov, was killed a few days ago, Boris Nemtsov**. Russian Orthodox Church officially recognized the authenticity of the remains is not so far. Complete the Local Council since then not going.

Dr. Mengele of the Bank of Russia

Only lazy opposition is not Hayot policy of the Central Bank of Russia, batten down the key interest rate to 15% and sentenced to the impoverishment of the country. And in vain, by the way, Hayot. Ms. Nabullina operates strictly within the law about the CBA. Whoever was in its place: Ivanov, Petrov, Sidorov, or be forced to behave the same way.

In the early 90-ies of the last century, when US advisers in the government was like dirt, they "helped" write the law on the Central Bank. In it it

positioned the Bank of Russia complete independence from all branches of the Russian government. More then consolidated this point already in two articles of the Constitution. To really quite tightly. The secret agreement in 1977 became public.

Private shop - the Bank of Russia, rather feresovsky branch can issue **exclusively rubles exactly the amount you receive on account from a foreign exchange sales at other people's money - dollars, pounds, euros and yen Other - natural resources** . Oil, gas, coal, metals, etc. And exactly the same amount release rubles. Fell revenue from black gold - fell money supply in the country. No money to pay pensions, salaries, unemployment benefits. There is nothing to pay defense plants that make weapons. Not much to buy medicines, medical equipment, food - hello, hungry 90s. Raise prices - Throw a little on poverty for people to die of hunger. To finance the economy, to give money to the government - no, no - the law will not allow it. And all references to a possible rise in inflation, the collapse of the ruble - to deceive gullible voters. This, of course, a very rough outline, but it allows us to understand in what bondage, or rather colonial dependence, climbed the country. The Law on the Central Bank of the mass of more of the same nuances. Up until the full jurisdiction of their acts.

And the owners of life - primarily the United States and major European countries - no such problems. His money they can print any number without looking at the world opinion.

"The financial system of any country can be compared with the human blood circulation. There is blood - he is alive. No - he died. There was a Nazi war criminal - Dr. Josef Mengele. Among the experiments that he conducted on concentration camp prisoners, were the experiments with minimum vital amount of blood in the body. Pumped out - a little pumped. Central Bank of Russia to supply the private Fed repeating the experiments in the scale of the vast country. Life must have lukewarm " - says Zhelentkov.

According to him, "in the early twenty-first century, the Rothschilds planned to transfer operational centers in the US Federal Reserve to other countries."

"The main focus is to move to the Autonomous Region of China Macao. By the way, the work is in full swing. This state can lead a trade war with each other, and multinational financial corporations are above these petty squabbles. In Russia it planned to create one of the duplicate points. Then head of the Central Bank of Russia **Sergei Ignatyev** was even sent a formal handwritten letter from a certain "guardian of the Russian Federation in the G-48" (see. "One hundred years ago, Russian and Chinese capital created the US Federal Reserve") with the alias Severino. In the letter, he offered money to unlock two (№4302011 and №009100050-5) and one metal account (№1109879), which the Fed has opened at the Central Bank of Russia. Total assets in these accounts is estimated in the same letter to 2.219 trillion dollars. Unlock accounts and needed to create a backup center

Fed. But for some reason it did not happen. It would seem - that they are saving investments in the era of sanctions. Take, invest in the development of industry, construction, technology. Developing countries, taking it from colonial dependence "partners." But it is impossible, the Central Bank will not care to anyone, including public bodies. And most importantly - everything according to the law ", - says Zheleznikov.

As explained, "AN" interlocutor in the apparatus of the State Duma, has worked there for over 15 years," the bills on the nationalization of the Central Bank, the establishment of the exchange rate and the volume of issue of the national currency by the Russian government have been made several times. But they did not even reach the discussion at the plenary rejected the threshold relevant committees. Basically, with reference to what is needed to change the Constitution, and is a sacred cow. "

The struggle for the soul

Immediately after the New Year holidays by the Kremlin and gosdumovskim offices began to walk some analytical note. Read it allowed strictly on receipt "familiar." The output of who prepared it on two sheets of the text has not been specified, but usually by reference to her sides point the finger at the sky. This is equivalent to the expression of the clerks of the Soviet era: "There is an opinion." Readers nods knowingly and put on the accompanying sheet flourish.

It is noteworthy that **with this note introduced not all, but only the most influential members of the ruling party**. Brief essence - in the preparation of uniting all Russians, but a ceremonial figure. As such, it was named Grand Duchess Maria Vladimirovna and her son George. The first step is to **prepare public opinion for a change in Russian legislation with virtually a presidential republic to a constitutional, or rather a ceremonial monarch**. A sort of British version of "Queen reigns but does not govern." All power to the real management of the country, according to the note, the waste to the Prime Minister. The procedure for his appointment and the candidate's name is not specified.

The main motive of such a radical step was explained by the fact that in the case of continuing the policy of stifling the country's massive popular unrest is inevitable, "the situation could spiral out of control." The drafters of the note does not exclude holding nationwide referendum, of course, organized by the Central Election Commission. And the resounding 'yes', which will provide voters.

"The fact that the introduction of the institution of monarchy and hereditary rule of the country (Grand Duchess Maria Vladimirovna and heir George) under real control levers have supported the majority of the inhabitants of the country's prime minister will allow less painful to pass the economic peak load coming decades," - notes the key phrase.

The argument historian Zheleznova

- PR project "heirs of Maria Vladimirovna Romanov Nicholas and Grand Duke George," as already wrote "AN", and funded Created by the Rothschild family with only one purpose. After joining the inheritance rights they should give up all claims to the royal gold, the Fed provides dollar monopoly on world financial domination. Rothschild is important to keep a semblance of legality of all procedures. Then, even having the necessary documents to reverse history will not be possible.

- Readers had a lot of questions about the extent of gold - 48.6 thousand tons. Why such huge numbers?

- The Romanov family was the richest of the royal family in the world. With Alaska and Russian California in total were exported nearly 26 million tons of gold. The royal treasury was kept French gold received as reparations after the victory over Napoleon. The idea of creating a **Russian-American trust** and were involved in the largest private miners empire.

- If Maria Romanov recognized heir, she will receive all documents in the gold ...

- Catastrophe. Although such work is carried out. March 6, 2013 at the Assumption Cathedral in the Kremlin actually happened Hohenzollern Coronation of Mary (nee Romanov). Patriarch Kirill celebrated the Divine Liturgy in the Patriarchal Cathedral of the Assumption of the Moscow Kremlin in honor of the 400th anniversary of the Romanov House on the royal rank, publicly called her "legitimate Russian Empress," and her father and grandfather Vladimir Kirillovich Kirill Vladimirovich - legitimate sovereign and Russian patriots. Attended by church hierarchy and secular officials. Including the head of the Central Election Commission Vladimir Churov and United Russia deputy of the State Duma Mikhail Markelov.

Nobody words of His Holiness Patriarch not jarred. Although grandfather Maria Vladimirovna was deprived of all rights to Nicholas throne because the Orthodox canons and contrary to the laws of the Russian Empire, he married his cousin Victoria Melita. Father wore epauletts SS-Obergruppenführer. Before the outbreak of the Second World War, he assumed command of the Corps of the Imperial Army and Navy (KIAF) numbering 15-17 thousand bayonets. Also, he subjected the Russian-French volunteers who fought in the SS division "Wallonia", "Sharleman" and the Danish housing SS.

Son, daughter, or rather, for the sins of the fathers, of course, does not answer. But the "sovereign" - Commander of the Order of Malta, who is appointed by the head of the Pope. Her son George also holds the title of bailiff Malta. Orthodox people of the statute simply can
