This is one interview you shouldn't miss!

Greg talked with former Ambassador Leo Wanta, a former U.S. Treasury official under President Ronald Reagan. Wanta spent 134 days in a Swiss dungeon and is still serving, under house arrest in Switzerland, 10 years of a 22 year sentence for bogus Wisconsin income tax charges.

Wanta tells how he saved President Reagan from an assassination attempt, as well as how he gave Vince Foster \$250 million earmarked for The Children's Fund and its chairman Hillary Clinton right before Foster was found dead.

Wanta also holds the financial key to perhaps one of the biggest bank heists in U.S. history, amounting to \$752 billion of money stolen by the Illuminati that should be in the U.S. Treasury. He also was appointed trustee of \$27 trillion, made as U.S. profits during the days he helped orchestrate the destabilization of the Russian currency.

A recent federal court ruling held in favor of Wanta's trustee authority of the enormous amount of money, an appointment made by Reagan. Presently, he said the only thing keeping him alive is "I know where the money is and they don't," wanting to return it to the U.S. Treasury and the American people before the criminals in Washington, including Bush and Clinton, manipulate the money into private accounts using the fraudulent Federal Reserve system to their advantage.

The Wanta Reconstructing-America Plan
By Preston James

Unbeknownst to most American's, Ronald Reagan's authorized his personal Secret Agent Lee Wanta to build an American High Speed Rail (HSR) Maglev Bullet Train system that was capable of speeds of 225 MPH.

Not only did Lee Wanta create a viable, realistic plan to do so, he actually raised the necessary funds to do so. And that marvelous plan is still ready to be implemented, fully funded, and constitutes the very best clear and certain path to the reconstruction of American heavy industry and manufacturing, while providing two million new high paying American jobs for American Citizens. In the early 1981, United States President Ronald W Reagan gave a mandated order/directive to Lee Emil Wanta under Presidential Executive Order No. 12333 to design and implement an MX Mobile Missile Rail-car based system.

The Bush Cabal is still hanging on to their power, using Cutouts and Puppets.

The Bush Cabal, the folks that assassinated JFK and hijacked the CIA to use as the City of London's Central Bankster's action agent (Cutout), also stopped the Wanta HRS Plan cold, hijacked his money he had raised for the plan, all made possible when they instituted an assassination attempt on President Reagan and bought off many intel, USG officials and some high US military. Few Americans realize that the Bushes cannot legally hold any public office due to an immunity agreement between Prescott Bush with the USG over his trading with the Nazis and exposure for treason through Union Bank, SA as described in a prior Veterans Today article (1). President Reagan authorized Wanta's company, New Republic/USA Financial Group, Ltd., Jackson, Mississippi, USA (a Mississippi intelligence operations group under Title 18 USC Section 6 (line 11) to build or otherwise obtain a rail system capable of moving MX Mobile Missiles.

It was Wanta's efforts to implement this MX Mobile Missile Plan using Railcars for President Reagan that led him to come up with a true High Speed Rail (HSR) Bullet Train System which Reagan quickly approved and asked Wanta to implement according to a pre-planned timetable.

Reagan's directive had to do with an Operational Plan to lawfully purchase the Santa Fe/Southern Pacific Railroad in the U.S. Bankruptcy Court for authorized mobilization and deployment activities. One of those authorized activities involved the movement of MX Mobile Missiles to an underground storage facility at Redstone Arsenal in Huntsville, Alabama. Redstone began as a chemical weapons manufacturing facility for WWII but became the Army's focal point for rocket and space projects (including the development of the first U.S. ballistic missiles and space launch vehicles).

Through using an old bankrupt railroad called Santa Fe & Southern Pacific to move MX Mobile Missiles is a far cry from planning a national high-speed rail facility for the American People. The Wanta High Speed Train (HRS) Bullet Train System that Ronald Reagan authorized Wanta to build was described in a previous Veterans Today article (2). Though most Americans react to such information about the Wanta HSR System (HRS Maglev Bullet Train) Plan with a bit of a "ho-hum" attitude, those who are paying attention to what's going on today understand the significance of the above information in its relationship to another under-reported story. According to a recent story, Russia is now developing a new intercontinental ballistic missile mounted on a railway car in a bid to counterbalance prospective U.S. weapons, according to a senior Russian military officer.(3)

"Colonel General Sergei Karakayev, the chief of the military's Strategic Rocket Forces, said in remarks carried by Russian news agencies on Wednesday that the new weapon would be much easier to camouflage than its predecessor. The Soviet-designed railway missiles were scrapped in 2005." "Karakayev said the Yars missile intended for the project was much lighter than the Soviet-built system and could be put inside a regular refrigerator car unlike its predecessor, which required a heavier and bigger car that could be detected by enemy intelligence." Obviously President Putin has come to believe that the idea of Wanta's Mobile Missiles/Rail Car System is a very important concept that can make a valuable contribution to Russia's defense. So now Putin who has attained the status of a top Rock Star in the West for sheltering the great American Whistle-blower hero Edward Snowden, once again shows his raw intelligence and political reality.

Certainly Putin must be enjoying watching the criminals in charge of the NSA squirm and deny their crimes and Treason while they still accuse Snowden of violating National Security, when actually they are the foreign controlled RICO criminals and Traitors exposed for spying on all Americans and tapping their phones who have violated the Fourth Amendment. It be quite amusing for him to watch these Traitors and criminals be exposed for spying on all Americans and tapping their phones, sending all raw data to Israeli contractors who process it and sell it

14/

to America's enemies and highest bidding corporations, and also use it to blackmail Supreme Court closeted judges to approve illegal healthcare laws, and many other USG officials, judges and politicians to commit numerous illegal, Treasonous and Seditious acts.

Lee Wanta started implementing an excellent plan for Reagan to build the desired MX Mobile Missile Rail-car based system called the LGM-118 (MX) Peacekeeper Rail System.

The direct mandated order that Leo Wanta received from President Reagan told him to purchase the Federal Land Bank building in Jackson, MS, which would be used for logistics and satellite feed. The funds to buy the building and the Santa Fe Southern Pacific Railroad came from the Department of Defense to New Republic/USA (Miss). The money was placed in Deposit Guaranty Bank in Mississippi and the necessary credit cards for field operations were issued by Merrill Lynch to the New Republic/USA Financial Group, Ltd (Miss).

LGM-118 (MX)
Peacekeeper Mobile Rail
Based Missile System

The MX Mobile Missile Rail-car System used Refrigerator cars manufactured by Rockwell International to carry the Missiles incognito. These cars were to be kept in special disguised enclosures until brought into action, when they would be brought out and transported along railroad tracks all over the Nation. This was purposefully leaked to make sure any nuclear armed enemy would be reluctant to go into a nuclear exchange with America given the fact this train based MX Mobile Missile System would almost guarantee mutually assured destruction (MAD) in any nuclear exchange. And this was a sound defense strategy since Putin is now utilizing this novel idea as a major deterrent to nuclear war by any potential enemies.

Before Lee Wanta could fully implement Reagan's directives which included the MX Mobile Rail System and also a true High Speed Rail System (HSR Bullet train), he was blocked by the Bush Cabal and given a bad rap in an attempt to discredit him and stop the implementation of both systems and other changes best characterized as the Wanta Reconstructing America Plan (WRAP).

If you have read Chapter 9 of Wanta's biography, WANTA! Black Swan, White Hat, you are aware that the prosecuting attorney, J. Douglas Haag, a State of Wisconsin Assistant Attorney General, made much to-do about a \$500,000 deposit made to the Mississippi bank, telling the jury the funds were the personal property of Wanta and represented evidence of his guilt as a tax evader in the State of Wisconsin. The funds, of course, came from the Department of Defense and represented nothing of the kind... but AAG Haag had Wanta in a box.

Part of the the Wanta High Speed Rail System Plan (HRS Maglev) was designed to advance the American MX ICBM Missile Defense System.

The money had been provided to purchase a railroad line, right of way and real estate properties that would be used to haul MX Mobile Missiles to defend our great nation - America. The railroad and building for which the funds were provided both were linked to a highly secret mandate from the President of the United States. Wanta could not make that information public at his phony non-jurisdictional - county criminal tax trial for civil tax evasion. Instead, he had to eat a 22-year prison and parole sentence.

At the time of Wanta's Mississippi attempt to purchase the Santa Fe & Southern Railroad so America's MX Mobile Missiles could be moved to appropriate national locations for the national defense, the Central Intelligence Agency (for which Vice President George Herbert Walker Bush had been Director until becoming vice president under President Reagan) was competing against a new intelligence agency that Reagan wanted in place to replace what he believed was a totally corrupted CIA as previously acknowledged by former President John F. Kennedy. The new agency was called Intelligence Support Agency (ISA) and Lee Emil Wanta was to be the Assistant Director of the new American intel-ops group. As is almost always true in the world of political cronyism, the CIA was threatened by the presence of the new group and was probably behind the failure of the acquisitions needed - the railroad and the Federal Land Bank building - to implement President Reagan's plans.

The result: the CIA did not want the MX Mobile Missiles being moved around by the Department of Defense via Wanta's company - a USC Title 18 USC Section 6 (Line 11) intelligence gathering corporation. They wanted to control the operation complete with "set-aside allocations" and other financial motivation to be enjoyed by unidentified participants at the expense of American taxpayers.

The Wanta HRS Train System (Maglev Bullet Train) has important Civil Defense and National Disaster response capabilities.

Lee Wanta says the railroad plan (to be disclosed publicly) was to provide a hurricane evacuation route for Florida, Georgia, Alabama, Mississippi and Texas and that high-speed rail filled that need nicely... That was the story that was to be told to the Public. The hard core reason that justified the costs involved was, however, national defense: the movement of MX Mobile Missiles to critical locations, but civil defense was an important gain that would result from the successful implementation of the HSR System. So there you have the synopsis of why Putin is, in December 2013, taking advantage of the original plan for Mobile MX Mobile Missile System born during the Reagan Administration under the management of Presidential Secret Agent Lee Emil Wanta... a plan that would have saved us from the USSR at that time.

Lee Wanta was working with numerous very high level American Military and Intel on his AmeriRail High Speed Rail System (HSR).

Lee Wanta was working in concert with General James A. Abrahamson, Central Intelligence Director William Casey, former Central Intelligence Director William Colby, and Reagan's Attorney General, William French Smith. Gen. Abrahamson was Director for the F-16 Multinational Air Combat Fighter Program at Aeronautical Systems Division before being assigned Administrator for the Space Transportation System, and was responsible for the nation's space shuttle program. In 1980, he assumed the duties of Deputy Chief of Staff for Systems, Air Force Systems Command Headquarters.

History teaches the importance of Transcontinental Railroads.

If one studies the early 1900 history of the construction of the Transcontinental Railroad connecting a developing economic Eurasian Alliance between France, Germany, Russia and Japan, and would quickly erode their worldwide financial power base which was designed to serve as a substitute to the declining British Empire and loss of so many Colonies. It was this same tribe of central British Banksters operating out of the City Of London Financial District, a separate nation-state with its own ambassadors just like the Vatican, that financed both the Bolshevik Revolution and its much feared Cheka Red Terror, Lenin and then Stalin, Mao and Pol Pot as well as Hitler and the Nazis and now the rogue zio criminal syndicate state of Israel of Rev.2:9 & 3:9.

And it is these same Zionist British Bankster forces at work today keeping America divided into political warring factions in order to keep America divided and conquered, known as the "Perfidius Albion" plan of secret colonization and/or nation-state financial infiltration and hijacking in order to massively asset strip. These very folks, the Zionist infil-Traitors, the enemies inside the gates of America and their political puppets and Cutouts owned by AIPAC, and B'nai B'rith super-masons, are the entities that have worked so hard to keep Lee Wanta from activating his Reconstructing-America Plan and have prevented him from access to his personal money which has been awarded to him by a Federal Court Order.

¹⁴⁴“Chameleon” was an intelligence operation involving Swiss banks (particularly Credit Suisse) that were re-activating what should have been “dead” bank credit instruments—like Letters of Credit. For example, a Letter of Credit from Chase Manhattan might have been drawn down—or may not have been drawn but served as collateral on another credit. Wanta’s investigation involved Credit Suisse, Union Bank of Switzerland and other banks recycling the Letters of Credit from banks around the world—re-activating what should have been dead notes. What was being done was a criminal act.

"Wants explains it this way: 'Say a hoodlum comes to a banker and gives that person a clean, clear, active financial document. You go on the computer and the computer says 'you, that person is the owner!' You, the banker, know the hoodlum is not the owner, but he is going to give you 10 or 12 percent because he's going to re-cycle the Letter – reactivate it. There's one condition before the one-year loan the hoodlum is asking for can be granted by the banker. That once dead but now alive note must be returned and destroyed before the loan to the hoodlum matures (becomes due). In other words, the loan must be repaid before its due date. That way, the bank is not holding the fraudulent financial document because the loan is repaid before it becomes due and the dead Letter of Credit that collateralizes the loan is destroyed.'"

**Say the "dead" letter of credit is in the amount of \$300 billion. Your loan rate for six months is 7 percent - or, \$2,100,000. The borrower places the money in a six-month bank guaranteed instrument (which because the amount is large, is purchased at a 20 percent discount). The borrower has \$300 billion and is able to purchase the investment for \$240 billion. He receives interest on the entire \$300 billion for six months. At that point in time, the \$300 billion investment vehicle is cashed and your profit for the six months is \$2,100,000 - the amount of your bank loan interest. The loan interest is paid and the "dead" letter of credit is destroyed. But if the loan interest totals the same as the profit, did the person make any money on the deal? Re-read sentence three of this paragraph. He bought the investment at a 20 percent discount, spending only \$240 billion for the \$300 billion investment. He netted \$60 billion.*

'A lot of money can be re-cycled that way - perhaps even \$4.5 trillion, broken into numerous "Letters of Credit" which really do not exist but which once were written...' [4]

jobs and the special plans he formed in consultation with Lee Wanta, his secret agent and right hand "can do" man.

Ronald Reagan has been rightly credited with taking down the Berlin wall and ending the evil communist reign of the Soviet Union and East Germany, and his personal Secret Agent and Confidant Lee Wanta played a strategic part in managing this sensitive operation.

What Ronald Reagan was known for was his credo, "Big Government is not the solution, but IS the problem."

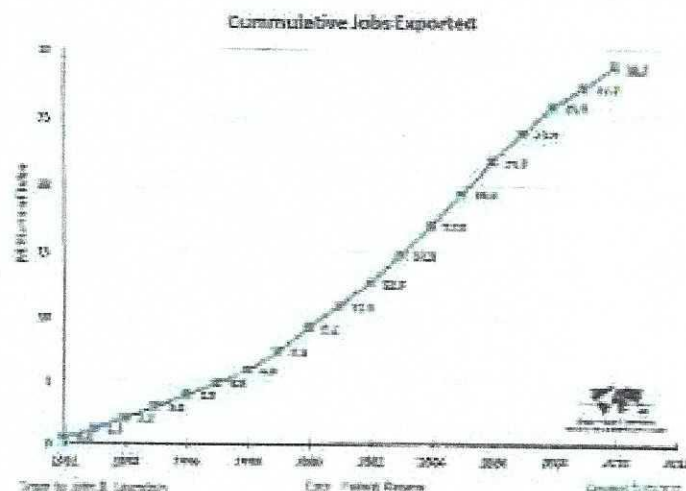

Ronald Reagan like all previous US Presidents was not perfect, and most of his mistakes have been played out. They have been and overplayed by his detractors and political opponents. What he did right and was in the process of doing to rebuild America far overshadowed any of his mistakes and oversights.

Few Americans have ever been informed of what Reagan's dynamic Vision was for America as a restored Constitutional Republic. Even fewer know how he planned to achieve independent Industrial might and prosperity for all willing to work, and what he did while President to bring this about.

The man that was his close personal confidante, Lee Wanta, knows more about Ronald Reagan's Vision for America than anyone else because he worked with the President — reporting directly to him as a secret agent. Wanta helped Reagan develop these plans and was well on his way to implementing them before President Reagan was stopped cold by one of several assassination attempts, which in reality, were all attempts at a coup d' e-tat by the Bush Cabal. Although Reagan lived through the assassination attempt, his power was drastically curtailed by the betrayal and usurpation of many around him...People he thought were his loyal supporters. They jumped ship and joined up with the new City of London backed Bush cabal which although still in power to this day running numerous puppets, its power base is being eroded by the day and its days of unrestricted power are now quite limited. Once the Bush cabal was in place and had aligned it's forces, it instituted major efforts to Globalize America starting with the passage of massive Free Trade Agreements under Bill Clinton who worked for them. Under President Clinton, Department of State grants were provided to finance the cost of exporting American jobs, manufacturing and industry outside America to Mexico and China.

Every single Free-Trade Agreement has been a blatant High Treason and Sedition, both of which are capital crimes against America, a Constitutional Republic and can lead to execution or life-imprisonment upon conviction.

Every single Free-Trade Agreement has been a result of blatant acts of High Treason and Sedition against America, as well as violations of the US Constitution and truly represent acts by "enemies within America" who have been bought off by wealthy offshore international Central Banks and corporations as well as wealthy lobbying groups including AIPAC and B'nai B'rith and the like who serve as agents of control for the Zionist City of London Central Banksters.

There is nothing wrong with "Fair Trade" which is the application of reasonable Tariffs set by an American Trade Board which raise import prices to parity of American manufacturing and used properly prevents unfair advantages from import goods in the American marketplace. Allowing imports at unfair prices to be sold has undermined American industry, manufacturing and jobs under all the Lawless, Treasonous Free-Trade Agreements.

The plan for the Wanta High Speed Rail System (HSR Maglev) is still ready to be actuated and completed by Lee Wanta as negotiated between he and Ronald Reagan as soon as the illegal blocks by the treasonous Bush Cabal are removed.

Central to the Wanta Reconstructing-America Plan (WRAP) is the construction of a true trans-national High Speed Rail System (HSR Maglev) with speeds of 200+ MPH. This is not Rapid Transit (RT) which is limited to speeds 125 MPH or less, typically far less. This is a true state of the Bullet Train like they have in Europe and even China; even more advanced and with more redundant safeguards such as selective/intermittent track segment activation. St. Louis will serve as the central hub where manufacturing, logistics, planning, security and maintenance operations are run, which would certainly vitalize an economically ruined city.

Inside the Dining Car of the Chinese High Speed Rail System.

Inside a Chinese High Speed Rail Passenger Car.

Lee Wanta was a child genius who quickly was recognized when his abilities gained attention in High School.

As a young child, Lee Wanta stood out and was quickly recognized. He was a remarkable childhood genius whose mental abilities were so extraordinary that they eventually came to the attention of his US Senator, Alexander Wiley, who brought Wanta into a long process that involved serving America, the Constitutional Republic, who Wanta dearly cherished. As Wanta went on to pursue numerous functions for the USG he attained many remarkable and extraordinary achievements, and this eventually caught the attention of Ronald Reagan who was always looking for the very brightest talent out there in America to assist with the implementation of his special program to revitalize and strengthen America's Defense while keeping America strong economically.

If one examines and considers Wanta's abilities to process, comprehend, design and activate large scale solutions to serious defense and economic issues and master them in un-obvious and very superior ways, it is obvious that this man Wanta is a remarkable man and is in a class of his own as far as cognitive and mental problem solving capabilities in exceedingly complex situations where no simple or easy solutions seem evident. And yet he does come up with them over and over again.

It is possible that President Reagan was informed by William Casey that he could have his own personal agent to implement his plans and that he had better be careful who he trusted because American Intel was deeply infil-Traited. And it is interesting that Casey has serious distrust of many around him when he was head of the CIA. He brought in his own secret agent Frank Dux to serve him. Dux was at the time an Asian Bloodsport martial artist victor and considered by most experts at the time to be the world's best martial artist and the quickest in the world in hand to hand combat. Casey trained and equipped Dux who then went on to serve and protect Casey diligently and heroically. Dux proved himself to be a hero and a stand up man while serving William Casey. This amazing story can actually be read about in Frank Dux's excellent biography, *The Secret Man* (6). And ignore the superfluous attempts to discredit his story, a quick read of his marvelous book and a fact check will expose these efforts and show Dux to have been the real deal.

President Reagan realized that Lee Wanta was an absolute financial and business genius. Anybody that knows Lee Wanta well realizes he has exceptional social and communication

skills, has a photographic memory for names, faces, places, facts and detail far beyond the norm, and has the ability to comprehend complex economic and financial matters that are so far unmatched by anyone in America.

Conclusion and Call to Action:

And now you have the reasons behind the unique, dynamic plan for the creation of the High Speed Rail System (HSR) and an understanding of the many positive ways it can be used for the good of the American people such as escaping large regional natural (and other) disasters rather than being trapped in big cities and forced to face possible death... and, of course, the HSR System would serve as an essential upgrade to our MX Mobile Missile System and the defense of our Great Nation America, land of the Free and Home of the Brave, as is always of foremost concern in the very busy mind of the man who was Ronald Reagan's top Secret Agent and personal confidant, Lee Wanta.

What can you the reader do? The first thing you can do is send or email this article to your friends and associates and your local newspaper reporter and news desks and to your Congressional Representative and Senators. Then you can call them and followup, and politely encourage them to activate this program. The money is already in place with Lee Wanta as the Sole Beneficiary-Owner and a federal judge has already ruled that the money is owned by Wanta. All that must happen to activate the plan is the enforcement of the American Rule of Law so that Lee Wanta can proceed with the HSR System (HRS Maglev Bullet Train) Plan. And you can make the call and ask your Representatives and Senators to repeal the Unconstitutional Free Trade Treaties that are destroying American jobs more and more each day. This is essential for the real National Security as is the nationalization of the Unconstitutional Central bank and the Repeal of the Federal Reserve Act.

**(Note: James Martinez introduced Marilyn Barnewall to his radio audience and proceeded to let her talk without interruption for an hour about Ambassador Leo/Lee Wanta. Following are her comments):**

Hopefully, if all goes well today and we continue with the second hour on Thursday, we'll be able to explain why what you said on your blog about today's show is true, James: The Leo Wanta Story is the most important news story of 2011. Actually, it's been the most important news story since July

381

7, 1993, when Lee Wanta was arrested – but we all understand that the mainstream media doesn't pay attention to real news. It takes the Internet and talk radio to deal with important issues that no one wants to talk about.

The story starts with a man with two different names – Lee Emil Wanta (birth certificate) and Leo Emil Wanta (baptism certificate) who has been an intelligence operative since he was in his teens, and who as an adult intel operative reported directly to the President of the United States, Ronald Reagan. He is the unknown hero Americans can thank for bringing down the Iron Curtain – and the Independent Institute estimates that 40 years of the Cold War cost American taxpayers \$6 trillion.

The Wanta Saga leads us into the uncharted territory of government corruption when this American hero was arrested and imprisoned for a non-existent unpaid, estimated civil tax scam in Wisconsin. Lee Wanta's story involves other names with which we are familiar – like Vince Foster and Hillary Clinton and Mark Rich who was the last person former President Bill Clinton pardoned before leaving office.

The thing for which Ambassador Lee Wanta is best known is that of being the richest man in the world. Many have called him the \$27.5 trillion man. I hope we'll have time to explain how this one American patriot earned all of that money and how he intended – and still intends – to use it to benefit the people of the nation he so loves.

There is no end to the story – not yet. The reason there isn't an end yet is because not enough people know about what really happened – and that's why I'm here today, speaking on behalf of Ambassador Lee/Leo Wanta. When I talked with Lee this morning, he mentioned that the dollar is taking a bath in the international markets. We also talked about how, if the Federal Reserve, the President and the Secretary of the Treasury would just give him access to his own money, he could stop the fall of the American economy.

Where would you like to start, James?

(Response: You start anywhere you want, Marilyn. The microphone is yours for the next hour.)

AMBASSADOR LEE WANTA 101

## LEE WANTA MEETS RONALD REAGAN AND BECOMES INVOLVED WITH HIS ADMINISTRATION

In 1980, while he was still President Elect, Ronald Reagan was trying to get a number of people he could trust to help him – not the easiest thing to do in Washington DC. So Lee met the future AG William French Smith and Bill Casey whom he already knew through Bill Colby. They began discussing how the East European environment could be better controlled. Over a period of 40 years, the Cold War had cost American taxpayers about \$6 trillion and after Jimmy Carter's disastrous presidency, Ronald Reagan needed to get our financial house in order.

Bill Casey decided Lee Wanta should work with him and the group expanded to include military and other intelligence sources and they had a number of meetings. They agreed that if they had \$150 billion, they could destabilize the Soviet economy. Lee was made Trustor of President Reagan's

401

Presidential Task Force and, in that capacity, was officially responsible for the \$150 billion grant President Reagan approved. He was ALSO responsible for returning it to the U.S. Treasury – and he did. Within six months.

It's important to keep in mind that the original investment made by the U.S. government – the \$150 billion – was repaid. The reason it's important is to answer any question about who owns the money earned after Lee Wanta returned the \$150 billion. Is it the government's money? Or, is it Lee Wanta's money? To answer that question, use the example of a simple car loan. When you borrow money to buy a car, when the loan is repaid, who owns the car? You? Or the bank?

## **NEW REPUBLIC AND VIENNA – GETTING RUBLES**

Lee went to Vienna and established a company called New Republic USA Financial Group and began meeting with people representing nations that did business with the Soviet bloc: Iran and Iraq, for example, sold oil to the Soviets. Nations that were part of the Soviet bloc or who those traded with them were paid in rubles and the ruble couldn't be traded outside of the U.S.S.R. It had to be used within the Soviet bloc – and that was the weakness Lee identified. Lee set up an arrangement with Brinks in Holland and began to obtain rubles with dollars in a variety of ways that included importing American goods at low cost prices and selling them for rubles. They had nothing in Russia... there was little food, little anything. Currency swapping was another way. At the time, it wasn't legal in the U.S., but it was legal in Europe so what Lee did was lawful.

## **PROMIS**

Lee and his New Republic group used Promis Software, which belongs to a company called Inslaw, in Washington, DC. Promis is interlinked to all of the major monetary centers and was used to set up bank accounts for Lee all around the world.

## **RUBLES FOR FROM 18 TO 28 CENTS EACH**

New Republic was able to get boatloads of rubles in the USSR and, on average, it cost them from 18 to 28 cents on the dollar. At the time, the Soviets valued the ruble at \$1.20. USSR pension funds, for example, were in the same kind of danger our pension funds are in today. All of them were glad to trade dollars for rubles with New Republic. Lee got rubles from the embassies, foreign funds, KGB funds, Soviet pension funds, postal funds, military GRU funds, Soviet central bank funds – they were picking up Soviet currency from everywhere. When New Republic got the currency under its control, Brinks of Holland wrapped and verified it.

## **SINGAPORE DEVELOPMENT BANK**

New Republic would send 70 billion in rubles to the Development Bank of Singapore, for example. The Soviet's valued their currency at \$1.20 per ruble, Lee's \$70 billion – for which he had paid only about \$14 billion – was worth US \$84 billion. The Russians argued about the \$1.20 amount, so Lee finally agreed to accept only \$1.08 – but, remember, he had only paid from 18 to 28 cents per ruble. The Soviets thought they were getting a great deal because rather than having to pay the

Settlement Bank \$1.20 a ruble, they only paid New Republic (or Lee Wanta) \$1.08. The Russians thought they had really put one over on him... and I'm sure he laughed all the way to the bank. The guy is a financial genius.

### **REAGAN SIGNS 12333**

It's important to know that President Reagan signed Executive Order 12333 on December 4, 1981. It enabled US intelligence operatives who had been briefed to operate on behalf of the United States to establish corporations that were wholly-owned by the intelligence operative. They could enter into contracts with intelligence and other elements of the US government. Leo Wanta conducted extensive intelligence operations in accordance with three separate Executive Orders implemented by President Ronald Reagan, whom he briefed and from whom he took orders directly, in a personal capacity. President Reagan called Lee Wanta his "favorite junkyard dog" – and that's what he meant by it.

### **SELL RUBLES FOR 32 CENTS TO COUNTRIES OWING USSR MONEY**

Lee and his partner also talked with Germany, Poland, Pakistan, Hungary, India, China, and other countries that owed money to the Soviets. They offered to swap rubles with these countries at 32 cents apiece. That allowed the debtor countries to repay their USSR debt for 32 cents on the ruble (which the USSR still valued at US \$1.20 each). It's important because that's what triggered the destabilization of the ruble... Lee Wanta re-set the value of the ruble to 32 cents. In other words, the money loaned by the Soviets to these other countries was pegged at \$1.20 per ruble but re-entered the Soviet system at 32 cent per ruble when the debt was paid. The currency fell as a result of this strategy.

### **2000 METRIC TONNES OF GOLD**

When the currency fell, Moscow needed cash. Lee, through New Republic, agreed to purchase 2,000 metric tonnes of gold from the USSR central bank – at \$1.08 per ruble – but with rubles that had cost him only 18 to 28 cents each. I would again point out that the \$150 billion that came from the Treasury Department to fund Lee's operation was paid in full by this time and Lee and his company, New Republic, was making huge profits. The money used to buy the 2,000 metric tons of Russian gold belonged to Lee Wanta.

### **HOW LEE MADE \$27.5 TRILLION – BANK GUARANTEES**

Lee bought prime bank guarantees at 7.5 annual interest that had ten year plus one-day maturity – New Republic was buying them at a 66 TO 68 percent discount par value per hundred million dollars and could either loan them or sell them or transfer them at 88 to 92 percent which meant they were making twenty million dollars par value per hundred million invested and they were doing this over and over again, every hour on the hour. It generated a tremendous amount of money... and that's how Lee Wanta created \$27.5 trillion.

### **THE MONEY IS LEE WANTA'S**

42

I said earlier that Lee was the Trustor for the Presidential Task Force and the guardian of the original \$150 billion President Reagan used to implement this plan. He repaid the \$150 billion within six months. Under Executive Order 12333 (and a couple of others), the money he invested and earned after the \$150 billion was repaid to the government was his, not the government's.

## INSPECTOR GENERAL DOD LETTERS

I think it's important to remember that before Lee Wanta's world got turned upside-down, Senator Chuck Grassley and by Congressman Roth wrote letters to the Reagan Transition Team, recommending Lee Wanta become the Inspector General of the Department of Defense. He was given an award for saving President Reagan from an assassination attempt. Those things – and many others – are a matter of record at the Reagan Library.

## WHEN DID THINGS CHANGE FOR LEE WANTA?

Lee was in Vienna, Austria – where he has been a legal resident since June of 1988 – and was working with the Chinese against the USSR. He went to Singapore to meet with his Chinese counterpart, Kok Howe Kwong. Howe's Dad was very highly placed in the Chinese government and was a recognized former Chinese Warlord. Howe's father told Lee that if he would put up \$25 million, Howe's father would put up \$25 million for his son and Lee and Howe could purchase and own Aneko Credit PTE, Ltd., a Singapore bank.

About that time, former President George H.W. Bush visited Singapore and was unaware this intelligence operative named Leo Wanta was now co-owner of a foreign bank in Singapore in which Bush senior was a depositor. Lee says Bush stared at him when he saw him at Aneko Credit Point Ltd – Lee's and How's bank. President Reagan didn't trust George Bush and whenever Bush would ask Lee a question about what they were doing, Lee says he referred him "back to the President" or to William Smith French or William Casey. Lee had been told to keep quiet and just get his job done and that's what he did.

As the story has been told to me – and I have no documentation on this other than Lee's word and all I can say is I've never caught him in a lie – when Bush senior found out that Lee and Howe owned the bank, he demanded a pay off from them – whether for himself, personally, or for the U.S. Treasury, I have no idea – and this gets back to the importance of who did the money belong to and when. Lee's partner, Howe, evidently blew up all over the President at such a suggestion. Two weeks later Howe died in Singapore General Hospital of rat poison. General Vernon Walters confirmed to Lee Wanta that a hit had also been put out on him for that same night. It was only by the grace of God he missed the trap that had been set for him. When that happened, Lee says Dan Quayle arranged for him to leave Singapore and get into Canada. He lived in a secure situation in Toronto for awhile.

## WHERE DOES THE AMBASSADOR TITLE COME FROM?

During the Reagan years, Leo Emil Wanta was appointed Ambassador of Somalia to Switzerland and to Canada. **SDR DIPLOMATIC PASSPORTS 04362 AND 12535**
