## **CHENEY BRIBES OFFICIALS TO ABORT WANTA PAYMENT • WE CATCH THIS IN 'REAL TIME'**

Finally, payment of the diverted \$4.5 trillion was to be paid, after seven months' delay, with developments being monitored for us in 'real time' by investigators and US Treasury-linked compliance officials. But at the very last moment, it was revealed that Vice President Cheney had ordered relevant officials to be bribed not to pay.

**UPDATE:** 8.30pm London time 02 February 2007: We have just been informed by officials in the most sensitive locations deep inside the US Government, and in the appropriate department, that what we publish below is 'right on target' (quote unquote). That refers to the **WHOLE** of the article:

**The Vice President of the United States, Richard Cheney, against whom a subpoena issued by the International Court of Justice (ICJ) is outstanding and whose own personal immunity from its consequences has not been lifted, bribed one or more officials associated with the US Treasury Thursday or earlier this week, to stall the Wanta Settlement payment.**

**Corrupt monies were actually transferred into the bank account(s) of the bribed officials, to stop the Wanta Settlement, according to investigators and Central Intelligence Agency 'white hat' sources.**

**PRESIDENT BUSH SIGNS PAYMENT PAPERS AT BANK OF NEW YORK**

On Wednesday 31st January, President George W. Bush Jr. appeared at the offices of Bank of New York, in New York City, where he personally signed off the documents authorising the \$4.5 trillion payment to be made to the securities account of Ambassador Leo Wanta's AmeriTrust Groupe, Inc. He did this in accordance with his undertaking not to impede the Wanta Settlement any further, given to the ICJ by Ms Condoleezza Rice, as mentioned in our previous report.

But the documents were not executed via US Treasury compliance, which was irregular. As a consequence, the system was short-circuited for improper off-balance sheet and other purposes, enabling Cheney and his corrupt associates to access the funds in order to generate yet further off-balance sheet, untaxed accruals using the Ambassador's money without Wanta's permission.

Specifically, on Thursday 1st February, Cheney corruptly negated the authority of US Treasury compliance staff, preventing them from activating the prearranged banking codes and remitting the \$4.5 trillion at last to the Ambassador's securities account.

**CHENEY COUNTERMANDS EXPLICIT INSTRUCTIONS OF THE PRESIDENT**

In so doing, he countermanded the signed bank instructions of the President of the United States himself, representing an act of treason which probably has no historical precedent. This arrogant man appears to be running rings round President Bush Jr., who may or may not realise that Cheney, like Paulson, has been thumbing his nose at the White House for his own personal gain.

Prior to the arrest of US Treasury Secretary Paulson, we predicted that his arrogance would lead to a dramatic fall: and this duly happened. We now predict that Vice President Richard Cheney is heading for an even more humiliating stumble, and, having delayed his resignation, may find that his official colleagues turn sharply against him.

**INVESTIGATORS AND 'WHITE HATS' FURIOUS AT THIS FURTHER ABUSE**

Furious investigators have informed the Ambassador and Michael C. Cottrell, M.S., the Executive Vice President and Treasurer of AmeriTrust Groupe, Inc, that – and we quote – 'Cheney bribed somebody in the Treasury not to make the payment'. This statement was separately confirmed by 'white hat' sources at the CIA, Langley. The sources added: 'Cheney et al tied the money up to work it through the weekend'.

It is believed that these rogue operatives knew that Mr Cottrell was deliberately refraining from authorising any further Internet postings this week, given his acceptance at face value of the 'line' that payment was to be completed by Friday 2nd February. Such assurances can no more be relied upon than official signatures on US documents, as the whole world now knows.

The \$4.5 trillion tagged and earmarked for the Ambassador and AmeriTrust Groupe, Inc, remains located at Bank of New York (as previously reported). Banking codes are normally valid for 48 hours, but on this occasion the period was extended: it expired automatically at midnight Eastern Standard Time on Thursday 1st February. After midnight on the date of expiry, the old codes cannot be activated and new codes must be issued for the following week.

**FUNDS BEING RUN THROUGH CLOSED CENTRAL BANKING NETWORK**

It is thought that Cheney and other operatives are running the funds through the Federal Interbank Settlement Fund – the closed, unsupervised 'central bank' network which enables crooked Federal Reserve officials and their associates elsewhere in the US Federal structures, and in parallel structures abroad, to generate fiat money funds beyond all scrutiny and to stash the untaxed proceeds into offshore bank accounts.

Investigators informed us at 3.00 am UK time on Friday 2nd February that enormously large dollar movements out of the United States to a 'back room' operation at the Bank of England, which functions round the clock, have been monitored. The Bank of England office is issuing short-term loans with interest rates starting at 25%, the informed New York financial sources tell us. These loans represent bridge (or 'gap') loans to large businesses.

**● The resulting US dollar deposits, running into trillions of dollars, are being returned to the United States – a process known as 'churning'.**

The corrupt officials are believed to be exploiting the \$4.5 trillion cash-cash deposit belonging to Ambassador Wanta, which is a rare example of the hard dollar cash from which collateralised hypothecation transactions can be (illegally) mounted. In other words, Cheney et al are using Wanta's \$4.5 trillion, as a 'piggy bank'. We were also informed by the same Treasury sources that Henry M. Paulson is involved in these illegal financial operations: in other words, though disgraced following his arrest in Europe, humiliated and without ICJ immunity, Paulson has predictably resumed the scamming operations in which he was notoriously engaged before his arrest.

### **BANK OF ENGLAND APPEARS TO BE A CO-CONSPIRATOR**

These operations, facilitated by the Bank of England which accordingly appears to be a co-conspirator to the misuse of the underlying funds, are being run through the Federal Interbank Settlement Fund in a massive orgy of fiat money-making which must certainly be approved by the Chancellor of the Exchequer Gordon Brown.

There may be a reason for this. Mr Brown, whose conduct of Britain's financial and economic affairs has been quite appalling (all the UK numbers, macroeconomic and financial, look dreadful) may be on the threshold of power, given that the Prime Minister, Tony Blair, was questioned on Thursday for a second time by police investigating the loans-for honours affair. On Wednesday, his 'gopher' friend Lord Levy, in charge of raising funds for the Labour Party, was arrested for a second time.

[Underlying this 'loans for honours' scandal is the corrupt manner in which British political parties are financed. An illegal UK 'Black' intelligence agency, GO-2, situated inside MI6, runs two drug cartels into Britain, devastating the lives of thousands of British people. Proceeds from these evil operations are laundered to finance the political parties.

One way this is done is to entice ambitious businessmen and others burdened with large egos, with the prospect of a knighthood or a peerage, in exchange for, say, a soft loan or a donation of £1.0 million. Sensitive sources inform us that a hidden component of such transactions involves the targeted 'donor' or 'lender' being 'promised' the repayment of his donation or loan, plus a matching sum, to be deposited into his offshore bank account, no questions asked. GO-2, like elements of MI6, serves the interests of the Pan-German establishment – the strategy of which is determined by our friends at DVD: Deutsche Verteidigungs Dienst, Dachau, the Magus of which is allegedly George H. W. Bush Sr.

Both the United States and Britain – collectively 'the Main Enemy' – are victims of long-range DVD corruption strategy, which is intended to reverse the outcomes of two World Wars and to hasten the mad idolatry of the New (Under)world Order, which these secret continuing Nazis believe they will eventually dominate].

### **U.S. HOUSE BILL TO ABOLISH THE FEDERAL RESERVE**

The US House of Representatives has a Bill to abolish the Federal Reserve (see previous postings) which had been expected to be approved on 1st February. The House appears to have refrained from voting on this Resolution, raising suspicions of collusion with the Cheney-directed (OMEGA OPS) conspirators, to enable further fiat money to be generated from Wanta's funds pending the Fed's abolition – following which the Treasury will assume central banking functions.

The current (110th) Congress House Bill [HR. 2778: UNPUBLISHED as at 02 February 2007] contains a schedule for phasing out the Federal Reserve, details of which, like the Bill itself, had not yet been disclosed when this posting was finalised.

**UPDATE:** We now understand that the Bill was passed but was NOT SIGNED, which strongly implies that the President of the United States may still be a co-conspirator with the Vice President.

When the Federal Reserve is abolished, the Federal Interbank Settlement Fund will be closed down along with it – shutting off the lucrative conduit which has been heavily exploited by rogue criminal operatives within the Fed and the Federal Government for untaxed, off-the-books, unsupervised self-enrichment, and other nefarious purposes.

On the face of it, therefore, it seems that the crooks concerned may have colluded with the House of Representatives to delay the planned abolition of the Fed in order to maximise the potential of corrupt transactions via the discredited Federal Interbank Settlement Fund.

### **MASSIVE PAYMENTS ALL WEEK LONG**

All week long, massive secret financial transactions have been instigated by the Treasury, with CIA-controlled funds being delivered all over the world. Payments were being made to central banks and to some 'Bretton Woods' payees. Meanwhile the Pentagon is expecting to receive funds for Iraq next week, even though the idea of putting 21,500 extra troops into a city of over 6 million people in the prevailing circumstances is acknowledged by almost everyone, including senior US military officers, to be certifiable lunacy.

As is well known, Cheney is being exposed in the Libby trial, the outcome of which, along with the ICJ subpoena which remains in place, makes it a virtual certainty that this ever more discredited Vice President will be unable to extend his borrowed time in office in accordance with his evident preference. Sources say he adamantly refuses to resign, but it is thought that events, domestic and foreign, may not accommodate him on this score.

When Cheney is called as a witness, the first question the Prosecutor should ask is: 'Are you presently subject to any subpoena or any other judicially assisted court process?'

### **DISGRACED PAULSON BACK AT HIS OLD CORRUPT TRICKS**

Additionally, Henry M. Paulson, whose arrest in Europe in December led to his being obliged to submit to the indignity of having the day-to-day running of the Treasury taken over since 26th January 2007 by the Deputy Treasury Secretary, Robert M. Kimmitt, was given a hard time on 31st January by the Senate Banking Committee, as reported in the press on

Thursday. Paulson and up to 18 other senior officials are crowding under an immunity 'umbrella' arranged with the International Court of Justice. Their immunity is strictly conditional upon fulfilment of the Wanta \$4.5 trillion Settlement payment. Since this payment has again been diverted, the immunity offered to these operatives remains pending only. That means that every time these people travel to certain countries, they risk being arrested, like the disgraced Mr Paulson.

The intended illusion of 'business as usual' in the American capital, is misleading: no business can proceed as usual in Washington, DC, until the \$4.5 trillion Wanta Settlement has been implemented in accordance with the May 2006 agreement and the requirements of the international community and the International Court of Justice.

### **ROGUE OPERATIVES RUNNING AMOK AS THE CRISIS THEY CREATED ESCALATES**

Various despicable hired hacks working for rogue elements of the US intelligence community continue, meanwhile, to denigrate the Ambassador and the Editor of this service. At least one of these operatives now has a 'Case Number' and is under surveillance, while two others' libellous output is being closely monitored for appropriate action upon advice.

What we are dealing with here is a rogue group of globalist criminals operating from inside the US intelligence community and the Federal Government, exploiting its protection, and that afforded by high office, for personal gain and in furtherance of a nefarious agenda which has nothing whatsoever to do with the interests of the American people.

### **U.S. OFFICIALS PREPARED TO IMPLICATE THE VICE PRESIDENT**

The fact that investigators and even 'white hats' within the CIA have been prepared to confirm to us that the Vice President of the United States, Richard Cheney, has bribed officials associated with the US Treasury to enable him and his associates to preside over the further diversion, stalling, collateralisation, hypothecation and exploitation of Ambassador Wanta's tagged funds yet again, is a domestic and international financial scandal of unprecedented proportions.

The investigators and CIA 'white hats' have even specifically stated that money was placed in the bank accounts of the bribed officials, for this purpose. That's pretty explicit.

The sooner these criminals are flushed out of power and are made to pay dearly for their criminality, the better for America and the Rest of the World, which remains aghast at these developments. These renegades are despised and loathed by all upright people everywhere.

### **U.S. BANKS' REPUTATIONS COLLAPSING WITH THE CLEPTOCRACY**

Do not imagine that this is the end of the Wanta Settlement. The funds remain tagged with Bank of New York, which has not, as it should have done, transferred the \$4.5 trillion to the securities account of AmeriTrust Groupe, Inc, with Morgan Stanley, New York.

Not only are the reputations of named US officials in shreds, but the standing of major American financial institutions is in jeopardy – as leading international money men prepare to run for the exit, which will occur any time now, given the continuation of these criminal operations.

There is of course no telling what will happen next. By hijacking the settlement process yet again – after President Bush had travelled to New York specifically to sign off the documents with the Bank of New York – Cheney is committing further treason against the United States, and deserves to be arrested and impeached, according to US sources consulted by the Editor of *International Currency Review*. His arrogance is such that he believes he is above the law, both domestic and foreign.

### **THE DIRTY MONEY THEY ARE MAKING WILL WIND UP BEING WORTHLESS**

Funds that ought to have been deployed not only to begin paying down the US Treasury's massive background debt, but should also long since have been financing crucial American domestic projects, as well as being employed for underwriting the new securities system (as mentioned in our previous posting), have instead been siphoned off repeatedly by a desperate, arrogant rogue group of US mafia criminal operatives who are sabotaging the future of the United States, and who appear to be impervious to the increasing likelihood that they are fostering a global financial catastrophe. The irony is that all the dirty 'funny money' they have been generating, and continue to summon out of thin air, will wind up being worthless if the balloon goes up and a run on the US dollar, the like of which has never been seen, starts in earnest.

## INTERNATIONAL WARRANT FOR ARREST OF BLAIR • CHERTOFF STEALS WANTA'S MONEY

In this report, we revealed, almost in 'real time', that Tony Blair, Angela Merkel, Cheney and Paulson, plus 18 others, or whom 10 are US public officials, were named targets of arrest warrants being issued by the International Court of Justice. The payment should have been made by close of business on 9th February. Chertoff stole it...

[Note: [CLICK HERE](#) now reads NEWS: February 2007].

### **GERMAN AUTHORITIES REISSUE INTERNATIONAL ARREST WARRANTS**

The state office of Mme Angela Merkel, the German Chancellor, has authorised the reissuance of warrants issued last December by the 'ad hoc Tribunal' of three European Justices in Germany in accordance with the subpoena of the International Court of Justice, for named financial operatives holding high office in Britain, the United States and Germany itself, as well as named central and commercial bankers, to be arrested. Twelve senior US public officials are included on the list of 22 people for whom such warrants are being despatched.

Last December, the US Treasury Secretary, Henry M. Paulson Jr., was arrested on such a warrant after he had been specifically warned not to divert funds illegally but proceeded to do just that, while on German soil. He languished under police custody until 'exfiltrated' by British operatives. Subsequently he has been surveilled continually by British agents allegedly working for Tim Spicer's Sandline operation, which has a contract believed to be worth \$350 million with the Pentagon, which cannot trust American agents to carry out its instructions.

### **U.S. JURISDICTION GIVEN BY SUPREMES TO ICJ WARRANTS**

Two US Supreme Court Justices and one retired US Supreme Court Justice, who travelled to Germany immediately following our report posted here at [www.worldreports.org](http://www.worldreports.org) on 2nd February 2007, have conveyed US legal power to the Justices of the 'ad hoc' Tribunal, for the named perpetrators of massive ongoing financial crimes to be arrested on US soil, as well as elsewhere.

Thus the familiar argument that the writ of the International Court of Justice does not run in the United States has been overturned for the purposes of this widening criminal investigation.

As indicated, it is now understood that 22 individuals were crowding under the 'immunity umbrella' which WAS strictly conditional upon the Wanta Settlement payment of \$4.5 trillion being lodged in the securities account of Ambassador Leo Wanta's Commonwealth of Virginia-based AmeriTrust Groupe, Inc. with Morgan Stanley, New

York City. However the immunity pardons have now lapsed. This is because unless the \$4.5 trillion had been paid to AmeriTrust Groupe, Inc., **BY CLOSE OF BUSINESS EASTERN STANDARD TIME ON 9TH FEBRUARY**, the ICJ immunity from arrest sought by the 22 criminal financial operatives **WOULD BE NULL AND VOID**.

The \$4.5 trillion was not remitted, so the immunity documents have lapsed.

Twelve of the 22 operatives facing ICJ warrants are senior US public officials. Associates of AmeriTrust Groupe, Inc. have informed the Principals that these officials are unconcerned about the ICJ warrants, even though they are now strengthened with jurisdiction within the United States – because they believe that President Bush Jr. will pardon them at the end of his term.

But this consideration does not apply to the Prime Minister of Britain, Tony Blair, and to Angela Merkel, the German Chancellor herself – both of whom are now vulnerable to arrest for conspiracy to commit financial crimes in the Wanta Settlement context. This means that the crisis has split the West and that three Western Great Powers are now at each others' throats, while Robert Gates [see below] is warning Congress to prepare for war with Russia and China.

That in turn may be because it appears that the US criminal operatives have stolen trillions from the Chinese, in fulfilment of George H. W. Bush Sr.'s well-known long-range plan for stealing back the 'Morgenthau money' held for decades by Chinese interests.

To underscore how ruthless these US criminals are prepared to get, the 'eavesdroppers' who listen in to all our telephone calls threatened Ambassador Wanta's life on 9th February. After a conversation with Michael Cottrell, one of these mafia-style operatives informed the Ambassador that he did not 'understand his existence'.

**● EDITOR'S NOTE: AMBASSADOR LEO WANTA HAS RECEIVED DEATH THREATS IN THE PAST, AND WAS SUBJECTED TO NUMEROUS ATTEMPTS TO KILL HIM WHILE LANGUISHING IN THE VAST AMERICAN GULAG. AN ATTEMPT WAS ALSO MADE TO 'LIQUIDATE HIM' WHILE HE WAS LANGUISHING IN THE FILTHY SWISS DUNGEON FOR 134 DAYS. HE WAS GIVEN SOME CHEESE TO EAT, BUT AS HE DOES NOT EAT CHEESE, HE GAVE IT TO A FELLOW PRISONER, WHO DIED SHORTLY AFTERWARDS. A CONTRACT DOCTOR WORKING FOR THE PRISON LATER ADVISED HIM WHICH PARTS OF THE MENU TO AVOID, CONFIRMING THAT THE SWISS AUTHORITIES WERE ACCUSTOMED TO MURDERING POLITICAL PRISONERS. LIKEWISE, THE EDITOR OF THIS SERVICE RECEIVED SEVEN DEATH THREATS IN THE COURSE OF HIS PREPARATORY INVESTIGATIONS INTO THIS FINANCIAL CORRUPTION. THE LATEST MURDER THREAT TO SIR LEO WANTA REPRESENTS AN ESCALATION OF THE CRISIS, REVEALING, LIKE CHERTOFF'S OUTBURST [SEE BELOW] THAT THE CRIMINAL REVOLUTIONARY NEW WORLD DISORDER CLEPTOCRACY IS SERIOUSLY WORRIED – AND GETTING DESPERATE: HENCE THE CONTINUING ORGY OF CORRUPT FIAT MONEY-MAKING UNDER COVER OF OFFICIAL PROTECTION. THE MURDER OF ANY ONE OF US WOULD INDUCE AN UNCONTROLLABLE GLOBAL CRISIS AND WOULD RESULT IN THE TOTAL EXPOSURE OF THESE CRIMINAL OPERATIVES, WHO ARE DOOMED TO DESTRUCTION ANYWAY.**

#### **MERKEL NEEDS THE WANTA SETTLEMENT FOR HER OWN IMMUNITY**

At a minimum, the stage is therefore now set for the actual arrests of top politicians and high officials in both Europe and the United States, even though, quite astonishingly, one of the highest-level figures named in the warrants is Angela Merkel herself. For, in the mad Alice-in-Wonderland hell that we are having to describe, Merkel needs the Wanta Settlement to be paid, in order for her own immunity from criminal prosecution for alleged financial corruption to take effect!

The actual texts of this immunity have been in the hands of all 22 named operatives who were subject of the ICJ 'ad hoc' Tribunal's reactivating warrants which, as noted above, will now be operationally 'live' in the United States in the context of the fact that the ICJ's immunity documents have all lapsed. This reflects the fact that the Wanta Settlement payment was not made by close of business on Wall Street on 9th February, as stipulated in the draft immunity agreements.

#### **MERKEL, BLAIR, CHENEY, PAULSON NAMED IN ICJ WARRANTS**

In response to questions concerning the identities of the operatives named in the warrants, we are able to confirm the sensational news that in addition to Mme Angela Merkel, Richard Cheney, and the disgraced Henry M. Paulson Jr., Tony Blair, the British Prime Minister, is, as indicated above, among the 22 operatives for whom an arrest warrant is being issued and activated by the 'ad hoc' Tribunal in response to the instructions of the German Chancellor's office and the underlying ICJ subpoenas. You may laugh at this madness, but this is where matters stand this weekend.

Therefore, it is now entirely possible that the British Prime Minister may be arrested for conspiracy to commit international financial crimes, along with central and commercial bankers and prominent US officials, in addition to those already identified.

It is clear to all with a ring-side seat observing the spectacle of the greatest treason ever perpetrated by US office holders against the American people, that the arch Magus of this criminality is Richard Cheney, the Vice President of the United States. It is further evident to all concerned that his attitude towards the catastrophe that he is orchestrating is one of supreme arrogance and total indifference to the worldwide tensions his behaviour is generating

However, as was the case with Mr Paulson, great pride comes before a great fall.

### **BIZARRE TWIST IN WORST CRISIS SINCE WORLD WAR II**

For the German Chancellor, herself a target of one of the activated ICJ-'ad hoc' Tribunal warrants, to be facing a situation in which her own Government has had to authorise the activation of the warrants in order to procure the German Chancellor's own immunity from ICJ prosecution for financial crimes, is probably the most bizarre twist in this ever more dangerous cascade towards monetary meltdown, which represents a lurch towards the unknown with the potential even for unleashing unfettered intergovernmental violence.

It is certainly no coincidence that the US Secretary of Defense has suddenly started talking of World War, and that the Russians have pointedly, in the same week, announced a sizeable rearmament programme.

The inclusion of Tony Blair on the list of criminal operatives for whom an ICJ arrest warrant has been issued, is of course no surprise to British observers of this man's behaviour over the years.

### **DIARY OF EVENTS: 01-09 FEBRUARY 2007**

We resume and recap herewith our Diary presentation, which will enable you to understand what has been going on in the foregoing sensational context:

● **01 February 2007:** Associates of AmeriTrust Groupe, Inc., advise that US Treasury compliance officers are extremely disconcerted that the payment of \$4.5 trillion long overdue (by eight months now) will be withheld over the coming weekend, commenting that the financial criminals are at loggerheads among themselves.

● **01 February:** Associates of AmeriTrust Groupe, Inc., disclose that the Chinese are split internally, given that it would appear that one or more of the Elders have been co-opted by the renegade US Treasury Secretary, Henry M. Paulson, and others, and may have taken bridge loan payment(s). At the same time, the relevant Chinese sources comment to the associates of AmeriTrust Groupe, Inc. that Americans should examine and remove the motes in their own eyes, before rushing to accuse foreigners of corruption.

The precise aphorism used by the Chinese was: **'Look in your own house: evil comes from within'.**

● **01 February:** AmeriTrust Groupe, Inc. advises associates that European bankers would be well advised to short the US dollar so that any profits that the US financial criminal operatives hoped to gain from this latest theft would be nullified.

● **01 February:** Associates of AmeriTrust Groupe, Inc. disclose that huge volumes of US dollars have been conveyed to the Bank of England for manipulation by a 'back-room operation' that functions on a 24/7 basis issuing short-term loans to large businesses at interest rates starting at a minimum of quote unquote "25% and up"...

... resulting in the transfer of trillions thus money-laundered and brought back to the United States for deposit, not least into US Treasury accounts.

● **02 February:** Associates of AmeriTrust Groupe, Inc. inform Ambassador Leo Wanta and Michael C. Cottrell, M.S. that European Central Bankers are aware of the "US Treasury-Bank of England operation" and have already begun to short the US dollar [as of 31st January 2007].

● **02 February:** Associates of AmeriTrust Groupe, Inc. advise that the US Treasury has limited Secretary Paulson's authority over Treasury operations and that Mr Robert M. Kimmitt, the Deputy US Treasury Secretary, has been specifically given control over all Treasury financial transactions.

The Principals are also advised that the US Treasury is attempting to manipulate the US monetary system to support the US dollar on the foreign exchange markets and to fill as many gaping "holes" as possible prior to belated release of the \$4.5 trillion of stolen/diverted funds to the Morgan Stanley securities account of AmeriTrust Groupe, Inc. This is of course merely a confirmation of what became apparent many months ago.

**One of many purposes all along has been to generate 'fiat funny money' so that some of the victims of the CIA's OMEGA OPS Ponzi Scheme scams in the United States are finally paid out, thereby cauterising the seething discontent among the army of the 'broken hearted' which appears at times to indicate that if these scams continue, there could be a revolutionary domestic explosion.**

● Beyond that [as the chart on page X reproduced from Figure 3 on page 5 of the preceding multiple issue of this service] suggests, the financial criminals, working with the doomed Federal Reserve, may have been imagining that they could somehow continue these financial manoeuvres for long enough to be able to 'replenish' the \$1,100 trillion of the Federal reserve's liabilities, so that the Fed wouldn't need to be abolished, after all. They would need to exploit Leo Wanta's money for well over a decade to achieve any such outcome: and they will all have been taken down long beforehand.

● **02 February:** Investigators inform AmeriTrust Groupe, Inc., that the CIA and the Department of Homeland Security will force the issue of the overdue payment of \$4.5 trillion being made to AmeriTrust Groupe, Inc. Such assurances of course have no meaning in the context of the endless lies and deceit that has characterised this crisis.

● **02 February:** The White House Conference and Press Rooms are evacuated, ostensibly due to a "bomb scare". A VERY LARGE "PUT" PURCHASE IS MADE AT APPROXIMATELY 10:10 AM ON THE CHICAGO BOARD OF OPTIONS TRADE (CBOT).

● **03 February:** Associates of AmeriTrust Groupe, Inc. advise that US Treasury Compliance has been the conduit for the dispersion of colossal volumes of US dollars to the European Union/Bank of England in the context of the persistent demand by the International Court of Justice (ICJ) that the US Treasury is required to 'fix its problems' and pay the \$4.5 trillion to Ambassador Leo Emil Wanta / AmeriTrust Groupe, Inc. or face the consequences (see above)...

... and that the US Treasury and Paulson (even though he has lost his authority) are using the US dollars belonging to the Chinese, to resolve the situation.

● **03 February:** H.R. 2778 is to be approved by the US House of Representatives on Monday the 5th February, when it will thus be ready to be signed. Under this Bill, the entire Board of Governors of the Federal Reserve is to be discharged, the Federal Reserve is to be abolished as a legislated authority empowered to issue currency on behalf of the US Treasury, and all Federal Reserve Banks and offices in the United States and around the world are to be closed. This will have the consequence that the US Treasury will again perform the functions of the United States' Central Bank, reverting to the situation prior to the 1951 accord between the US Treasury and the Federal Reserve, which has hidden derivatives liabilities estimated at around \$1,100 trillion. That explains why it is to be closed down.

● **05 February:** Vice President Richard Cheney is identified as having been orchestrating illegal financial transactions using unlawful dollars associated with illegal trades, even though he has signed a pre-immunity document in which he has thereby recognised the authority in this matter exercised by the International Court of Justice. We repeat: by signing this pre-immunity document, Mr Cheney accordingly recognised the ICJ's jurisdiction in connection with this international financial corruption crisis. Thus there are now TWO strands of legality which require absolute compliance by the orchestrator of these criminal financial operations, Mr Cheney: First, his signature on the ICJ's pre-immunity document; and secondly, the explicit extension of US jurisdiction to the ICJ's 'ad hoc' Tribunal by the US Supreme Court Justices referred to above.

● **03 February:** Associates of AmeriTrust Groupe, Inc. inform the Principals that as a direct consequence of our report dated 2nd February 2007 [**CHENEY BRIBES OFFICIALS TO ABORT WANTA PAYMENT**], a formal investigation has been initiated by Mr Hammond of the International Court of Justice. He was the ICJ official who issued the original ICJ subpoenas to Messrs Paulson, Cheney and one other US operative, and who further wrote the immunity documents which were to have been activated at the Wanta Settlement, and which were to apply to 19 further individuals worldwide, **INCLUDING NO LESS THAN 12 PUBLIC PERSONS IN THE UNITED STATES.**

As stated above, the named perpetrators whose immunity documents were to have taken effect when the \$4.5 trillion had been transferred into the Securities Account of AmeriTrust Groupe, Inc. with Morgan Stanley, New York, include the British Prime Minister, Tony Blair, central banking officials, and the German Chancellor, Angela Merkel herself.

**● AS ALSO NOTED, THE IMMUNITY DOCUMENTS BECAME NULL AND VOID WITH NON-PAYMENT OF THE \$4.5 TRILLION SETTLEMENT TO AMERITRUST GROUPE INC'S SECURITIES ACCOUNT WITH MORGAN STANLEY, NEW YORK, BY CLOSE OF BUSINESS ON 9TH FEBRUARY 2007.**

● **03 February:** US Treasury Compliance advises that payment of the \$4.5 trillion will be made to AmeriTrust Groupe, Inc. by the following Tuesday (6th February), in the context of the President signing H.R. 2778. The Principals are further advised by the same sources that US banks are now funnelling massive volumes of US dollars through Paulson (even though his authority has been removed from him) to facilitate payment to AmeriTrust Groupe, Inc. via the aforementioned "Bank of England operation". There is also talk from the same sources that the Bush Administration is concerned that AmeriTrust "will be paid too soon" since the Administration is still not ready to accept the immediate \$1.575 trillion tax payment on the books. This is pure eyewash, since the tax payable is to reside in an AmeriTrust tax account, to which the Treasury will have access and from which it will be able to draw down at any time. It will thus be able to perform whatever cosmetic adjustments it may wish to arrange with the Office of Management and Budget, without reference to AmeriTrust Groupe, Inc. As matters stand, the 2008 Federal Budget documentation already clearly accommodates the Wanta windfall payment in Table 16-2, 'Federal Government Financing and Debt' on page 225 of its latest 'Analytical Perspectives' compendium, since the 'unified budget balance', stated as \$248.2 billion and \$244.2 billion for FY 2006 and FY 2007 respectively, has been massaged down to a projected surplus of \$61.0 billion by FY2012.

The 'line' that the Administration has not made provision for the initial \$1.575 trillion tax payment can therefore accurately be described as BS (American English slang for 'nonsense').

**NOTE:** The section on the Government-Sponsored Enterprises in the Federal Budget 'Analytical Perspectives' for FY2008 shows **BLANK DATA TABLES** (again) for the **Federal National Mortgage Association** (Fannie Mae), the **Federal Home Loan Mortgage Corporation** (Freddie Mac) and the **Federal Home Loan Bank System** (FHLBanks), as was the case for the FY2007 edition. *SEE FIGURE A, PAGE 77, added for this printed presentation.*

This therefore confirms that there are gigantic **BLACK HOLES** in the accounts of the three largest Government-Sponsored Enterprises, as we reported in the summer of 2006. The **BLANK DATA TABLES** in question each have the following rubric shown in 5-point type beneath them:

'Note: Consistent with Government-wide practice for GSEs, information for 2007 and 2008 was not required to be collected'. Inconsistently, however, data for 2007 and 2008 is shown for other GSE's in the same document, namely the **Farm Credit System** and the **Federal Agricultural Mortgage Corporation** (Farmer Mac). Odd, isn't it?

● **03 February:** Foreign associates of the Principals advise that Vice President Richard Cheney is deeply involved in a criminal scam to gather colossal volumes of US dollars for placement in high-yield "offshore programs" that will "buy high and sell short", thus inducing "losses" that are then passed to the 'investors' (including US banks) for use as tax write-offs.

This, in outline, is how this scam works:

● Invest \$100 million into the program, obtaining for instance a "return" of \$92 million, creating a "loss" for tax write-off purposes of \$8.0 million. The "loss" is then divided among the participants of the fraud, such as Vice President Cheney, bankers, Prime Minister Blair *et al.* Thus the Vice President of the United States was said to be actively engaged in transactions designed to defraud the Internal Revenue Service.

● **03 February:** Associates of AmeriTrust Groupe, Inc. inform the two Principals that former US Supreme Court Justice Sandra O'Connor and current US Supreme Court Justice Bader-Ginsburg are in Frankfurt, Germany, where they are engaged in monitoring and perfecting the international legal arrangements for the Wanta Settlement. The same sources advise that a third US Supreme Court Justice is monitoring developments in the United States. As indicated above, the US Supreme Court Justices have explicitly extended US jurisdiction to the warrants issued by the 'ad hoc' Tribunal of three Judges implementing the orders of the International Court of Justice.

● **03 February:** Associates of AmeriTrust Groupe, Inc. further advise that President George W. Bush Jr., is understood to be 'extremely upset' with Vice President Cheney given the Vice President's personal involvement in the aforementioned fraudulent scheme, and is reportedly seeking to instigate punitive action against Cheney.

We merely report what has been stated.

● **05 February:** Associates of AmeriTrust Groupe, Inc. advise that two separate sources have reported that "high profile Federal Reserve Bankers have been detained while trying to cross the border into Mexico". One source sent a communication to Senator Dodd (D-CT), and was promptly telephoned by an FBI agent and advised to cease activity relating to the border incident. It may emerge that the high-profile Federal Reserve bankers concerned are engaged in drug money laundering, as the Fed is known to be a drug money-infested operation.

● **06 February:** Associates of AmeriTrust Groupe, Inc. inform US Treasury Compliance officials that the Deputy Secretary of the US Treasury, Robert M. Kimmitt (who, as indicated above, is in full control of the Treasury, despite Paulson's public 'appearances' to the contrary), had told them that the "Wanta/AmeriTrust Groupe, Inc." payment is "coming down the line". Naturally such official assurances, given the record, have no meaning, since the Treasury's word has long since been demonstrated to be worthless, along with the "Full Faith and Credit of the United States".

● **06 February:** Investigators inform AmeriTrust Groupe, Inc. that the US Department of Defense was "paid out on Friday, 2nd February" and that the "Wanta payment" will definitely take place this week. See above.

● **06 February:** Known participants in the CIA's vicious OMEGA OPS Ponzi Scheme scams, whereby American families, trusts etc, are financially raped, and which are orchestrated *inter alia* out of Las Vegas, telephone Michael C. Cottrell, M.S., the Executive Vice President and Treasurer of AmeriTrust Groupe, Inc., to 'ask his advice' and to seek his participation in the issuance of corporate Promissory Notes for projects in the State of Israel with respect to oil assets offshore Tel Aviv. Mr Cottrell advises these OMEGA OPS. scamsters that without a bona fide bank underwriter, such "bonds" would be fraudulent and not issuable on the US Depository Trust Corporation, and that he will have nothing to do with such fraudulent schemes.

● **06 February:** Associates of AmeriTrust Groupe, Inc. are now propositioned with extremely "enticing" offers, worth huge amounts of fiat money, to leave the "Wanta-AmeriTrust Groupe, Inc operation" for secure and grossly lucrative job offers with criminal financial operations involving the "Bush-Clinton Box Gang". These attempted bribes were declined.

● **06 February:** Investigators advise that \$23 trillion worth of US dollar futures are being "tapped" every 30 minutes to generate the funds necessary to "fill the holes" and to effect the grossly overdue "Wanta/AmeriTrust Groupe, Inc." payment [\$27.5 trillion less \$4.5 trillion = \$23 trillion].

● **07 February:** Associates and investigators inform AmeriTrust Groupe, Inc. that "today is the day" for the \$4.5 trillion payment to be made to the securities account of AmeriTrust Groupe, Inc. with Morgan Stanley, New York.

● **07 February:** Associates advise the Principals that US Treasury Compliance has also been advised that the \$4.5 tril-

lion payment will finally be made today. [Such assurances have outlived their sell-by dates: *see below*].

● **07 February:** Investigators advise AmeriTrust Groupe, Inc. that the texts of the 'Cheney/Paulson immunity documents' issued by the International Court of Justice have been forwarded to the United States accompanied by a severe warning should the "Wanta payment" not be met.

● **07 February:** Investigators inform AmeriTrust Groupe, Inc., that the \$4.5 trillion has at last been transferred to the Custodial Account of JPMorganChase in New York City, and that payment will be made to Ambassador Wanta/AmeriTrust Groupe, Inc., "soon".

● **07 February:** Associates of AmeriTrust Groupe, Inc. advise 'further confirmation' of the deposit of \$4.5 trillion to the JPMorganChase Custodial Account in New York City.

● **08 February:** Investigators advise the principals that the CIA, the Department of Homeland Security, the National Security Agency and the National Security Council are now involved in the payment process and that the authorisation codes will be issued shortly.

● **08 February:** Associates of AmeriTrust Groupe, Inc. inform the Principals that US Treasury Compliance advises that authorisation is to be released after the close of the New York Stock Exchange (NYSE), that is, after 4:00pm Eastern Standard Time, today, with an individual wire to AmeriTrust Groupe, Inc.'s securities account at Morgan Stanley, New York City.

● **08 February:** Associates of AmeriTrust Groupe, Inc. advise the Principals that:

(a) H.R. 2778 has reportedly been signed by the President today;

(b) **TWO VATICAN BANKERS WERE ARRESTED** [5th-6th February 2007]; and:

(c) **OTHER INTERNATIONAL BANKERS HAVE BEEN ARRESTED** (on 7th February 2007).

● **09 February:** At 9.25 am Eastern Standard Time, **NO PAYMENT HAS YET BEEN MADE INTO THE SECURITIES ACCOUNT OF AMERITRUST GROUPE, INC., WITH MORGAN STANLEY, NEW YORK.**

#### **SICKENING FOUL-MOUTHED ABUSE BY SECRETARY CHERTOFF**

● **09 February:** Associates of AmeriTrust Groupe, Inc. advise that Michael Chertoff, the Secretary of the Department of Homeland Security (a.k.a. the US Ministry of Interior), has intervened and has annexed, or stolen control of, the \$4.5 trillion.

● At the same time, authority is issued to US Treasury Enforcement officials that anyone standing in the way of the Wanta Settlement payment is to be arrested.

● **09 February:** On learning that Chertoff has intervened to seize the \$4.5 trillion, Mr Michael C. Cottrell, M.S. telephones the office of the Deputy Secretary of the Treasury, Robert M. Kimmitt, and asks the following question: Why has the Department of Homeland Security been given or seized access to the \$4.5 trillion that was supposed to have been deposited in the Securities Account of AmeriTrust Groupe, Inc., this week? Mr Cottrell was then abruptly told that this matter should be placed immediately in the hands of US Treasury Enforcement, which is controlled by Mr Stuart Levy. On being given Mr Levy's telephone number, Mr Cottrell duly called Mr Levy and was told he was attending a meeting. Mr Cottrell therefore asked the same question, mentioning the letter to Mr Kimmitt sent by Attorney Thomas Henry, on behalf of AmeriTrust Groupe, Inc., on 22nd January.

The person in Mr Levy's office asked for a copy of this letter to be faxed for Mr Levy's attention, and on being given the relevant fax number, Mr Cottrell faxed it over.

● **09 February:** Mr Cottrell informs the Editor of this service that an investigator called him after checking the position with Mr Chertoff's office. We regret that we must now reproduce *VERBATIM*, the response from the uncouth Mr Chertoff himself, to the investigator. *We apologise in advance for his violent, filthy and vulgar language.* Mr Chertoff told the investigator:

**'Yes, I am the one who took the money, and I ain't gonna pay it to AmeriTrust, Inc., not this week, not next week, or ever. With regard to the sanctions against me, kiss my a..'**

Further, when told about the possibility that he will be arrested, his response was: **'E... YOU'**.

The CIA/DHS entered into the original contract for payment of the Wanta Settlement. Yet after the foregoing uncouth statements to a US investigator, Mr Michael Chertoff, who was implicated in the Vince Foster murder, and presumably has a great deal to hide, slammed the phone down on him.

● **09 February:** Associates of AmeriTrust Groupe, Inc. report that US Treasury Compliance have stated that after having spent most of the preceding 24 hours attempting to make the \$4.5 trillion Wanta payment, it has become crystal clear that the \$4.5 trillion is being used as a 'hot potato' which is being passed around to various entities for 'coming weekends', and that the thinking behind this reckless behaviour is that no matter what occurs and for however long these criminals play with Wanta's money, President Bush Jr., will pardon the perpetrators at the end of his term, just as President Clinton pardoned his DVD buddy Marc Rich (Hans Brand).

● **09 February:** The same Treasury Compliance sources confirm that the 'ad hoc' Tribunal-ICJ immunities were contingent upon the Wanta Settlement funds being placed in the Morgan Stanley securities account of AmeriTrust Corporation, Inc., by close of business on Wall Street on 9th February; and that, since the payment was not made, the immunities are

Figure A: All subscribers to this service received a copy of *International Currency Review*, Volume 31, Numbers 3 & 4, published from London in late November 2006. On pages 178-179 of that special issue, we drew attention to the fact that the Federal Budget documentation for Fiscal Year 2007 contained BLANK DATA TABLES for the main Government-Sponsored Enterprises (GSEs) – which are huge financial corporations established by the Federal Government but operating in the 'private sector', with privileges arising from the fact that they were created by the Federal Government so that the 'line' that they belong to the private sector is treated by the financial markets as a fiction, granting them better market terms than might otherwise be the case. Details of the GSEs' finances have appeared in the OMB's Federal Budget documentation for all the years that the Editor has been examining the Budget in detail. But in Fiscal Year 2007, and again in FY 2008, the data tables for the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Bank System (FHLBanks), have been BLANK. This means that, as stated in the text (website posting) dated 10th February 2007, there are gigantic hidden 'BLACK HOLES' in the accounts of these huge financial enterprises. Despite our having drawn attention to these accounting gaps in our website posting dated 8th September 2006 [see pages 172 et seq. of *International Currency Review*], the same data tables remained blank in the FY 2008 documentation. The above displays are the same as those shown on page 179 of *International Currency Review* 31, 3/4, but are from 'Analytical Perspectives' for FY2008 [February 2007].

null and void and have lapsed. This of course applies to the immunity that the British Prime Minister and the German Chancellor both need, along with their fellow conspirators in the United States, to avoid the risk of arrest on the basis of the activated ICJ warrants.

● **09 February:** Late on Friday, informed sources advise Michael C. Cottrell, M.S., that a signed agreement has been entered into by members of Mr Bush's Cabinet and outside associates, for Wanta's funds to be traded among the Cabinet members for their own account, with various entities over the coming weekends, and for charades to be mounted during the working weeks similar to the orchestrated play-acting that occurred during the weeks ending 2nd and 9th February with respect to preparations for finalisation of the Wanta Settlement.

● **09 February:** The same sources inform Mr Cottrell that the existence of this document, under which each signatory imagines that he is protected by his fellow financial criminals, is known by the Republican Party, which is OUTRAGED. Equally disgusted at this blatantly illegal exploitation by top office holders of their free-wheeling powers to abuse the system is the Speaker of the House, Mrs Nancy Pelosi. Neither did the Generals at the Pentagon approve this abomination. They are angry because they need the funds which will accrue from the 35% tax windfall from the Wanta payment.

**● THE U.S. CONGRESS NEEDS TO WAKE UP AND CLEAN (WHITE) HOUSE IMMEDIATELY, USING THE POWERS IT CAN WIELD IN AN EXTREME CONSTITUTIONAL EMERGENCY SUCH AS THIS.**

**● INSTEAD OF WHICH IT HAS RELAXED, WHILE THESE CRIMINAL GANGSTERS RUN RINGS ROUND THE REPRESENTATIVES OF THE AMERICAN PEOPLE.**

● A similar situation has developed in the United Kingdom, where Tony Blair, faced with the prospect of arrest, has finally decided that he will remain in office and will NOT be ceding his Premiership to the Chancellor of the Exchequer, Gordon Brown, as he had indicated he would.

Confirmation of this was received from US intelligence sources at time of posting.

[Note: The Editor of this service faxed a copy of this report to the British Treasury: Fax: 0207-451 7636].

### **U.S. CABINET AT WAR WITH ITSELF AND ITS OWN DEPARTMENTS**

Not only does all this indicate that Chertoff is an oaf who has no conception of the consequences of his intemperate behaviour, but it provides further clear evidence that the Bush II Administration's objective is to play an incessant game of 'round robin', perpetually introducing new complexities in order to procure further open-ended delays so as to be able to continue milking Ambassador Leo Wanta's Settlement funds.

We therefore have an American Cabinet that is completely out of control, is engaged in mafia-style gang warfare and is openly at war with and within its own departments, is in breach of all domestic and international legal constraints, and has abandoned all norms of civilised behaviour.

Furthermore, its business is compromised and bedevilled by open domestic intelligence warfare, which may or may not be subject to manipulation by foreign powers, the primary suspect among which appears to be Israel. Earlier in the week, it was being suggested that Mossad was anxious for the Wanta Settlement to be completed, to avoid further damage to international relations.

### **SEETHING INTERNATIONAL TENSION UNDERMINING STABILITY**

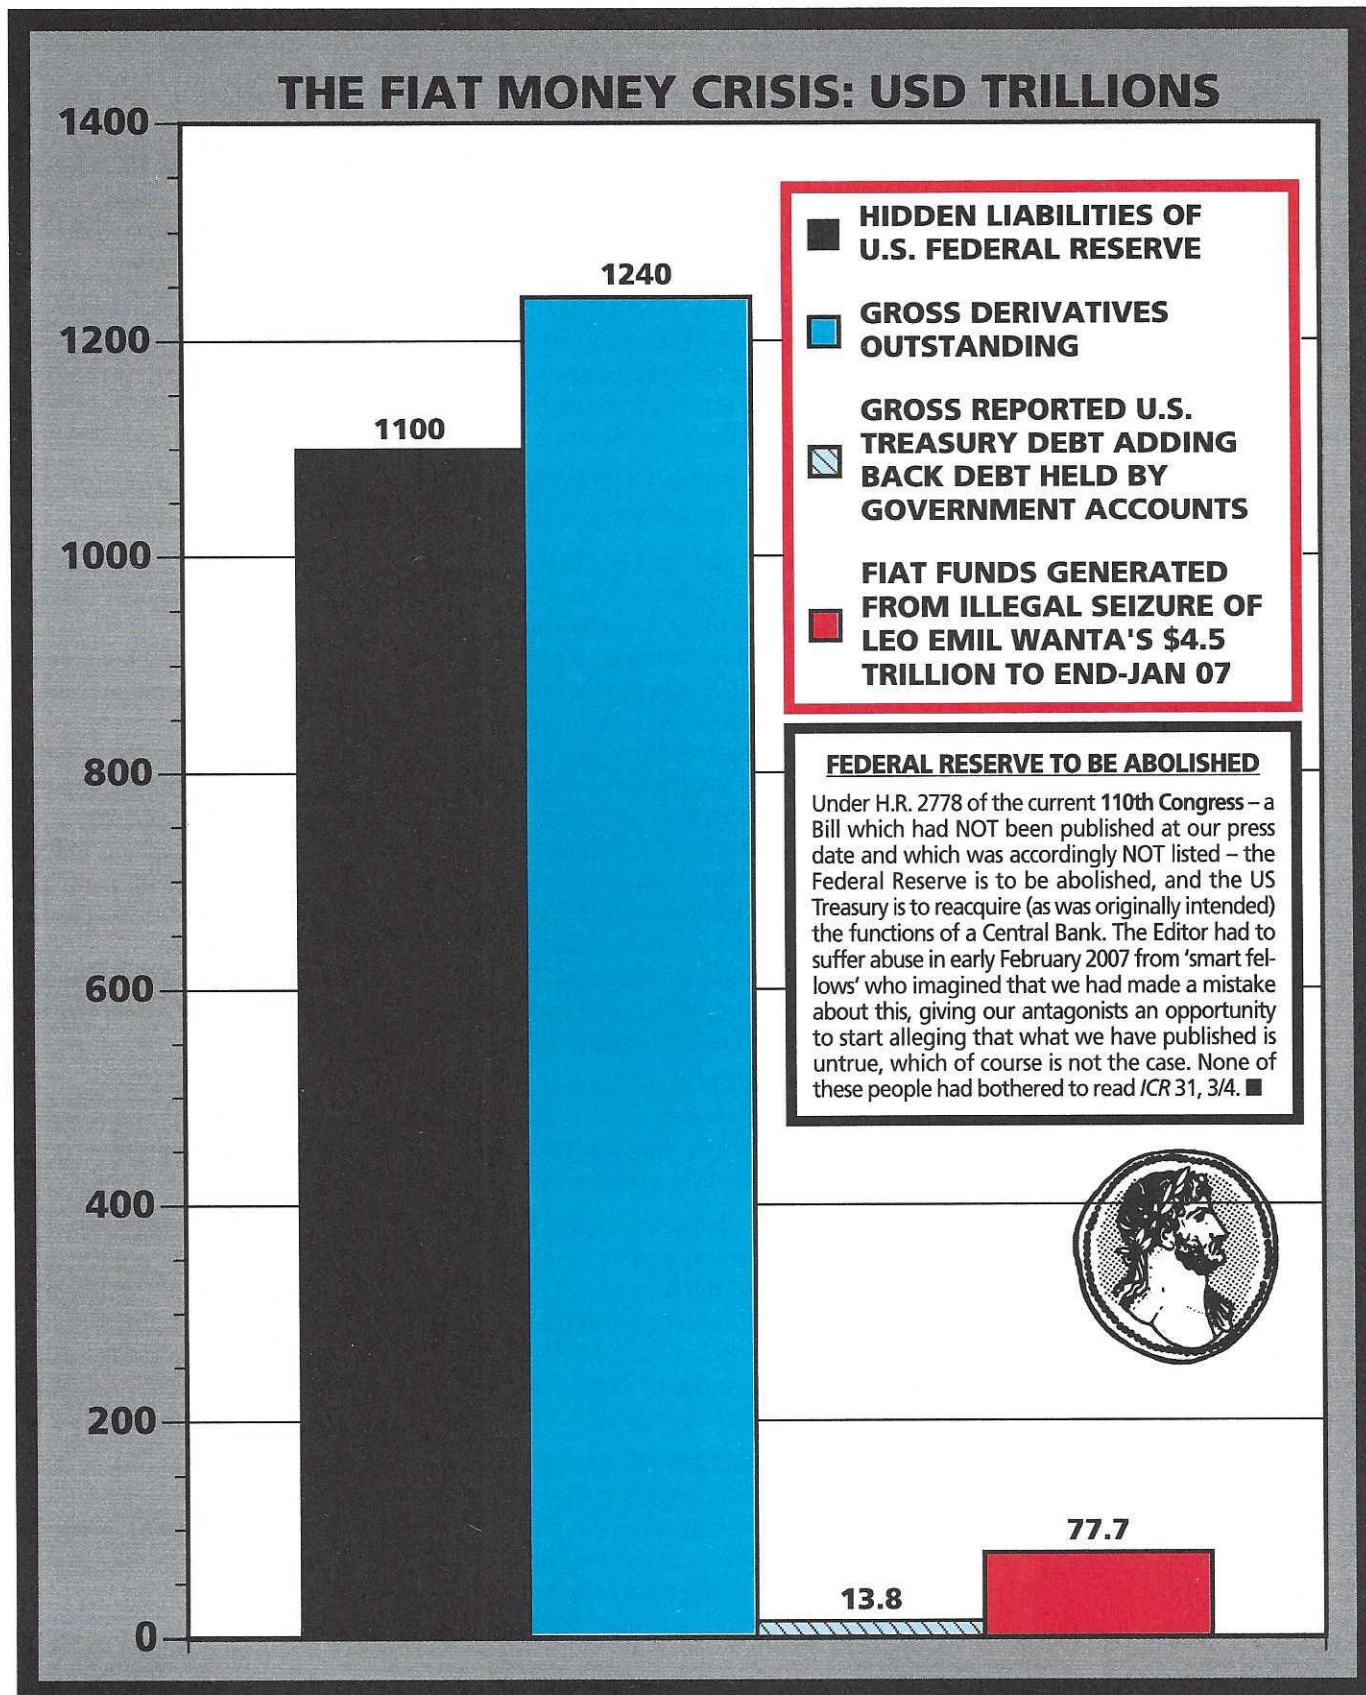

We are also now face to face with a seething international crisis in which top officials in Britain, Germany and the United States are implicated AND ARE PROSPECTIVELY AT EACH OTHERS' THROATS. If not brought under control, this situation could lead to horrendous consequences.

To make matters worse, the Secretary of Defense, Robert Gates, testified before Congress this week that the United States must consider preparing for war with Russia and China. This American Administration is clearly shaping up as the most dangerous regime to hold power since Hitler, even though it is grossly incompetent, terminally corrupt and at loggerheads internally.

As a consequence of this state of affairs, Mr Chertoff is among the high-ranking officials who risk arrest. The others include the German Chancellor, Angela Merkel; Tony Blair, the British Prime Minister; Richard Cheney, the Vice President of the United States; Henry M. Paulson, the 'Teflon' figurehead 'Secretary' of the US Treasury; and 18 other senior officials, of whom TEN are American public officials. Presidential pardons or not, the scope for a complete breakdown of international law and order is staring us all in the face, thanks to the open-ended, reckless ruthlessness of the small clique of financial criminal operatives who have seized control of our suffering nations.

It is against this duplicitous background that the International Court of Justice 'ad hoc' warrants have been triggered and are being applied. [NOTE: This was the situation prevailing on Saturday evening, 10th February 2007].

**Figure B: MACROFINANCIAL FIAT MONEY AGGREGATES ASSOCIATED WITH THE 'HIDDEN' GLOBAL 'FUNNY MONEY' CRISIS:** Estimated proportions of the pertinent fiat financial aggregates which have brought the international financial system and economy to the brink of a meltdown with no historical precedent. It will be seen that the illegal seizure of Ambassador Wanta's funds facilitated the generation of just 6.3% of the Federal Reserve's hidden liabilities.

## THE GLOBAL FINANCIAL CORRUPTION CRISIS: SNAPSHOT OF THE SITUATION IN 2007 Q1

For technical reasons, this publication cannot easily exceed 80 pages! Therefore we must truncate the narrative here. For subsequent reports concerning the international and US financial corruption crisis arising out of the illegal diversion of Ambassador Wanta's \$4.5 trillion, please now refer to our website Home Page/NEWS/ARCHIVE: [www.worldreports.org](http://www.worldreports.org)

### THE FRAGILE INTERNATIONAL SITUATION ARISING FROM THIS USG CRIMINALITY

Although self-evidently, the situation described in the 2007Q1 and April 2007 issues of this service, being dynamic, will have changed extensively by the time this record of events has been printed in our factory and distributed, the following summary will indicate the gravity of the tensions arising from the unfettered criminality of the Bush II Cabinet. Some of the facts summarised below became evident following the last posting published herein [10 February 2007]:

● **GRU-President Vladimir Vladimirovich Putin** states publicly that the US Government is run by a bunch of criminals, a statement with which the international community is in agreement and which is supported by the evidence.

● **CHERTOFF OUTBURST:** The vulgar, uncouth outburst by Mr Michael Chertoff, Secretary of the Department of Homeland Security, a.k.a. the intended Ministry of the Interior, which is full of Soviet agents, revealed not only that the criminalists cannot stand the heat of the outrage against them, but also that:

1. The US Government acknowledges that the \$4.5 trillion belongs to Ambassador Leo Emil Wanta, having been negotiated and finalised by the accord dated May 2006, which was signed *inter alia* by the Department of Homeland Security itself, as well as the President of the United States, the CIA, and Supreme Court Justices.
2. The US Government (in the format of the Department of Homeland Security) admits that it has stolen the \$4.5 trillion. Mr Chertoff's admission collectively 'indicts' all the US Cabinet perpetrators. Even Henry M. Paulson, the disgraced US Treasury Secretary, never acknowledged that he was diverting, stealing and manipulating the \$4.5 trillion.
3. The official perpetrators acknowledged to the international financial and judicial communities that they are indeed engaged individually and collectively in fraud against the Ambassador and his corporation, preventing him from taking economic receipt of the funds and from paying taxes thereon (aiding and abetting any US citizen to avoid paying his taxes is a grave felony – along with all the others that we have spelled out in successive earlier reports).

● *Note:* Chertoff's outburst [detailed in our report dated 10th February 2007] was made in response to a US investigator who confronted him with his criminal behaviour, whereupon Chertoff implied that he, as head of the DHS, is above the law. He may have believed this to be the case in the US context, but this does not apply internationally:

● **ASSETS CAN NOW BE SEIZED ABROAD TO THE VALUE OF \$4.5 TRILLION:** The open admission by a US Cabinet Member that the Ambassador's assets have been permanently stolen, was the last straw for the international community. As a direct consequence, measures were put in place to attach assets in Wanta's accounts at banks in foreign financial centers – a state of affairs which sent the conspirators into a frenzy. Specifically:

● **DEATH THREATS:** We suddenly started receiving death threats. *Death Threat #1:* Against Leo Wanta during the week ending 9th February. The eavesdroppers intervened at the end of a conversation between the Ambassador and Michael Cottrell (after Mr Cottrell had hung up, so that he could not hear): a voice suddenly said to Leo: 'You don't understand your existence'. Clearly, resorting to death threats at this late stage indicates panic on the criminalists' part. *Death Threat #2:* Against one of the investigators, during the same week. *Death Threat #3:* Against an associate, after a conversation with the Editor of this service, on Sunday 10th February. *Death Threat #4:* Against the Editor of this service. An email was received on 11th February with the title: 'Your days are numbered'. Vile, crude, panicky, Luciferian intimidation.

● **THE US CABINET'S COLLECTIVE CORRUPTION DOCUMENT:** As reported in our posting dated 10th February 2007, a Republican Party source leaked the fact that US Cabinet members had signed a collective document illegally 'authorising' them to trade Wanta's \$4.5 trillion without his permission. Deputy US Treasury Secretary Robert M. Kimmitt sanctioned this document with the comment that 'as long as we are all in it, we can do it'. Thus these criminals signed their own individual and collective indictments, hammering nails into their own coffins. ■
