Dear Mr. President:

I am personally forwarding this information to you Mr. President, out of deep respect and great concern, Sir, that you not be blindsided to read in your morning newspaper of these *extensive* criminal bribery conspiracies and scandalous overt cover ups by select officials at the DOJ-INS Office of Internal Audit, DOJ-OIG, Ft. Lauderdale and DOJ-FBI in Orlando/Tampa,

I recently wrote you on March 14, 2002, forwarding to you my January 27th letter to Attorney General Ashcroft, FBI Director Mueller, Homeland Security Director Ridge, DOJ Inspector General Fine and INS Commissioner Ziglar which briefly summarized four years (as far back as eight years) of extensive criminal bribery conspiracies and overt cover ups involving illegal Muslims bribing government officials for green cards who are highly likely aiding and abetting seditious factions. I have received absolutely no response to this letter and there have been no observable results other than frantic activities to keep these extensive criminal conspiracies covered up.

Enclosed with this letter are several letters I have written to Congressman Sensenbrenner apprising the House Subcommittee oversight counsel on Immigration and Claims and also a list of over 200 cases in which I suspected or detected felony fraud sham marriages, most of which were surreptitiously removed from my office, after hours, and approved, involving over 50 illegal Muslims.

Also enclosed is a reprint of an Orlando AOL chat room in which an Islamic Muslim "the manoman" discusses the bribery of government officials at the Orlando INS and staff at a former Orlando congressional office by illegal Muslims who are using their ill-gotten green cards to aid and abet terrorist factions in the Orlando/Miami area.

In his recently published book, internationally renown top terrorism expert, Steven Emerson, discusses terrorist cells operating in the Orlando area and that several of the 19 terrorists on September 11th were not operating out of the Orlando area alone without help from others still here in " sleeper cells".

There is plenty material evidence existing in phone, bank and email records, INS case files and at least five or more outside informants. The overt criminal cover ups have involved destruction and confiscation of incriminating material evidence, removal of my official notes from numerous case officials, surreptitious shredding of official daily interview logs and outright harassment, coercion and threats to myself and various outside informants.

As I previously mentioned, reportedly, select officials at the Orlando/Tampa FBI recently went into the home of several of the outside informants and confiscated incriminating material evidence telling them it was for their "protection" and then told these informants to forget out the briberies and to keep quiet! Apparently there is a great deal of money transpiring in these briberies and pay offs. If this had been a valid confiscation of incriminating material evidence, there would have been immediate indictments and arrests. There were none!

The American Public was outraged over the simple fiasco of the dead terrorist student approvals mailed six months after their deaths. As evidenced by the increasing news articles and radio talk shows across America, the ire of the American Public is intensifying towards the incompetence, malfeasance and corruption of the INS. What degree of outrage will these extensive criminal conspiracies and overt cover-ups have on the American Public and their confidence in the ability of "corrupt" government officials to protect them?

While the untouchable, unaccountable bureaucrats expend their energy and go all out to protect their backsides and executive positions of authority and power, propounding excuse after excuse, which are wearing very thin on the American Public; while the Commissioner gives out awards last week to the INS elite at the very moment the terrorist student visa fiasco hits the fan; these unaccountable bureaucrats are distracted from the focus the American Public demands of their tax dollars of a competent, productive government agency whose priority, *at all times*, first and foremost, is the protection of our national sovereignty, our personal safety and home security and *not* their personal, egotistical agendas.

The American Public is not stupid and is no longer willing to accept the "only for show" pacifying stunts of "removing" this and that INS executive from their positions over the terrorist student approval fiasco, only to be keep their same executive positions and salary, just re-titled, i.e. Walter Cadman who committed perjury and covered up the conspiracy to deceive congress, but was then promoted! This only serves to create doubt and suspicion and undermines the confidence of the American Public

It appears to me that, unlike the past, since September 11th, the American Public is no longer willing to be pacified with meaningless rhetoric and feeble excuses, but demands accountability and housecleaning of corrupt, inept government agencies.

I have been contacted by a renown national TV weekly news magazine and a renown national weekly magazine, both of whom are on the worldwide internet, regarding these criminal bribery conspiracies and overt cover ups, which are highly likely threatening our personal and national security. I have declined to be interviewed at this time. However, there are many, many others since September 11th who are eager to see this exposed and stopped and will not continue to wait.

For four years, as a public servant, I have complied with regulations and directives to report wrongdoings to every appropriate government agency, only to my disgust and dismay, to be treated as a "Serpico", and for the morally delinquent and criminally corrupt officials' activities to be protected and sanctioned and as a whistleblower, for my professional reputation to be maligned, for my professional competence to be ridiculed, for my professional integrity and love of my fellow Americans and duty to country impugned, and for my sole source of income and career to be placed in jeopardy and threatened.

It is embarrassing to me as a federal career public servant that government officials charged with the responsibility and duty to expose and stop these extensive criminal conspiracies and cover ups have been delinquent in their duties, apparently too busy passing the buck, covering up, looking for scapegoat and have failed to expose and stop these conspiracies for the past four years!

I am in hope and look to you, Mr. President, to protect we Americans from corrupt government officials, to initiate an authentic housecleaning, and to secure constructive results. If anyone in America can change the status quo existing inside the beltway, which is no longer effective and has become especially detrimental since September 11th, a man of your commitment, integrity and caliber can.

Respectfully, I remain a great admirer, a fellow American, and your Public Servant,

Mary Schneider
