Re: DOJ-INS/OIG/FBI Scandalous Briberies and Cover Up Conspiracies
INS Gross Malfeasance and Dereliction of Duty

Dear Mr. President:

I have the greatest admiration and respect for you and honor your commitment and dedication to our nation and praise your love of God and sincere concern for your fellow Americans. You have brought back class, refinement, and dignity to the Peoples' White House.

If our government was a well-oiled, productive corporation, complete with integrity, morals, principles and ethics I would never be in this position of coming to your Sir, and your staff, with this matter.

I recently wrote you on March 14th and 20th concerned that you not be startled over your morning coffee to read of these extensive, scandalous briberies and overt cover up conspiracies

As you will see in the enclosed copy of my letter dated March 22, 2002, to Congressmen Sensenbrenner and Gekas, the national media is becoming enlightened to these conspiracies involving illegal Muslims aided and abetted by INS officials with assistance from select officials at the INS OIA, Ft. Lauderdale OIG and Orlando/Tampa FBI to keep the criminal conspiracies covered up.

Enclosed with this letter are numerous emails sent in the past four months, dated November 19th, 21st, 29th and 30th of 2001, to William R. Yates, INS Deputy Executive Associate Commissioner, Office of Field Operations, Immigration Services, Division and emails dated December 4th and 17th of 2001, February 1st, March 25th and 26th of 2002, to James W. Ziglar, INS Commissioner.

Many of these emails were originally sent a year earlier to INS Miami District Director Robert Wallis and Deputy District Director John Bulger without response or corrective action.

These emails have repeatedly apprised responsible District and Central Office INS executives of extensive, long running documented Gross Malfeasance and Dereliction of Duty by INS officials in Orlando.

In these emails I forwarded information on numerous felony cases in which my diligent enforcement work was dismissed and discarded and the illegal aliens approved or were never denied and never placed in deportation/removal proceedings. There are felony cases approved in direct, knowing violation of congressional statute. Never once have I received even a courtesy response to any of these emails and my repeated concerns of gross malfeasance and dereliction of duty.

There has been no known results other than I presume for Bulger, Wallis, Yates and Ziglar to forward my concerns to the very corrupt officials engaged in these criminal activities and to the very corrupt INS OIA (Office of Internal Audit) whose own select officials are involved in the conspiracies to cover up; whose immediate response has been to malign and impugn my integrity and veracity and to come after me.

Let me paint one example, of many, of the backwards, twisted thinking of INS management. Several weeks ago, I discovered in my office a combination safe drawer unlocked containing employees' combinations to their high security combination safe drawers. This safe drawer apparently had been unlocked and open for three days accessible by anyone in the building.

This official's safe drawer maintained many employees' combinations to access safe drawers containing high security approval, admit and parole stamps, thousands of blank naturalization and citizenship certificates and secret classified files.

This incompetent official was not held accountable, was not subjected to any known consequence for this extreme breach of security and not subjected to any known adverse personnel action, his absurd act of incompetence was protected and rewarded with continued trust and charge to keep everyone's combinations in his (un)safe drawer.

To my knowledge, there was no immediate audit of the high security and classified contents of the combination safe drawers. Instead, my integrity and veracity was questioned. I was harassed and told by a supervisor that (corrupt) management's first line of thought was to accuse me of making up this extreme security violation to be malicious.

Another on-going security violation has been last Fall for corrupt INS supervisors to violate INS HQ security policies by removing employees' password protected screen savers from the desk PCs.

On year ago field employees were required to attend a mandated INS HQ computer security training video which repeatedly required password protected screen savers on all desk PCs. Officers frequently leave the public (including Muslims) sitting in their office when they go down the hall to make copies or get forms, etc. which leaves the computer accessible to the uncleared public.

I brought this to the attention of the INS HQ Security Office, OIA and Yates without response. INS is supposedly responsible for protecting our national sovereignty but can not assure simple computer security?

The corrupt INS officials in these extensive briberies and cover up conspiracies pride themselves on their clever ability to confiscate and destroy incriminating evidence, harass, coerce and threaten informants to keep their criminal activities covered up, and most likely maintain Swiss or offshore accounts in fictitious names.

Since September 11th, it appears that the American Public is much less tolerant and much less forgiving of government corruption. Government incompetence and corruption appears to be one arena that provokes immediate angst and ire in the American Public and erodes the confidence of the American Public in their government.

In our time of war there is no place for personal egotistical agendas. These extensive criminal conspiracies, involving several government agencies, are detrimental to our national security and adversely impacting the confidence of the American People. These criminal conspiracies by corrupt, morally delinquent officials some of whom hold positions with top secret clearances, can not continue.

Respectfully, I remain a great admirer, a fellow American, and your Public Servant,

Mary Schneider
