Pope Francis fired as 13 bloodlines, Gnostic Illuminati negotiate end of Western civil war

 By Benjamin Fulford  Weekly Reports  13 Comments

Pope Francis has been relieved of power as a part of a deal being negotiated between the Gnostic Illuminati and the 13 ruling bloodlines, say two sources, one a European royal, the other a Pentagon boss. The two Western power centers, one based on meritocracy, the other on historical rule, have agreed to a jubilee and a massive campaign to "save the planet," the sources say.

The Gnostic Illuminati, strongest in the military-industrial complex, and the bloodlines, who control finance and the media, agreed to compromise because they have to present a united Western front in order to make a deal with a resurgent Asia, they said.

Francis, who may stay on as a figurehead, was relieved of power because of the fiasco over convicted pedophile Cardinal Pell who ran the Vatican Bank, the sources say. The Vatican and the Vatican Bank with its 6,000 bribery accounts of so-called "world leaders" are now run by "a troika of cardinals," the Pentagon source says.

In public, this fundamental change can be seen in the fact that ten cardinals have been defrocked recently. The most recent was French Cardinal Philippe Barbarin, who was convicted last week of covering up pedophilia.

<https://cruxnow.com/vatican/2019/03/08/catholic-church-cardinals-implicated-in-sex-abuse-cover-ups/>

Here is what the representative of the 13 bloodlines had to say about the situation: "Cardinal Pell was an admission and acceptance of the Satanic Practices at our orders." He added that the other cardinals were removed as part of a process of "weaning them off" of Satanic practices. "Pope Francis was fired because ...

... he was too high-profile in the National Cyber Security Center. His past life in Argentina came back to haunt him. Nobody—nobody in the outside world—is allowed to occupy office if they cannot be controlled by their compromise," the source said.

Furthermore, today (March 11, 2019) is the eighth anniversary of the mass-murder attack against Fukushima, Japan, and the deal is being reached in part because the bloodlines were threatened with retaliation for this attack unless they reached a deal, Asian secret society sources say.

In addition, Asian secret society sources say the West needs to finish cleaning itself up before a final agreement on saving the planet can be reached.

On this front, a sustained attack against Zionism, the main source of Western evil, is a good sign. "The truthful words of Representative Ilhan Omar about Zionist influence over the U.S. Congress (not based on votes—there are only nine million Jewish voters—but rather on bribery and blackmail and lies) have thrown the Democratic Party into a crisis that could lead to its demise. CIA and Pentagon sources say Jared Kushner and John Bolton will be dismissed from the White House soon, and President Trump will disclose 9/11 truth in such a way as to terminate Zionist influence over the U.S. economy, government, and society," was how former CIA operations officer Robert David Steele described the situation. <https://phibetaitota.net/2019/03/robert-steele-with-javad-heirannia-is-zionism-in-the-usa-over-one-former-spy-counterintelligence-officer-says-yes/>

A Pentagon source agreed, saying "Zionism is dead. Their lobby was neutered as the House passed a resolution 407 to 23 that did not rebuke Ilhan Omar but watered down anti-Semitism, and House Speaker Nancy Pelosi fired her Jewish chief of staff Danny Weiss."

Now Syria has formally warned Israel to withdraw from the Golan Heights, or face war.

<https://www.jpost.com/Arab-Israeli-Conflict/Syria-vows-to-attack-Israel-unless-it-withdraws-from-the-Golan-Heights-582858>

Syria did this because it has the backing of Turkey, Russia, and Iran to force Israel to respect international law, while the U.S. military has made it clear that it will not fight for Israel, according to Pentagon and other sources.

The royal family and Pentagon sources both confirmed that Israel's nuclear arsenal—its "Samson option"—has been neutralized, which is why that rogue state can now be forced to cease its messianic anti-social behavior. If they think God wanted them to murder over 100 million people so they could rebuild an ancient temple, they clearly do not understand God.

Meanwhile inside the U.S., targeted assassinations of key individuals have been taking place at an accelerated pace in order to restore democracy and the rule of law, CIA sources say. "The hammer is about to drop, as Attorney General Bill Barr met John Huber prior to FISA declassification and mass arrests," a Pentagon source noted. The source was referring to the fact that Huber is being forced to finally take action against Hillary Clinton, Obama, etc. for Uranium One, etc.

<https://www.thegatewaypundit.com/2019/03/special-prosecutor-john-huber-meets-with-attorney-general-bill-barr/>

The pharmacidical industry is also "under assault as Eli Lilly was forced to introduce generic insulin at half price while FDA director and Big Pharma shill Scott Gottlieb was fired for pushing states to cancel vaccine exemptions," the Pentagon sources note. This move to make vaccines mandatory was a desperate last-ditch attempt by the Khararian mafia to use toxic vaccines to murder a large percentage of the population in an attempt to save themselves from justice, CIA sources note.

A huge, secret war is also being waged by the Khazarian mafia to grab control of Africa's resources in a desperate attempt to avoid the bankruptcy of their Washington, D.C.-based United States Corporation, say Mossad and CIA sources. Africa is nearly twice as big as Russia and larger than Canada, and bigger than China plus the U.S. combined. The last thing the Khazarian mafia wants is for Africans to take back control of their own resources.

The most visible recent move in this secret war was the downing on Sunday of an Ethiopian Boeing 737 aircraft. Mossad sources say the aircraft was remotely hijacked and its passengers, including 19 UN officials, were killed as part of an attempt to disrupt a UN conference aimed at ending poverty and environmental destruction in Africa.

<https://10times.com/united-nations-environment-assembly>

<https://sustainabledevelopment.un.org/post2015/transformingourworld>

However, the remote hijacking of this aircraft is looking to have been a really stupid move by the Khazarians and is likely to lead to the bankruptcy of the Boeing Corporation. That is because it is the second time in four months that a Boeing aircraft has been crashed via remote control by the Khazarian mafia. China, Ethiopian Air (Africa's largest airline), and the Cayman Islands have grounded all Boeing 737s, and other airlines and countries are sure to follow until the remote-control hijackers are removed from control of Boeing.

<https://www.theguardian.com/world/2019/mar/11/ethiopia-airline-crash-china-grounds-boeing-737-max-8-jets-in-wake-of-disaster>

It is certainly no coincidence that after all military officers left the Trump regime, a Boeing executive, Patrick Shanahan, was made Acting U.S. Secretary of Defense. Shanahan has no real power over the U.S. military, because they no longer obey the bankrupt Washington, D.C.-based corporate government, Pentagon sources say. Here is what an X-files source had to say about the situation: "Many of the lizard families have shares in Boeing, and Boeing is tied up with Lockheed Martin [sic] as well."

In any case, the secret battle for Africa is continuing on other fronts, especially over control of mineral resources. Hints of this war can be seen in various recent news headlines. The most

bizarre was the story about diamond billionaire Ehud Lanaido dying "during penis enlargement surgery."

<https://www.dailymail.co.uk/news/article-6777961/Billionaire-diamond-trader-65-dies-penis-enlargement-surgery.html>

In fact, "he was taken to a special private clinic on the Avenue des Champs-Elysees in Paris late at night, long after the clinic was closed," a Mossad source said. "He was a direct competitor of Benny Steinmetz, who up until a few months ago was on the run from several governments, including Belgium and Africa, for billions of dollars allegedly owed in back taxes from illegal purchases and sales of rough and polished diamonds smuggled out of Angola and Sierra Leone for many years," the source continued.

"These two diamond dealers, among the biggest in the world of diamond trading, were targeted by those at the very top. One was removed, and one was put back on his pedestal as King of the business. Notice how close the timing is on the rise and fall of the two titans," the source noted.

Here is the second headline he was referring to: "Mining Billionaire Ends Bitter Guinea Dispute After Months of Secret Negotiations."
<https://www.bloomberg.com/news/articles/2019-02-25/steinmetz-stages-guinea-comeback-in-sarkozy-brokered-deal>

If you read the article, you can see that Steinmetz was helped by a who's who in the Zionist Khazarian mafia, including George Soros (i.e., his cut-out), Tony Blair, and Nicholas Sarkozy.
<https://www.bloomberg.com/news/articles/2019-03-10/china-asks-local-airlines-to-ground-boeing-737-max-caijing-says>

Also related to this was the news that Indian diamond mogul Nirov Modi is to be extradited. Modi allegedly absconded with over 2 billion dollars from Indian banks. "I am told that he will be picked up and become the 'poster child' for the legal system to show the world that you cannot escape the long arm of justice," the Mossad source said. "Don't forget, he is not one of the inside 'boys'—the wrong bloodline, and thus expendable in this Game of Thrones with the Khazarian Zionists," he added.

Further developments related to the ongoing African resource grab can be seen in a letter to the editor sent by the Khoi-San peoples, who warned of the use of a fake king in an attempt to steal their land and resources.

The Khazarian mafia are also attempting a similar resource grab in South America. There, the latest move was the use of cyber and energy weapons to sabotage Venezuela's energy grid.

The rest of the world has agreed to continue funding the U.S. military and transform them into a benevolent planetary protection force. They can start earning their money by rounding up all these criminals and either putting them in jail or killing them.

Don't Blame Trump — Blame the Pig Farmers

By Anna Von Reitz

Day after day I listen to people spewing hate
speech against Donald Trump, and the vast
majority of the time, they are complaining about
things that are being done to them by the
Municipal Government.

Get a clue.

Donald Trump is not in control of the Municipal Government.

The members of Congress acting "as" the Municipal United States Congress under Article I, Section 8, Clause 17 are the problem. And they are acting as part of the Holy Roman Empire — so blame the Pope and the Roman Catholic Church and the UN CORP and the Lord Mayor of London and the Grand Duchy of Luxembourg and the Benelux Governments, the Bank of France, and the IMF, World Bank, and BIS.

They are the ones causing unemployment, economic decline, horrible educational standards, wars for profit, moral depravity and promotion of human and drug trafficking —not to mention the identity theft and fraud that has been practiced against us all— you can take 95% of the rot and lay it at their feet.

The only way that the British Territorial Government (Trump's Baileywick) can be blamed for this current situation is that they have been entrusted with riding herd on the Municipal Government and have failed to do so. They have too often been bought off by co-option and bribes.

Trump isn't being bought off.

If he was, then everything would be roses and champagne for him inside the Beltway and the Mainstream Media would be slaving over him and licking his butt like they did with Barack Obama.

It's the people you are sending to Congress (albeit by voting in elections that were never meant for you and which aren't yours to vote in) that are operating as renegades and causing the

15/

foul stench coming out of Washington.

What else can you expect, when you let two political lobbies rule the roost and run everything? Lobbyists. Think about that word. You have lobbyists running what passes for a government.

In a normal government, a lobbyist is a member of a private interest organization that tries to influence the decisions of government. What we have instead are two such private interest organizations running the government.

Imagine two tribes of pigs, one pink and one brown, swarming over the trough and fighting each other over each piece of slop —and you will have the picture of what is going on year after year in Washington, DC.

Standing around thinking that things are ever going to be better or different depending on which brand of pig you support is delusional at best.

A pig is still a pig, and the purpose of a pig is to eat, eat, eat.

So, Mr. Farmer, do you want to raise pigs at all? Is that what the government is supposed to be in business for? If not, why are you allowing this to go on?

A third of the Federal Government — and the most important part of it from our perspective — is gone. Missing in action. It's been this way for 150 years. It has never been "reconstructed".

And in the meantime, the Hired Help has had a hey day of unbelievable proportions at our expense. The Lobbyists occupied the empty chairs of the actual Federal Congress, and here we are, seemingly stuck between a chocolate-flavored Pig Poop Cocktail and a raspberry

161

rendition of the same.

There is, of course, a Third Option. We could do what we are supposed to do, what we brag to the rest of the world about doing. We could self-govern.

We could wake up, reclaim our lawful birthright status as Americans, repopulate our land jurisdiction States of the Union, elect all our own officials, including our own peacekeeping officials, reconstruct our Federal-level States of States, and restore our actual government.

We could stop raising pigs. We could get out of the pig business altogether.

But first we have to wake up, and next, we have to get out of bed.

High Speed Rail, Lee Wanta, and the missing 27 Trillion Dollars?

The same scams to steal your identity, pay for wars you didn't agree to, and hijacking your tax dollars has gone on a long time. The Lee Emil Wanta story involves setting a large amount of money in secret to build a high speed rail system to covertly move nuclear missiles around and have a mobile launch system as advocated for by US President Ronald Reagan. Here we have big bankers, the Federal Reserve, a battle between the CIA and ISA (Intelligence Services Agency) spy agencies, and the public would have a high speed rail system in the US.

Wanta allegedly won a multi trillion dollar lawsuit against former US Treasury Secretary Paulson and/or US Government.

What is my take on what evidence, video, and text I have gone through to date?

Well, it is the anatomy of how bankers and spy agencies are bankrupting countries all over the world.

Maybe Reagan actually wanted the high speed rail service in the US not for the public show, but for missile transport. The way to end the USSR happened not with a military action, but with bankruptcy.

If the US and USSR were two poker players, the US showed a hand with space weapons, satellites that could use laser or particle beams to shoot down missiles, airplanes, and wipe out armies and soldiers on the ground, a rail mounted nuclear missile system, stealth submarines, etc. So, the USSR public, their taxpayers could not foot the bill for the war in Afghanistan AND to come up with all the programs that the US supposedly had to wipe the USSR off the map. The US didn't even have to have the weapons, they didn't have to even be possible, but the paper trail for USSR spies to follow did exist. International criminals could then pocket trillions of dollars that was set aside without providing anything AND destroy the USSR.

Patsies holding the bag for transacting the money were either killed or jailed. They could not say anything, because like Snowden, Manning, and others faced being covertly murdered by the CIA or jailed for letting out "state secrets".

This is my take. If you are so inclined, read up, word search, watch more videos, and make up your own decision. But if you want to know why you have less and less and war criminals and bankers have more and more, well maybe you can start to see what has been going on way too long. Maybe you can then act, not just sit in front of the computer type comments and view videos. That will not obtain any results, actions will.

Excerpt [www.veteranstoday.com/2013/12/28/high-speed-rail/ (http://www.veteranstoday.com/2013/12/28/high-speed-rail/)]:

In the late 1980s, United States President Ronald W. Reagan gave a mandated order/directive to Leo Emil Wanta* (Presidential Executive Order No. 12333). President Reagan authorized Wanta's company, New Republic/USA Financial Group, Ltd., Jackson, Mississippi, USA (a Mississippi intelligence operations group under Title 18 USC Section 6 (line 11) to build or otherwise obtain a rail system capable of moving MX Mobile Missiles.

www.veteranstoday.com/wp-content/uploads/2013/12/220px-Ronal (http://www.veteranstoday.com/wp-content/uploads/2013/12/220px-Ronald_Reagan_with_cowboy_hat_12-0071M_edit.jpgReagan)'s directive had to do with an Operational Plan to lawfully purchase the Santa Fe & Southern Pacific Railroad in the U.S. Bankruptcy Court for authorized mobilization and deployment activities. One of those authorized activities involved the movement of MX Mobile Missiles to an underground storage facility at Redstone Arsenal in Huntsville, Alabama. Redstone began as a chemical weapons manufacturing facility for WWII but became the Army's focal point for rocket and space projects (including the development of the first U.S. ballistic missiles and space launch vehicles).

Ambassador Lee Wanta was asked by President Reagan to assist with the transportation of MX Missiles.

www.veteranstoday.com/wp-content/uploads/2013/12/229px-Peace (http://www.veteranstoday.com/wp-content/uploads/2013/12/229px-Peacekeeper_Rail_Garrison_Car_-_Dayton_-_kingsley_-_12-29-08.jpgMX) Missiles transported in disguise inside specially constructed Railroad Cars.

Though using an old bankrupt railroad called Santa Fe & Southern to move MX Mobile Missiles is a far cry from planning a national high-speed rail system, that is how Ambassador Lee Emil Wanta got involved in planning a national high-speed rail facility for the American people. It began as a means to quickly and efficiently move MX

Mobile Missiles and ended as the dream of an engineer who could see the long-term benefits to his nation if such a system were implemented.

For those who have no idea how far-sighted President Ronald Reagan and his intelligence team were, a mid-December 2013 news story might help you understand. It's about Russia and an announcement made by President Vladimir Putin. These paragraphs were included in the Associated Press news article:

"Russia is developing a new intercontinental ballistic missile mounted on a railway car in a bid to counterbalance prospective U.S. weapons, a senior military officer has said.

"Colonel General Sergei Karakayev, the chief of the military's Strategic Rocket Forces, said in remarks carried by Russian news agencies on Wednesday that the new weapon would be much easier to camouflage than its predecessor. The Soviet-designed railway missiles were scrapped in 2005.

"Karakayev said the Yars missile intended for the project was much lighter than the Soviet-built system and could be put inside a regular refrigerator car unlike its predecessor, which required a heavier and bigger car that could be detected by enemy intelligence."

All Putin is doing today is a mirror image of what Reagan and Wanta were doing back in the 1980s and 90s. There is a long and not-so-glorious history for a high-speed rail program that has yet to be implemented in the United States... but let's start at the beginning.

Wanta purchased the Federal Land Bank Building in Jackson, Mississippi.

The direct mandated order that Lee Wanta got from President Reagan told him to purchase the Federal Land Bank Building in Jackson, MS, which would be used for logistics and satellite feed. The funds to buy the building and the Santa Fe & Southern Pacific Railroad came from the Department of Defense to Wanta's company, New Republic. The money was placed in Deposit Guaranty Bank in Mississippi and the credit cards for field operations were issued by Merrill Lynch to the New Republic/USA Financial Group.

If you have read Chapter 9 of Wanta's biography, WANTA! Black Swan, White Hat (1) (available at Amazon.com Kindle), you are aware that the prosecuting attorney in Wanta's civil/criminal tax evasion Kangaroo trial, J. Douglas Haag, a Wisconsin Assistant Attorney General, made much to-do about a \$500,000 deposit made to the Mississippi bank, informing Wanta's civil tax evasion jury the funds were Wanta's personal property, but then misrepresented them as evidence of his guilt as a tax evader in the State of Wisconsin.

Wanta is wrongly set up in one of the biggest miscarriages of justice ever.

These funds, of course, came from the Department of Defense and represented nothing of the kind... but Haag had Wanta in a box. The money had been provided to purchase a railroad that would be used to haul MX Mobile Missiles to defend the nation. The railroad and building for which the funds were provided both were linked to a highly secret mandate from the President of the United States and Wanta could not make that information public at his phony criminal trial for tax evasion. Instead, he had to eat a 22-year prison and parole sentence.

At the time of Wanta's Mississippi attempt to purchase the Santa Fe & Southern Railroad for moving the MX Mobile Missiles to appropriate locations for the national defense of the country, the Central Intelligence Agency (for which Vice President George Herbert Walker Bush had been Director until becoming vice president under Reagan) was America's primary intelligence agency. Because Reagan believed that the CIA was totally corrupted, he and Wanta were in the process of implementing a new intelligence agency called Intelligence Services Agency (ISA) which would have put the CIA into competition with the ISA for its survival. Lee Emil Wanta was to be the Assistant Director of the new intel-ops group... one of the reasons he was targeted as someone who needed to be "taken down."

High Speed Rail (HSR) blocked by Political Cronyism.

As is almost always true in the world of political cronyism, the CIA was threatened by the presence of the new ISA group and was probably behind the failure of the acquisitions program – the railroad and the Federal Land Bank Building – to implement President Reagan's plans. The

result: the CIA did not want the MX Mobile Missiles being moved around by the Department of Defense via Wanta's company – a Title 18 USC Section 6 (Line 11) intelligence gathering corporation. They wanted to control the operation complete with "set-aside allocations" and other financial motivation to be enjoyed by the participants at the expense of American taxpayers.

Today's politics include guaranteed employment

for well-known public employees called upon to perpetrate fraud upon the people of America while being paid by those very same people... they get set-aside allocations (like university positions funded by the government) and other revolving door professional courtesies like honorariums that bring with them power and position.

Surely you've noticed how the doors at Goldman Sachs swing open to place Henry Paulson as Secretary Treasury and how the government doors swing open so Robert Rubin can join Goldman Sachs... or how easily Janet Napolitano walked into her new job in California's University System.

Reagan's and Wanta's ISA made no such concessions to politicians and bureaucrats and so completing the mission was made impossible for Wanta.

To make sure completing the mission was impossible, Wanta was put in prison in Switzerland – no charges were ever filed during his 134 day prison stay in Lausanne's du Bois prison. They just kept him in an isolated dungeon cell likely built about the time Rome fell.

High Speed Rail (HSR) can provide Civil Defense capabilities not otherwise possible.

The public was to be told that the rail system Wanta was told to purchase was that people could quickly be moved to safety when the need arose... a hurricane evacuation route for Florida, Georgia, Alabama, Mississippi and Texas and that high-speed rail filled that need nicely. The hard core reason that justified the costs involved was, however, national defense: the movement of MX Mobile Missiles to critical locations.

So there you have that's the synopsis of why

Putin is, in December 2013, taking advantage of the original plan for Mobile MX Missiles born during the Reagan Administration under the management of Secret Agent Lee Emil Wanta... a plan that would have saved us from the USSR at that time. Wanta was working in concert with General James A. Abrahamson, Central Intelligence Director William Casey, former Central Intelligence Director William Colby, and Reagan's Attorney General, William French Smith. Gen. Abrahamson was Director for the F-16 Multinational Air Combat Fighter Program at Aeronautical Systems Division before being assigned Administrator for the Space Transportation System, and was responsible for the nation's space shuttle program. In 1980, he assumed the duties of Deputy Chief of Staff for Systems, Air Force Systems Command Headquarters.

And there you have the reason behind the birth of high-speed rail and the many positive ways it can be used for the good of the people to escape natural (and other) disasters rather than being trapped in big cities and forced to face possible death... and, of course, as is always in the very busy mind of Secret Agent Leo Wanta, the national defense.

What is this national high-speed rail system that is so high on Lee Wanta's list of things that America needs done so the Constitutional Republic can be restored? Is it something we should do? First, it's not a "should do" thing – it's a MUST DO because HSR will increase employment and the career opportunities – full-time, well-paid jobs with full benefits – will help stabilize economic recovery nationally, and do it quickly. Well, if it's done properly and is a privately-owned, national project rather than another cronyism project of either political party, economic recovery will stabilize nationally. Building a high-speed rail system will cause local, state and federal tax revenues to stop their drop into oblivion. Is there a city or town that didn't think the gravy train would go on forever – and are suffering mightily from their over-spending and lack of saving for economic downturns? How many cities in California alone have gone bankrupt? That disease of bankruptcy has spread to Detroit – with Chicago next? How many municipal bonds are at risk as this is being written? Far more than you're hearing about is the answer to that question. Who do you think will be asked to pick up the tab for these failed cities?

Other major nations have High Speed Rail including France, Japan and China.

20/

The rest of the world is passing America by in the world of transportation. This isn't about winning a competition, it's about increasing our capacity to produce and compete with other nations to sell American goods effectively both nationally and internationally. Japan implemented its first HSR train in the mid-1960s. On any given day in France, more than 450 high-speed rail trains are running. In France, they are known as TGV (Train a Grande Vitesse). French HSR offers about 150 destinations and the trains travel at 200 miles per hour. The TGV Atlantique carries over 40,000 passengers each day.

China has opened more than 42 high-speed rail lines and has the world's biggest train network, with 56,000 miles (91,000 kilometers) of passenger rail. Even with so much traditional and high-speed rail access, trains are overloaded with passengers and cargo.

Chinese rail technology dominates that nation's foreign diplomacy, extending the country's regional influence as well as addressing its growing energy demands. During this same time, US Transportation Secretary Ray LaHood played Tinker Toys with Amtrak, thinking he can hornswoggle the American people into accepting the equivalent of Amtrak's Acela line as "high-speed rail" – which it is not. The U.S. Government appears to want to charge American taxpayers for the larger costs of high-speed rail, but provide instead the same failed system that keeps Amtrak in the red by a billion plus dollars every year. Amtrak is old, inefficient, slow and is government owned and controlled.

Amtrak is the National Railroad Passenger Corporation and it is 40 years old. It is government owned and controlled. It is Union operated and employs more than 20,000 workers and its CEO is appointed by the President of the United States... a political appointment. The Amtrak budget is allocated by Congress (and it is thus dependent upon its friendly relations with Congress – keeping elected officials happy for its existence – do I hear echoes of "cronyism" here?).

Does this sound like the best possible expertise source to build a new, high-tech rail project? Amtrak can't even run its own company in a business-like manner. In fiscal year 2010, Amtrak earned \$2.51 billion and expensed \$3.74 billion... a net \$1.2 billion loss. The Amtrak system is antiquated, bloated and inefficient and its total cost to taxpayers for its 40 years of service is \$50 billion. Yet, Amtrak which has absolutely no experience in the world of high-speed rail is the expertise source selected by the Obama Administration. It was the expertise source for George W. Bush, too – and Bill Clinton and George H.W. Bush. Why? Remember those "set-aside allocations" we discussed above? Since Ronald Reagan left office, both elected politicians and unelected bureaucrats can control the goodies handed out by a government-controlled entity.

No cronyism would be allowed by President Reagan and his Secret Agent Wanta in the construction of the High Speed Rail System (HSR).

Wanta and Ronald Reagan were determined there would be no set-aside allocations, no cronyism – no favors given to former college roommates to develop the Obamacare computer software, no \$528 million loan losses to Solyndra. You remember a major backer of the solar energy company, billionaire George Kaiser, don't you? He was a major Solyndra backer and was heavily involved in soliciting donations for Obama's 2008 presidential campaign. To complete the disgusting picture of cronyism at its worst, Goldman Sachs, was Solyndra's financial adviser. Lee Wanta is determined that the American people will not pay for set-aside allocations for politicians or freebies for bureaucrats. Not on this railroad!

COST

People talk about the cost of high-speed rail, but it is tens of billions less costly than the alternative – expanding highways and airports to accommodate population growth. And, the environmental advantages to HSR are phenomenal – far better than jets, buses and cars. People who think it's costly to build a high-speed rail system need to check with Boeing to find out the cost of building jet airplanes (that carry far fewer people) for the airline industry. Of course, the government doesn't own the airlines – yet – but wants to own high-speed rail. And the airlines don't want the competition of a well-run
