Re: High Speed Rail, National Security, Ambassador Leo Wanta

Dear President Trump:

Sequel to my earlier letter as attached herewith, I am again addressing the infrastructure project, the need for a **High Speed Rail** here in the United States. I believe, especially in our current crisis (ie. the Chinese Corona Virus), it seems imperative to consider, one more time, the future needs of the United States to have a High-Speed Rail, for both Domestic and National Security reasons. As an example, having a High-Speed rail with many Hospital Cars could quickly and efficiently transfer infected patients to remote treatment locations and out of our over-burdened major cities and shorten the time necessary for a virtual shutdown. Such remote emergency facilities could include but are not limited to, CDC facilities, Local and Interstate facilities, major Hospital facilities and Military Facilities all of which may be better equipped to handle a national emergency. As you are also aware, a High-Speed Rail has many other National Security and Military purposes in any future crisis.

Ambassador Wanta has offered to fully fund and plan this High-Speed Rail project along with the undersigned and respectfully request a meeting with you at your earliest convenience. Thank you for your prompt attention to this matter.

Respectfully yours,

Jan M. Heger Esq
Counsel to AmeriTrust Group, Inc.
