Protocol Update Plus a lot More

by Tom Heneghan, International Intelligence Expert

UNITED States of America – It can now be reported that

U.S. President Barack Obama has signed off to allow U.S.

Treasury Secretary-designate Jack Lew to complete the

bilateral tax agreement between the IMF, the U.S.

Treasury and Austrian banks that will, at last, implement the Wanta-Reagan-Mitterrand Protocols.

U.S. Treasury Secretary-designate Jack Lew

Source: fox5sandiego.com

U.S. Treasury Secretary Timothy Geithner, who could easily be indicated for money laundering, comingling of funds, and giving insider trading tips to crooked banks, will resign his position on February 1, 2013, which will then pave the way for Jack Lew's swift confirmation as the next U.S. Treasury Secretary.

Reference: As we reported last week, the International Monetary Fund (IMF) has frozen IMF proprietary accounts tied to the Central Bank of Australia that has been comingling Wanta-Reagan-Mitterrand Protocol funds in the FOREX currency market with the assistance of none other than current U.S. Treasury Secretary Timothy Geithner.

The sense of urgency to complete Protocol implementation has now reached critical mass.

Despite bogus economic reports and statistics being released by the Peoples Republic of China, the truth is that China's economy is collapsing with their banks full of toxic worthless derivatives.

Item: The imploding Chinese economy will almost certainly force the Australian Central Bank to cut interest rates at their next meeting.

Christine Lagarde, Managing Director of the IMF

P.S. The IMF and its Managing Director Christine Lagarde and German Bundesbank Chairman Jen Weidmann are now finished with Greece. Greece, which needs another 10 billion euros to bail out the toxic derivatives linked to numerous Greek financial institutions, has been ordered to default by the IMF and leave the European Union within 30 days.

Reference: One must not forget that the derivatives in the Greek banks are holdings linked to U.S. banking giants Goldman Sachs and JP Morgan.

Greece, unlike Spain and Italy, has not received any Wanta-Reagan-Miterrand Protocol funds from the IMF because Greece does not have an independent sovereign treasury.P.P.S. As the worldwide currency war continues, the global demand for gold and silver aka real collateralized assets escalates.

Last week it was reported by Bloomberg News that the U.S. Mint is out of silver coins and a major ETF, SLV bought six hundred tons of silver last week.

Down Under Ponzi Scheme and Protocol Update and More

by Tom Heneghan, International Intelligence Expert

UNITED States of America – It can now be reported that trillions of dollars of worthless Deutsche Bank toxic derivatives are now sitting in the Central Bank of Australia.

These derivatives are being used to inflate the value of the worthless euro currency and simultaneously depreciate the Japanese yen in order to fund their latest FOREX currency fraud.

We can now divulge that IMF Managing Director Christine Lagarde has ordered the IMF to freeze the custodial IMF accounts at the Central Bank of Australia as to prevent further criminal money laundry.

Note: Lagarde has already frozen the proprietary accounts at the Deutsche Bank in Europe.

Question: Where do the derivatives go next?

One day they are in the Cayman Islands the next day they are in Australia. Stay tuned.

Lagarde has also given a final warning to the Central Bank of Australia to quit comingling Wanta-Reagan-Mitterrand Protocol funds.

We can reveal that the Central Bank of Australia was being used to forestall the collapse of the German Deutsche Bank and the European Central Bank (ECB) in the illegal use of Wanta-Reagan-Mitterrand Protocol funds as to collateralize the worthless Deutsche Bank derivatives.

This ponzi scheme has been enabled by the treasonous and criminal, privately-owned U.S. Federal Reserve and the Central Bank of Israel in using illegal credit default swaps that artificially weaken the U.S. dollar as to accommodate the money laundry operation we have just exposed.

Note: Traitor and criminal and money launderer Bernanke was using U.S. Taxpayers' money to conspire in this latest financial fraud.

Direct message to Bernanke: With U.S. Treasury Secretary-designate Jack Lew's confirmation pending Protocol implementation is imminent and you and your treasonous conspirators will soon face real justice for destruction of the U.S. economy.

UNITED States of America – As alleged President Barack Obama readies his totally UNCONSTITUTIONAL Executive Orders (EOs) that will destroy and wipe out the 2nd Amendment of the Constitution of the United States, radiation fallout from the failed Japanese nuclear reactor at Fukushima is now spread over 23 states in the U.S.

Civics Lesson 1: It is important to remember that former year 2000 illegal White House occupant, nation wrecker, Constitution shredder, election stealer, U.S. Treasury embezzler, cocaine sorting, AWOL, war criminal George W. BushFRAUD and current alleged U.S. President Barack Hussein Obama-Soetoro already destroyed the 1st Amendment to the U.S. Constitution with the UN-Constitutional BushFRAUD Patriot Act and the totally UN-Constitutional Obama NDAA (National Defense Authorization Act).

Civics Lesson 2: Remember, folks, the 2nd Amendment exists to defend the 1st Amendment.

P.S. At this hour, we can divulge the IMF has told President Barack Obama to sign off on the final implementation of the Wanta-Reagan-Mitterrand Protocols immediately!

P.P.S. The U.S. Provost Marshal and U.S. Treasury Secretary-designate Jack Lew told check kiter and money launderer, Timothy Geithner, to quit looting pension funds of the U.S. Taxpayers on behalf of corrupt criminal banks.

In closing, as our Constitution hangs in the balance, it is important to remember the NRA (National Rifle Association) has no credibility when it comes to the Constitution.

The NRA defends the 2nd Amendment but does not defend the 1st Amendment in regards to the UN-Constitutional Patriot Act and the NDAA (National Defense Authorization Act).

Note: A hack organization of the Republican Party, the NRA actually endorsed nation wrecker, election stealer, Constitution shredder and homosexual in-the-closet and crooked bank stooge, George W. BushFRAUD in his race against then Vice President now year 2000 duly elected President Albert Gore Jr.

As Lafayette remains at Brandywine, Albert Gore Jr. remains the non-inaugurated, duly elected natural born President of the United States of America.

Where is the Iraqi Dinar Now plus Protocol Update, 1 of 4

by Tom Heneghan, International Intelligence Expert

UNITED States of America – It can now be reported that trillions of unmarked Iraqi dinar currency is currently being recycled from various worldwide banks, including U.S. Citibank, Wells Fargo, Bank of America, UBS Switzerland, along with the Snakehill Bank of Australia.

Reference: There is also a tie in to American International Group (AIG) and its holding company Starr International.

At this hour, the Iraqi dinar is being placed back into the Central Bank of Iraq without IMF supervision.

This latest money laundry represents an entire world economic reset as SAC Capital, Knight Capital, and the noted gangster bank JP Morgan Chase face huge cross-collateralized derivative exposure.

Note: The derivatives are worthless and about to be called on.

If you are a stock market investor look out below.

These crooked JP Morgan bets, which involve illegal credit spreads and fraudulent forward sales of precious metal contracts, have a direct tie in to the noted London Whale JP Morgan trading debacle.

We can now also divulge that JP Morgan and the London Whale used illegal cross-collateralized credit spread derivatives as margin in an attempt to rig aka depreciate and rig the price of silver and gold.

P.S. At this hour the U.S. Provost Marshal, along with the U.S. Comptroller of the Currency, are being blocked by U.S. Justice Department officials in regards to pursuing evidence that now links the U.S. State Department aka U.S. Department of Commerce, the government of Turkey, and the U.S. based American-Turkish Council in using the unregistered CIA outpost in Benghazi, Libya as a major money laundry center in the illegal trafficking of both arms and narcotics to both sides involved in the current civil war in Syria.

We can also reveal the last man to see Ambassador Christopher Stevens alive was none other than the Turkish Ambassador to Libya.

We can now report that both Stevens and the Turkish Ambassador to Libya had engaged in a serious argument aka a shouting match the same day that Ambassador Christopher Stevens was assassinated.

Jack Lew, U.S. Treasury Secretary designate

At this hour, U.S. Treasury Secretary designate Jack Lew is ready to sign off on the final implementation of the Wanta-Reagan-Mitterrand Protocols aka the bilateral tax agreement involving the U.S. Treasury, Austrian banks and the International Monetary Fund (it is \$30 TRILLION).

American patriot Jack Lew is moving forward despite attempts by Senator Jeff Sessions, Republican of Alabama (Bush-Clinton Crime Family Syndicate stooge) to blackmail the Obama Administration regarding Protocol implementation.

Bush Crime Family stooges Senator Jeff Sessions and Karl Rove

Senator Sessions currently operates a massive political slush fund tied to former real estate lobbyist Lanny Young, former Alabama Attorney General William Pryor and Bush Crime Family bagman Karl Rove.

The aforementioned corrupt individuals previously conspired with U.S. Justice Department officials (most of them bribed) to frame former Democratic Governor of Alabama Don Siegelman on a bogus campaign finance charge brought against him by none other than Karl Rove stooge, Republican lobbyist Lanny Young.

Note: Both Karl Rove and Jeff Sessions once bragged that they own U.S. Attorney General Eric Holder. The FBI is in possession of an audio tape recording conversation involving Rove and Sessions regarding their statement about AG Holder.

Sessions was also linked in the 1990s to Hillary Rodham Clinton puppet Eva Telege aka Teleke aka Teleki in stopping then Vice President Albert Gore Jr. and Ambassador Leo Wanta from implementing an Alabama toll bridge (financed by Parkhead Financial) that would have been vital, if it had been built, in the evacuation of hurricane victims after Katrina.

Stay tuned, more to come.

NYC Mayor Michael Bloomberg

In closing, we have a question.

Did New York City Mayor Michael Bloomberg short Pepsi Cola stock before he banned Pepsi Cola from New York City hospitals?

Bloomberg, a direct enemy of the 1st and 2nd Amendments to the Constitution of the United States, is a control freak and has liaison to both U.S. FBI Division 5 cointelpro and the treasonous Department of Homeland Security (DHS).

Finally stay tuned for future intelligence briefings when we will bring you everything you wanted to know about Mayor Bloomberg and the pending financial collapse.

P.S. At this hour we can divulge that attorneys for Ambassador Leo Wanta are petitioning the U.S. Supreme court to set a time and date for final completion of the IMF, Austrian banks, and U.S. Treasury bilateral tax agreement (originally ordered in late October by the U.S. Supreme Court) that will complete the final implementation of the Wanta-Reagan-Mitterrand Protocols and transfer \$1.5 trillion from the U.S. Treasury to the custodial AmeriTrust account of Ambassador Wanta, that will then allow him to pay the taxes on the AmeriTrust account to the U.S. Internal Revenue Service.

In closing, it is imperative that final Protocol implementation be done IMMEDIATELY given that over \$190 TRILLION of worthless toxic derivatives tied to JP Morgan Chase, Goldman Sachs, Bank of America, U.S. Citibank, and the Federal Reserve Bank of New York threaten to collapse the entire world economy at any moment.

Protocol Update plus There is NO Fiscal Cliff Part 1 of 1a, 2, 2a and 3

by Tom Heneghan, International Intelligence Expert

UNITED States of America – It can now be reported that the \$1.5 TRILLION representing the final implementation of the Wanta-Reagan-Mitterrand Protocol funds is now sitting in the coffers of the U.S. Treasury.

Reference: The \$1.5 TRILLION represents the taxes due the U.S. Internal Revenue Service on the Swiss-based U.S. CIA custodial AmeriTrust account.

At this hour it is unknown if U.S. President Barack Obama has complied with the U.S. Supreme Court order and transferred the funds from the U.S. Treasury to the IRS.

It is also unclear if the IRS has received the funds since the IRS computer system is *allegedly* down for repairs until January 2nd.

Question: Has the IRS been hacked?

We can also reveal that U.S. Treasury Secretary Timothy Geithner has been forced to recuse himself from the Protocol process or face arrest by the U.S. Provost Marshal.

As the year 2012 comes to an end, forces close to the U.S. military are reporting that U.S. President Barack Obama continues to be blackmailed by the Bush-Clinton Crime Family Syndicate.

U.S. military sources are reporting that crime syndicate team leaders include Bush family lawyer and spokesman, election 2000 fixer and stealer, James Baker, former BushFRAUD U.S. Treasury Secretary Henry 'Hank' Paulson, as well as former Clinton U.S. Treasury Secretary and Citibank CEO Robert Rubin.

World Economy Ready for a Reset

by Tom Heneghan, International Intelligence Expert

source

UNITED States of America – It can now be reported that IMF President Christine Lagarde has reached agreement with the U.S. branch of the IMF, U.S. Internal Revenue Service and the Austrian banks on the bilateral tax agreement between the U.S. and European IMF wings that will lead to the final implementation of the Wanta-Reagan-Mitterrand Protocols that will put \$1.5 TRILLION back in the U.S. Treasury.

Item: The consensus that has been reached by U.S. and European IMF officials includes the repatriation of 14.7 metric tons of Somalian gold that is currently sitting in vaults at the Brazilian treasury.

At this hour, the IMF continues Protocol implementation, asset redemption and repatriation with creation of sovereign draw down accounts that will write down the toxic derivative holdings of zombi financial institutions like the German Deutsche Bank.

The German Deutsche Bank, which had their proprietary trading accounts frozen by the IMF one week ago, is currently holding a significant amount of Japanese government bonds.

The Central Bank of Japan continues a policy of depreciating the value of the yen and lowering the borrowing costs to its lenders.

Notice to the Central Bank of Japan: The IMF is ready to give the Deutsche Bank a haircut at the IMF barbershop.

P.S. Now that Wanta-Reagan-Mitterrand Protocol implementation is finally imminent we can divulge that the entire world economy will be reset by the IMF with both the U.S. dollar and Brazilian real becoming super world currencies, with both the U.S. dollar and Brazilian real having an exchange coordinated rate differential that will bring about worldwide currency equilibrium.

What this will do will end the worldwide currency wars that was actually started by the U.S. Federal Reserve and reduce the volatility in the worldwide financial derivative markets.

It was the illegal uncollateralized derivative trading by crooked banks that triggered the financial crisis to begin with.

source

P.P.S. Stay turned for future intelligence briefings, including an IAEA report that fingers the government of Iran in directly aiding the nuclear program of North Korea.

We will also have an update on the spread of chemical weapons (red mercury 20.20) across the Middle East with the financing of this black market weapon of mass destruction (WMD) proliferation tied to none other than Marc Rich's Swiss-based Glencore Commodities and the government of Iran.

LATE BREAKING REPORT

P.P.P.S. U.S. Justice Department officials that recently indicted United Bank of Switzerland (UBS) on criminal charges involving the rigged LIBOR rate, have informed financial regulators: the NFA and the CFTC that a bank can not be a counter party to a commodity exchange even if the exchange declares itself a public corporation.

The evidence gathered by Justice Department officials show that UBS Switzerland traded through stooge bank holding corporations that became a counter party to disguise fraudulent manipulation of the LIBOR rate.

Translation: What this means is that all MFGlobal and PFG *illegally* liquidated and looted customer segregated accounts must be 100% fully reinstated.

Note: Jefferies bank holding company headquartered in Chicago was the bank that conspired with the National Futures Association (NFA) to *illegally* liquidate PFG customer segregated accounts.

Recently it got worse!

Jefferies bank over the last week has been handing out bonuses to its banking employees using none other than the illegally liquidated PFG customer segregated accounts.

Final notice to both MFGlobal and PFG trustees as well as Jeffries Bank Holding Company:

PUT THE PEOPLE'S MONEY BACK!

In closing, to all the loyal followers of these intelligence briefings:

Merry Christmas to all!

P.P.S. We can also divulge that U.S. Supreme Court Chief Justice John Roberts has now stated that **the rule of law mandates Wanta-Reagan-Mitterrand Protocol implementation IMMEDIATELY!**

Protocol Implementation Underway

By Tom Heneghan, International Intelligence Expert

American Patriot Ambassador Leo Wanta, French President Francois Mitterrand and American President Ronald Reagan

UNITED States of America – It can now be reported that the capital injection aka the 5 billion euro advance to the Spanish Bankia is setting stage for the final implementation of the Wanta-Reagan-Mitterrand Protocols.

Another 70 billion will be allocated to the nations of France, Germany, China, Greece, along with the Russian Federation and other nations.

Reference: Massive redemption and repatriation of collateralized assets from offshore proprietary accounts aka Swiss Banks Credit Suisse and UBS continue under the supervision of the IMF (International Monetary Fund) and the U.S. Inspector General.

P.S. The implementation of the Wanta-Reagan-Mitterrand Protocols will re-collateralize banks worldwide, eliminate inflationary expectations, reduce euro debt derivative exposure and with the return of significant funds to the U.S. Treasury zero out the U.S. budget deficit.

The triggering date is October 1st.

Former First Lady Nancy Reagan

In closing, we want to, once again, thank a great American Patriot, former First Lady Nancy Reagan, for her assistance in this matter that will give the People of the World a chance for a new day.

Financial Reality Check

Tom Heneghan, International Intelligence Expert

Sunday August 26, 2012

UNITED States of America – Today we are going to discuss the need for the equity market to be significantly lower in order for Federal Reserve Chairman Bernard Bernanke to step in with his munificence (laugh out loud).

Critically, this is less about the absolute level of the S&P 500 (so anyone expecting the Fed Chairman to step in with the S&P 500 within a few percent of multi year high is dreaming) but, as Barry Knapp from Barclays Bank notes additional monetary stimulus is a function of both inflationary and deflationary expectation (as opposed to a shallow drop in the S&P 500).

Right now there is a level balance between inflationary and deflationary expectation. It is the risk of deflation that will trigger a policy reaction.

Current conditions are not even close to levels that have warranted additional stimulus in the past, which we estimate to be a 2% 5Y5Y forward inflation break even rates. In order for that level to be triggered based on the post crisis relations between equities and inflation expectations the S&P 500 trailing earnings yield would need to rise over 8.2% implying an S&P 500 level 1200.

Tracking inflationary and deflationary expectations is critical to any new QE hope, and for now, there is none on the horizon no matter how much everyone clamors for it.

P.S. We can now divulge that Bundesbank president Jens Weidmann has told Der Spiegel magazine that he will veto any new ECB bond purchasing program. Weidmann believes any alleged new stimulus aka writing new derivatives to replace old derivatives has become a drug addiction for certain European banks.

We can now report that Weidmann is working closely with both the IMF (International Monetary Fund) and the U.S. Inspector General on a program of worldwide bank reconsolidation and recollateralization.

P.P.S. This all dovetails to both the Chinese and Japanese central banks who are currently in the process of buying U.S. dollars. The Chinese and Japanese need this U.S. currency to fund their vendor financing as to issues letter of credit.

P.P.P.S. The Attorney General of New York (where is Eric Holder?) is compiling new evidence linking Royal Bank of Scotland (RBS) and HSBC of London to using the proceeds from their Iranian money laundry program to boost the price of both the stock and commodity markets (create asset bubbles).

Note: As we reported in previous intelligence briefings, this money laundry operation was all part of a ponzi scheme that would allow private investors aka crooked banks and hedge funds to bypass the German Bundesbank and give the National Bank of Greece a short term bridge loan aka bail out.

In closing, I want to alert the American People that U.S. banks are still allowed to borrow against money market funds and use the personal savings of average Americans as margin to engage in proprietary trading.

Question: Where is your money market fund? Is it in crude oil futures or, is it at the National Bank of Greece?

Hello CFTC, NFA, SEC and FDIC!

We can now divulge that Dutch bank ABN AMRO was to be used as the clearing house for the Greek asset bubble ponzi scheme with a tie in to the Central Bank of Austria.

At this hour the Dutch Premier now opposes any Greek bail out.

*** * * UPDATED REPORT #2 * * ***

The U.S. Inspector General, along with IMF President Christine Lagarde and German Bundesbank President Jen Weidmann, have told U.S. Treasury Secretary Timothy Geithner and current Federal Reserve Chairman Bernard Bernanke and former Federal Reserve Chairman Alan Greenspan:

CEASE AND DESIST and STOP USING THE WANTA-REAGAN-MITERRAND PROTOCOL FUNDS AND YOUR ASSET BUBBLE PONZI SCHEME THAT INVOLVES AN ATTEMPTED ILLEGAL BACK DOOR BAIL OUT INVOLVING THE NATIONAL BANK OF GREECE AKA J.P. MORGAN AND GOLDMAN SACHS.

The aforementioned parties have told Geithner, Bernanke and Greenspan to stop writing derivatives on U.S. Taxpayers' money that does not belong to them.

Note: Current alleged U.S. President Barack Hussein Obama-Soetoro is using Geithner to offer bribes to the National Bank of Greece to delay their exit from the European Union until after the November election.

Bloomberg News continues to lie and spin on the behalf of their crooked bank benefactors. A Bloomberg News stooge reporter out of Asia just reported that China needed to boost exports by adding new stimulus.

That, of course, is BULLSHIT!

As we have reported, China and Japan are actually buying U.S. dollars so they can issue letters of credit to fund their vendor financing after Geithner, Bernanke and Greenspan, along with crooked banks and hedge funds, went out of control in an attempt to attack the U.S. dollar to do a money laundry bail out of the National Bank of Greece.

Further note: Massive illegal electronic front running to continues tonight in all financial markets with the front running being orchestrated by the crooked hedge funds and banks.

Reconsolidation, Recollateralization and Repatriation Continues

by Tom Heneghan, International Intelligence Expert

Sunday August 5, 2012

UNITED STATES of America - It can now be reported that the U.S. Inspector General, along with IMF (International Monetary Fund) officials, are jointly coordinating major redemption and repatriation of collateralized assets from offshore proprietary accounts reference property rights, precious and industrial metals, along with oil and natural gas holdings (India, China, Singapore and the Philippines).

The word from the IMF is out that because of the irregularities of the LIBOR rate worldwide banks need to reconsolidate and recollateralize and not create more derivatives that would immediately be absorbed in borrowing costs and create more deflation not inflation with the banks being unable to really loan money.

A recent short term bridge loan to the government of Greece that was supplied to them by the Bank of Greece has alarmed IMF officials.

Note: The Bank of Greece's stockholders include German Deutsche Bank, the Bank of Shanghai in mainland China, along with former President George Herbert Walker Bush, former Secretary of State Colin Powell, banking giant Goldman Sachs and Bank of America, together with current New York City Mayor Michael Bloomberg (owner of Bloomberg News).

Question to Bloomberg News: Have you heard that sources close to the German Bundestag (German Parliament) believe the German Supreme Court will rule that the ESM (European Stability Mechanism) is unconstitutional under German law when they convene on September 12, 2012?

Item: At this hour, IMF President Christine Lagarde and Bundesbank CEO Jens Weidmann believe ECB (European Central Bank) President Mario Draghi exceeded the scope of his mandate. Lagarde and Weidmann also have informed the German Deutsche Bank that their balance sheet needs to be recapitalized with *real* assets.

Both Lagarde and Weidmann believe the solution to the euro crisis is reconsolidation and repatriation and *not* borrowing money that doesn't exist. This all dovetails to the final implementation of the Wanta-Reagan-Mitterrand Protocols that could zero out the U.S. budget deficit within 60 days and dramatically reduce European and worldwide debt exposure.

P.S. We can now also divulge that the U.S. Inspector General has begun a preliminary audit of the U.S. Federal Reserve, along with the U.S. and European banking giants the the FED

and the American Taxpayers helped 'bail out'.

The Inspector General is working on issuing invoices that will become assets for the U.S. Treasury, the American Taxpayers and the IMF.

P.P.S. Last Friday the rogue Federal Reserve Bank of New York (Timothy Geithner's former employer) issued customer repo's allowing banking giants Goldman Sachs and Bank of America to use their bonds as collateral to get a short term line of credit and then buy U.S. equities, weaken the U.S. dollar and create asset bubbles by buying various commodity contracts.

Hello CFTC!

The question that should be of concern to financial regulators is the possibility of a connection between the customer repo's and the short term bridge loan made by the Bank of Greece to the government of Greece.

Hello CFTC!

In closing, financial markets are now in a state of no man's land. The black box electronic traders controlled by the banking casinos have created an environment of increased volatility without volume.

There are rogue electronic trades that show up and then disappear, Chinese electronic hacking with no paper trail that can balance out at the end of the day.

The question is: Where is the CFTC, the SEC and the NFA who job is to police this crap.

They are too busy framing retail brokers and are now trying to put FCMs out of business on behalf of their handlers, the big banks.

It should be abundantly clear that we need a massive regulatory overhaul!

***** LATE BREAKING REPORT *****

We can now divulge that the alleged shooter involved in the Wisconsin FALSE FLAG attack is a former FBI informant tied to an infiltrated militia cell in the state of Michigan.

Greece Remains the Tripwire

by Tom Heneghan, International Intelligence Expert

[source](#)

UNITED States of America - It can now be reported that the 28 billion in Greek debt actually represents 1.28 trillion in EURO-U.S. dollar debt with the debt cross-collateralized to the German Deutsche Bank, JPMorgan Chase and the Japanese Singapore branch Mizuho Bank.

We can also report that the U.S. MILITARY has already completed a secret audit of the conspiratorial privately-owned U.S. Federal Reserve showing that the Fed has become a massive money laundry and derivative clearing house for the worldwide banking consortium and now operating not only a ponzi but a massive pyramid scheme, which is no longer top down but bottoms up.

Translation: The Fed has a massive case of the flu aka the bird flu.

P.S. At this hour the worldwide foreign currency market aka the FOREX needs to be immediately shut down by U.S. financial regulators aka the CFTC and the NFA.

Algorithm fraud is being conducted by central banks allowing 100% mark ups on options both calls and puts that have almost a zero percent delta and no volatility.

These banks aren't market makers, they are electronic computerized foreign currency swindlers of the highest order!

The banks are actually using a now computerized London-based mocatta option from the early 1980s.

Reference: Inflated bids and asks with no real volume justifying this type of price structure.

This is all grand theft larceny!

We can also divulge that CME Group President Terry Duffy continues to allow this massive electronic trading fraud and recently announced (a violation of the Commodity Exchange Act of 1936) that all floor brokers aka human beings would be fired with all trading being handed over to NSA programmed computers.

Message to Duffy: The Commodity Exchange Act of 1936 requires open outcry aka human beings being market makers not a NAZI Paperclip NSA programmed computer.

Alice Remains in Derivative Land and the Bankers Have NO Clothes

by Tom Heneghan, International Intelligence Expert

UNITED States of America - It can now be reported that Greek banks face a serious liquidity crisis as depositors withdrew up to 4.2 billion euros over the last 72 hours.

Greece will leave the European Union Sunday night, January 25th, meaning that Greece will default on 70 trillion in euro currency in cross-collateralized derivatives tied to JPMorgan Chase, Bank of America and Saudi owned U.S. Citibank, along with the Central Bank of Japan.

Today the ECB (European Central Bank), the Central Bank of Japan and the U.S. Federal Reserve issued 70 trillion (laugh out loud) of cross-collateralized foreign currency derivatives (there is no real cash or margin) all designed to absorb the shock of the Greece default.

The central bankers are now playing high stakes-high wire finance; when backed into a corner here comes the 'BAIL-IN'.

P.S. The alleged ECB stimulus program (another Central Bank ponzi scheme) does not begin until March. There is no mention of the specific European banks that will buy bonds and it is likely that Jens Weidmann, head of the German Bundesbank, will sabotage ECB before we even see March 1st.

At this hour there is no real cash left in the financial markets. There are just computer algorithms and cross-collateralized derivatives masquerading as assets when they are nothing more than I.O.U.s between crooked banks.

They call those credit default swaps (CDS).

In closing, as Ukraine is about to financially collapse aka a default on the IMF (International Monetary Fund), expect the Russian Federation to annex the entire province within days.

Stay tuned for future intelligence briefings in which we will detail the latest U.S. coup d'etat in Yemen, which was nothing more than an obstruction of justice effort to protect the Saudi financed-Israeli Mossad operated Yemen government that was headquarters for the Pegasus Unit crisis actor terrorists.

IMF Takes Command

by Tom Heneghan, International Intelligence Expert

UNITED States of America - It can now be reported that the International Monetary Fund (IMF), which continues relentless implementation of the Wanta-Reagan-Mitterrand Protocols has told Spain and Greece that they can now write off the

derivative debt and bad loans linked to crooked U.S. and British banks reference: Goldman Sachs, JPMorgan Chase, Citibank, Barclays Bank of the United Kingdom and none other than the Bank of England.

This derivative debt on the books of Spanish and Greek banks derives from the illegally bundled mortgage-backed securities that were fraudulently marketed and sold to European financial institutions and investors during the period from 2003 through 2007, enabled by the BushFRAUD-Henry Paulson Administration.

Item: The IMF ordered Wanta-Reagan-Mitterrand Protocol implementation, which is now occurring across Europe, is targeted to the sovereign treasuries of the European nations and has basically made the European Central Bank (ECB) irrelevant.

Note: The implementation of the Wanta-Reagan-Mitterrand Protocols in Europe has now actually strengthened the value of the euro currency to above 132 in the current spot price.

P.S. At this hour, IMF and the U.S. Comptroller of the Currency continue to order massive redemption and repatriation of collateralized assets (eyes over China, India, Japan and especially the Philippines) reference precious and industrialized metals, along with oil and natural gas holdings, as the IMF and the U.S. Comptroller of the Currency continue to move forward on bank consolidation and re-collateralization as the crooked derivatives are being written off as fraudulent.

P.P.S. We can also divulge that U.S. Supreme Court Chief Justice John Roberts has now stated that the rule of law mandates Wanta-Reagan-Mitterrand Protocol implementation IMMEDIATELY!

The question now is: At this hour, where is U.S. Treasury Secretary Timothy Geithner?

In closing, we can report that elements of the Joint U.S.-French Intelligence Task Force, that has been on American soil since the American Revolutionary period, has warned the U.S. Federal Reserve not to co-mingle Wanta-Reagan-Mitterrand Protocol funds.

Finally, message to Bank of England stooge David P. Crayford: For the first time and the last time, cease and desist! The American and European Taxpayers are no longer

going to bail out the Bank of England and the crooked London LIFFE Exchange.

Beyond Corruption

by Tom Heneghan, International Intelligence Expert

UNITED States of America - It can now be reported that the criminal U.S. bank Goldman Sachs, that helped destroy Greece, and the alleged financial regulators: the SEC, the CFTC and the totally corrupt NAZI fascist NFA, are guilty of massive obstruction of justice in regards to a massive foreign currency money laundry directed by sociopath NAZI lesbian Hillary Rodenhurst Clinton.

This filthy NAZI Jew lesbian (who directed John F. Kennedy Jr.'s assassination and the attempted assassination of then Vice President Albert Gore Jr. over the skies of Chicago in 1999) is now going rogue with her sociopath husband Bill to blackmail and control financial regulatory agencies: the SEC, the CFTC and the totally corrupt NFA.

Note: Hillary used her illegal private email at the U.S. State Department to communicate directly with the alleged financial regulators who coordinated attacks and illegal investigations against her political enemies including myself, the author of this intelligence briefing.

Notice to HIGH TREASON TRAITOR Hillary: Your NAZI Jew ass is grass!

U.S. Constitution duly elected President Albert Gore Jr. remains the REAL President of the United States and you, bitch, are a rotten piece of filth.

IMF President Christine Lagarde has directly blocked a 31 billion European Central Bank money laundry involving the National Bank of Greece, which is basically owned by corrupt U.S. financial giants JP Morgan, its affiliate Morgan Stanley, along with Goldman Sachs and Citibank.

The IMF and Lagarde are convinced that this alleged Greek bail out scheme is nothing more than an attempt to bail out the crooked cross-collateralized derivative holdings of the aforementioned financial institutions that have turned the National Bank of Greece into a Goldman Sachs gambling casino.
