## The Shocking Police Brutality Across America Is Being Staged And Provoked At The Same Time—WHY & WHO?

**CULTURAL MARXISM**  
Destroying America City by City  
by Triggering Police Brutality,  
Undermining Law Enforcement,  
Defunding Police Departments  
& Creating Autonomous Zones

State of the Nation

The increasing number of acts of police brutality across America, especially since 9/11, is not a haphazard trend. In fact, this intensifying and alarming pattern is the product of a pre-planned scheme to stealthily undermine confiden enforcement nationwide among other things.

The incessant brutality and unnecessary murder of citizens is also the direct result of the systematic militarization of police ar departments around the country. Not only are local law enforcement departments everywhere given paramilitary and military by the U.S. Federal Government, personnel are now regularly trained using harsh military techniques for both crowd control a individual incapacitation and arrest.

There is a carefully hidden agenda behind the often staged police brutality that is revealing itself as never before. With each f operation, mass casualty event and act of police brutality, the true purposes can no longer be concealed so desperate are th **Neocons and Rothschild-funded globalists to implement their New World Order agenda throughout the United State America.**

## IDF Training

**The number one training ground for American law enforcement officers is presently the apartheid state of Israel.**

It is the nation of Israel that cities, counties and states routinely send their 'peace officers' for training; and where they are quickly transformed into ruthless machines and savage monsters (with the exception of those good officers who can resist the long-term programming).

This is why the U.S. citizenry is now being treated, in many cases, just as the Palestinians are methodically brutalized by the Defense Forces).

Even small towns and villages throughout the USA are now sending their officers to Israel to receive this IDF-directed training heavy-handedness, oppression and cruelty.

In fact, there is an elaborate system of carrots and sticks which has been surreptitiously shoe-horned into place, which make Israel arrangement a win-win situation for both governments but which delivers a HUGE loss to the American people.

After all, the current draconian regime of apartheid that reigns across Israel is enforced via the same weapons and technologies and techniques that are being used on the Palestinians. The ultimate goal of the NWO globalists is that the American people become the victims of the same treatment. That's why the meme "SHEEPLE" was made so common on the Internet today; it's predictive programming.

## Exposure to Overwhelming Technology

There's another extremely significant reason why cops are becoming callous and violent toward citizens with the wrong baton. Has anyone looked inside a typical police car or sheriff SUV lately? It looks like a veritable airplane cockpit there is so much installed?!

**Some of the most powerful IT devices and energy emitters cannot even be seen in this photo of a police car.**

Not only that, but most officers are required to wear various types of IT devices (e.g. body cams) right on their body all day long. Again, most of this newfangled technology was developed in Israel with absolutely no consideration of the human health effects. Israeli creators only cared about applied information technologies that work reliably, efficiently and quickly. Safety concerns do not matter as further indicated by the exceedingly reckless and dangerous 5G roll-out worldwide, except, that is, in Israel. See: [5G is NOT allowed in Israel where it was developed](#)

Now, just imagine what it must be like to be cooped up in a patrol car all day long totally surrounded by a 4G and/or 5G energy field. Being exposed daily to such a constant and high output of electromagnetic frequencies and microwave transmissions is enough to cause serious damage to any law enforcement officer, no matter how big and strong and tough.

**What's the critical point here?**

**A big city police officer in NYC or Chicago or LA is basically riding around all day long surrounded by a 5G power grid sitting in front of a virtual Internet of Things. Not only is this EMR overwhelm their stark working reality, it's getting substantially more intensified by the year.**

## \*EMR = Electromagnetic Radiation

Just how harmful is this vehicle IT environment experienced to varying degrees by law enforcement officers in all 50 states? More importantly, what is causing so many good deputies to literally snap as the many YouTube videos clearly demonstrate? As for

If the American people really understood what these well-meaning folks have to deal with every hour of every work day, there would be a sea change of attitude toward their difficult plight. Quite tragically, American law enforcement officers — NATIONWIDE — are forced into a predicament replete with “**overwhelming technology**” that then sets them up to do improper things. In some instances, these officers cannot help themselves ... or don't even know what they just did.

While there is never any excuse for a peace officer to take the life of an innocent civilian, many times a perfect storm seems to come out of nowhere and blows through an event that then spirals totally out of control. This can happen frequently — through no one's fault except, of course, in those cases where a real criminal brings it on him or her self.

**CAVEAT:** The transparently staged murder of George Floyd is NOT such an incident because it was meticulously engineered to trigger the ensuing race riots as a lead up to a planned race war prior to Election Day. In other words, the shocking planned killing of Floyd (if it's not a complete hoax) could be likened to a geoengineered superstorm designed to trigger full-scale riots throughout urban America in preparation for a future race war.

## Obama's Civilian National Security Force

There is a complex conspiratorial plot afoot to replace America's local law enforcement apparatus.

This fundamentally communist plot is best described as Barack Hussein Obama's “[Civilian National Security Force](#)” which he announced during the 2008 campaign season.

**It's of paramount important to know that the very first stratagem employed in nearly every violent revolution is the takeover of the nation's law enforcement at every level—municipal, county, state and federal.**

The FBI and DOJ have already been completely usurped and/or co-opted; the states have likewise been taken over. However, police departments and county sheriff have yet to be overthrown. The county sheriffs are especially resolute about maintaining independence from any and all initiatives that places American law enforcement under the UN umbrella. See: [Maryland It Will Be CIVIL WAR Before Gun Confiscation](#)

However, that's all changing fast now that the citizenry has experienced a deliberate campaign of ever-escalating levels of police brutality and outright murders. The blatant lack of justice dispensed by both the criminal and civil justice systems in the wake of these offenses only compounds the whole situation—**DRAMATICALLY!**

There are actually several stages of law enforcement and criminal justice system degradation which have been carefully managed by agents of **Cultural Marxism** over decades. This highly intentional Democrat plan to irreversibly erode America's capability to administer justice and ensure the safety of its citizenry is only now coming to fruition.

## Cultural Marxism

If the American people need to be aware of one malevolent force that is irreparably tearing apart the fabric of American society, the utter devastation being wrought nationwide by **Cultural Marxism**.

Truly, it does not get any worse, or dangerous, than this particular ISM—**Cultural Marxism**. As a matter of historical fact, the actions of **Cultural Marxism** have proven time and again that the purposeful implementation of the cultural marxist agenda is a prelude to a color revolution and civil war, regional insurrection and government overthrow.

Sowing seeds of societal chaos and racial/political/religious/gender conflict, as the cultural marxists have perpetrated since Obama's inauguration is how they have conducted every revolution for the past 300 years. Even today The Obama Foundation is hard at work inciting race riots and fomenting racial discord within the body politic by disseminating memes like "**This Is America**". The following excerpt was taken from a previous SOTN article titled: [PROOF POSITIVE! These Fake Race Riots Were Pre-Planned Right Behind the Memes and Mottos](#).

SCREENSHOT: Singer Donald Glover mows down a church choir with an assault rifle in his video “**THIS IS AMERICA**” (Glover/YouTube)

---

**KEY POINT:** The following tragic incident took place just 3 days after this article was published by SOTN. It provides an example of how the communists both advance their cultural marxist agenda and perpetrate bolshevik violence against religious spiritual messengers. Murder victim Tyra Phillips (Womack) was a Sunday Gospel Grace radio host who was senselessly down in Democrat-run Baltimore, a city notorious for its high homicide rate and random violence. See: [Obama's “This Is A Meme Created the Environment for this Terrible Tragedy!](#)

---

What better way to radically inflame racial tensions and scare the populace crazy at the very same time than to instigate race defunding police departments in the urban areas being destroyed by highly organized, secretly funded and well-armed race riot terrorists?

What some of the largest metro areas are now witnessing is a deliberate emasculating of law enforcement in an effort to create anarchy and criminality where the newly installed warlord rules the lawless realm. See: [CHAZgate: Capitol Hill Autonomous Zone Exposed in Riveting Detail \(Video\)](#)

It's important to note that an integral piece of the cultural marxist agenda during 2020 is to blow up every single white-on-black injustice and transgression of any kind in an attempt to start a full-blown race war.

## **OPERATION RACE WAR: A Highly Organized Communist Plot to Collapse the American Republic via CIVIL WAR 2.0**

---

Just watch the headlines of the major MSM organs of propaganda and prevarication. There's not a day that goes by where a charged episode somewhere in the United States is not completely distorted out of reality or taken out of context and then presented as a heinous hate crime or stunning racial offense.

Patriots everywhere need to be extra careful and aware about this cultural marxist ploy to turn race against race, religion against religion, gender against gender, and politics against politics. These are the traditional tools and techniques of the “divide and conquer” strategy being utilized across America today with a vengeance by strategically positioned communist plotters (especially throughout the South). For when the citizenry is fighting each other so feverishly and furiously, that nation falls easily from within.

---

**KEY POINT:** Dramatic distraction of the populace is always a main objective for the globalists when things are according to their plan. **THE GREAT SCAMDEMIC** happens to be one of those disastrous attempts to enslave humanity that has gone seriously awry. Hence, *The Powers That Be* were compelled to do pull off a **STAGED RACE WAR! Inflaming Racial Tensions After Heinous COVID-19 Crimes Exposed.**

## Conclusion

Although this exposé has focused primarily on the highly coordinated conspiracy being carried out by the *New World Order* cabal to eviscerate American law enforcement, the real plot goes well beyond that immediate goal.

There is also a nefarious scheme being executed to destroy the U.S. Armed Forces so that the nation's defenses are so corrupt that our nation's enemies will prevail in an armed conflict. The following radioactive exposé explains the true depth and breadth of this ongoing criminal conspiracy.

## Who is actively attempting to destroy the U.S. Armed Force from within

There is also a very crafty plot to weaken all first responders in America today. Firemen and emergency medical technicians, and nurses and other personnel have been systematically compromised, weakened and/or debilitated over many years. Many vaccinations for some of these groups are a sure way to enervate the most needed among US during times of great urgency disaster and manmade catastrophe. This is also why so many doctors and nurses refused to speak up about the geriatric geriatric taking place on their watch; they were compromised by their overlords or handlers one way or another.

Lastly, for anyone who doubts the absolutely necessary and vital service provided by law enforcement at all levels in this country view the following excellent video.

## POLICEMAN

While today's police officers don't always operate at the high standards conveyed in the preceding video, please understand that they are facing often overwhelming circumstances, horrendous conditions, unpredictable criminals, desperate treacherous politicians, and a public that's always playing "Monday morning quarterback".

**KEY POINT:** The FBI and DOJ, along with the C.I.A. are all beyond repair or any type of meaningful rehabilitation. Here's why:  
**PONERIZATION:** How the American Republic was taken over by political clique of criminally insane psychopaths and sociopaths

**Bottom Line:** *We the People* need our police more than ever. Likewise, these vital public servants need to serve the people more than ever, not their foreign masters whose hidden agenda is the final collapse of the American Republic. Editor's Note

SOTN in no way condones the gross misconduct exhibited by some officers who are really just bad cops with a real bad attitude. However, those miscreants represent only a very small minority. Nevertheless, even a really good police officer can be triggered out of character given the severe working circumstances outlined above. This worsening state of affairs must be responded to if there is to be any peace and/or reconciliation in the USA.
