THE "MARSHALL PLAN" WAS FUNDED → by the last duly
elected United States of America (A Constitutional Republic)
President Ronald Wilson Reagan under operation: Still Point ~

We have just discovered that **Paul ADOLPH Volcker** chaired the President's Economic Recovery Advisory Board (Feb. 06, 2009 to Feb. 06, 2011).

This means the Anglo-American (British) Pilgrims Society's vice president in the U.S. was driving the reconfiguration of U.S. banking as evidently the primary objective of the "2008 Bank Bailout 'Crisis'"

Edward G. Lansdale, chief gold thug for
Allen W. Dulles,
Pilgrims Society/OSS/C.I.A./likely JFK
hit-man

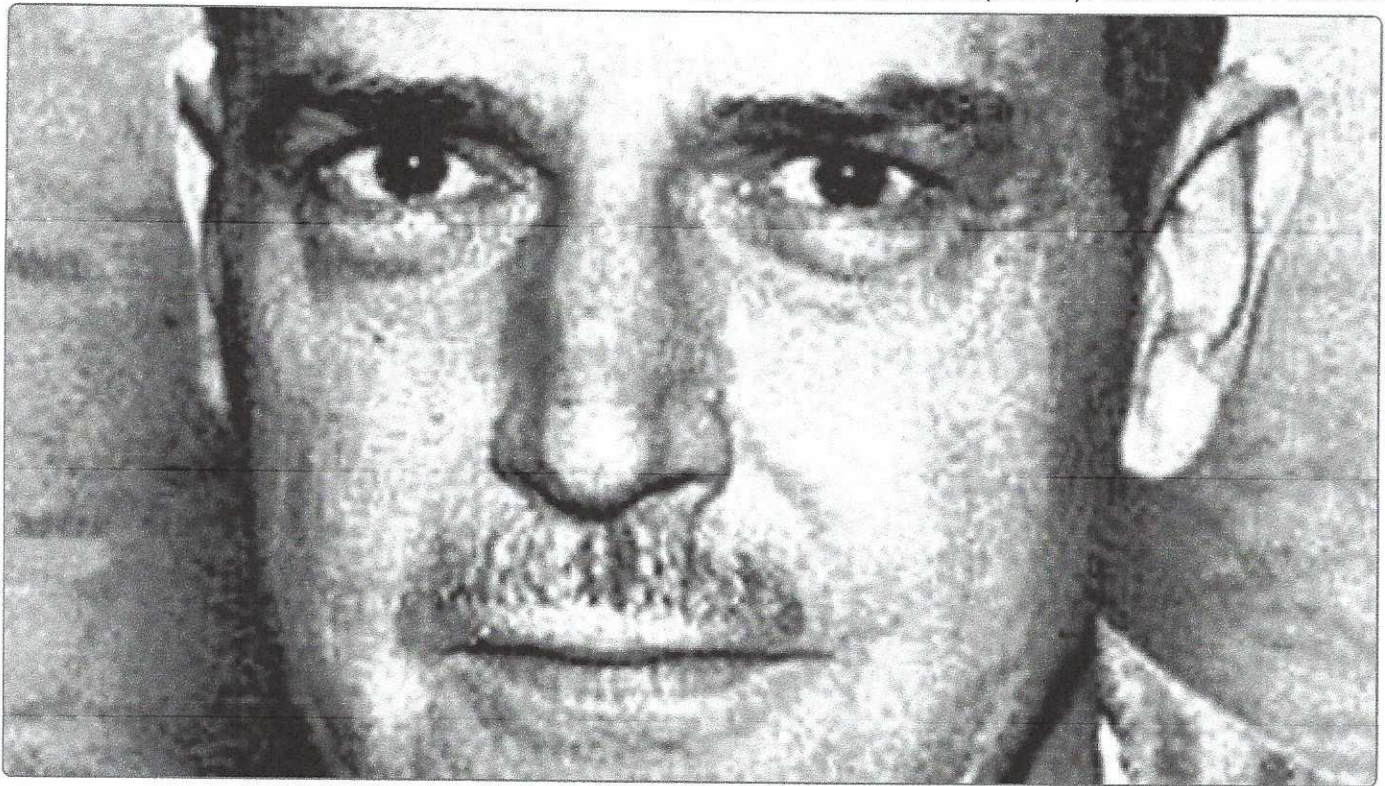

Fig. 3—Edward Geary Lansdale. Stimson's and Acheson's go-to plumber used to consolidate the stolen German and Japanese gold, silver, platinum, jewels, gems, paintings and other valuable treasurers. Lansdale arranged the transfers to the Bank of International Settlements (Bern). Allen W. Dulles was the Office of Strategic Services (OSS) Bern station chief at [Herrengasse No. 23, Bern, Switzerland](#) (ca. 1943-45).

In 1951, Allen W. Dulles, Lansdale's crime boss, was appointed director of the C.I.A. (1951-53) by Harry Truman. The C.I.A. was the successor to the OSS (and therefore British Pilgrims Society / MI6 founded and led). Among its over 30,000 people were many "stay behind" racketeers who were actually working for the Pilgrims Society / MI6 secretly. These stay behinds included many who were notoriously known for running private gold smuggling and money-laundering operations. These criminal operations did not stop when the OSS was formerly disbanded on [Sep. 20, 1945](#) by President Truman by Executive Order 9621. They continue to this day. For example, the [United Fruit Company](#) (now Chiquita Brands).

Lansdale's was attached to the U.S. Army during his OSS work for Donovan and Dulles during WWII. This placed him in the middle of the OSS seizure and transfer of the stolen Nazi and Japanese gold, silver, platinum, art, jewels, diamonds and other treasure, including gold ingots

smelted from victims' teeth in the death camps.

From 1945-1948, after the end of the war, Lansdale was reassigned by the OSS to Air Force intelligence in South East Asia, most especially the Philippines. This was where the Japanese had hidden their stolen gold and other treasures from China and other captured countries in specially constructed caves. According to the Japanese general who oversaw construction of the caves, the engineers and laborers were all murdered to preserve the secrecy of the gold stores.

In 1953, Lansdale started "advising" the French forces in Indo-China, then was transferred to Saigon in 1954-56, during which time he "advised" the South Vietnamese forces, including in psychological operations. His primary role to *create* Pilgrims Society conflicts in "communist" hot spots in Cuba and Southeast Asia is evident in hindsight. (Remember: Communism was a *creation* of the [British Pilgrims Society in London](#) as a way to enslave the masses inside their imperial corporatist new world order) He and Secretary of State Dean Rusk, also a Pilgrim, are materially responsible for pressing the Vietnam War through the Kennedy and Johnson administrations. Lyndon B. Johnson was a Pilgrim, Kennedy was not.

Bay of Pigs (Cuba) / JFK assassination. After helping Pilgrims Dulles and Donovan to consolidate the transfer of German and Japanese gold to the Bank for International Settlements in Bern, Lansdale worked as a clandestine officer for the Defense Department (1957-1963) rising to the rank of Assistant Secretary of Defense for Special Operations. He was responsible for Operation Mongoose to topple Fidel Castro in Cuba by assassination, invasion (the Bay of Pigs) or other means.

The Bay of Pigs failure is said to have inspired President Kennedy to tell a close aide that he was prepared ["to splinter the C.I.A. in thousand pieces and scatter to the winds."](#) Inconclusive, but credible, accounts from three Lansdale colleagues put Lansdale in Dealey Plaza, Dallas TX on Nov. 22, 1961, the day of the assassination of President Kennedy.

Some of Lansdale's colleagues believe that Lansdale was the C.I.A. agent who coordinated the assassination, perhaps to preserve the Pilgrims

Society's Nazi gold secrets at the Bank of International Settlements (which would have been destroyed by the break up of the C.I.A.).

The Bank of International Settlements was the heart of the Stimson-Dulles-Donovan Marshall Plan that used the hoards of stolen gold to help finance their 200-year Anglo-American (British) Pilgrims Society agenda by enriching their insider group of banks, companies and organizations through secret Swiss bank accounts. Many of our "blue chip" organizations today were among those 1948 beneficiaries of the secret International Bank of Settlements "loans," including:

20th Century Fox, ADL, AFL-CIO, AT&T, Bankers Trust, B'nai B'rith, Bristol-Myers, Carnegie Endowment for International Peace, Carnegie Foundation, Carnegie Trust, CBS, Chamber of Commerce, Chase National Bank, Coca-Cola, Columbia, Combustion Engineering, Crocker Bank, Federal Reserve, Fidelity, First National, Ford Foundation, GE, General Foods, Gillette, H.J. Heinz, Harvard, IBM, Indiana, Iowa Grain Growers, J.P. Morgan & Co., Jeep, John Deere, Johns Hopkins, Mallory (now Duracell), Mellon Bank, MIT, Monroe, Motion Picture Association, NAACP, National City, NBC, NCR, New York Times, Newsweek, Owens-Corning, Pepsodent, Pratt and Whitney, Raytheon, RCA, Red Cross, Rhodes Scholars, Russell Sage Foundation, Rutgers, San Francisco Chronicle, Seagrams, Squibb, Standard Oil, State Street, Sylvania, Teamsters, Temple, Time, Twentieth Century Fund, Universal Pictures, UPenn, USC, Wachovia, Washington Post, Wellseley, Wesson Oil and Snowdrift, Westinghouse, WGBH, Wiremold, Yale.

SUMMARY OF FINDINGS (LINKS TO THE EVIDENCE BELOW):

BREAKING HISTORICAL NEWS!

Identities discovered of the *current* Pilgrims Society "ACELA MAFIA" shadow government interlocking relationships

The 1947 Congressional Record provides hard proof of a massive Marshall Plan conspiracy by the Anglo-American (British) Pilgrims Society and its Council on Foreign Relations (CFR) offspring

Today, the "Acela Mafia" is the U.S. insider's name for the Pilgrims Society's organized crime syndicate*

* The Acela bullet train operates between Washington, D.C. and Boston with stops in New Haven, Wilmington, Philadelphia and New York.

The "Acela Mafia" moniker was confirmed by a high-ranking Democratic Party donor in the Midwest who said he

Fig. 4—Acela Amtrak Train

was never invited to join this East Coast corridor group that is dominated by corporations, NGOs and foundations in league with Harvard, Yale, Columbia, Princeton, Georgetown, UPenn, George Washington University, Skull & Bones, Rhodes and Schwarzman Scholar gangsters, among others from University of California and Stanford. The Acela Express train runs between Boston – New Haven – New York – Philadelphia – Wilmington – Washington, D.C.

The Acela Mafia's massive 1947 lies and fraud to Congress (as we shall show below) have just been discovered and should be legal grounds to unwind it all

Newly-discovered Marshall Plan council member lists prove that in 1948, the Anglo-American (British) Pilgrims Society seized control of the Marshall Plan's \$15 billion (\$165 billion today), and funded the post-war rogue C.I.A. with Marshall Plan funds via secret Swiss accounts based on the gold stolen by Nazis and Japanese deposits (even they called it the "Gold Pot")—the criminal basis of secret Swiss bank accounts is now revealed

The Acela Mafia talks peace, freedom, anti-fascism, anti-communism, anti-racism and democracy to fool unsuspecting citizens into attacking truth-tellers whom they accuse of the very sins they are committing

The approximately 300-person Marshall Plan Committee was led by the British-American imperial Pilgrims Society and its Council on Foreign Relations (CFR) offspring

At least four members were British knights, including: William J. Donovan, chief British-American spy running the "Office of Strategic Services (OSS) during WWII, and Winthrop W. Aldrich, the Rockefeller chairman of Chase National Bank and then president of the International Chamber of Commerce (and later U.S. Ambassador to the UK), his nephew Nelson Aldrich Rockefeller later became U.S. Vice President

A current Pilgrims Society U.S. officer, John R. Drexel, IV, is a Life Governor of the Knights of Malta English Priory along with chief justice John G. Roberts, Jr., and very likely Henry Kissinger, Larry Summers, the Clintons, and John Podesta

Since as early as 1912, Congressional hounds were hot on the Pilgrims' Carnegie, Rockefeller, J.P. Morgan, Rothschild "new world order" continuous wars criminality

N.M. Rothschild, Andrew Carnegie and their protégés at J.P. Morgan and Chase (Rockefeller) have been financing British attacks on America since before the War of 1812

In 1912, J.P. Morgan, at his mentor Lord Rothschild's urging (who controlled *Reuters*, *Daily Telegraph*, *Daily Mail*, *London Times*, etc.) bought editorial control of all of America's leading newspapers (e.g., *New York Times*, *Washington Post*, *Chicago Tribune*) to push pro-British propaganda to support war with Germany

WWI destroyed the Pilgrims' German trade competition; at the same time, Andrew Carnegie funded U.S. libraries and education textbooks to *rewrite* American colonial history to be more pro-British

Simultaneously, the Pilgrims bankers *created* the Federal Reserve to enable the Rothschilds (Bank of England) and the Pilgrim bankers to *control* the American money supply—America's Pilgrim President Woodrow Wilson facilitated this from the White House

Human devastations initiated and financed by the Anglo-American (British) Pilgrims Society: WWI, WWII, Korea, Vietnam, Northern Ireland, FARC, Cambodia, Kosovo, Rwanda, Iraq, Afghanistan, Chechnya, Syria, Coronavirus, HIV, H1N1, West Nile, Zika, hoof and mouth, (laboratory-fabricated pathogens), etc. appear to have all been faked by the Pilgrims Society to consolidate new world order power, restrict privacy and free speech, enrich co-conspirators and kill off populations with explosives, drugs, abortion, human

trafficking, vaccines, pathogens, propagandize fake threats, weather warfare, wireless radiation, etc.

The Marshall Plan organizations of labor, rights movements, churches, synagogues, universities, educators and media were all sucked in to their tyrannical, godless orbit

... in the name of love, peace and freedom, of course. (See. pts. 12 and 13 of the 24-steps to take over America below, adjacent to **Fig. 5, Lillian Scott Troy.**)

HISTORY WARNING NOTICE

The Anglo-American (British) Pilgrims Society generally triggers a war to suppress this kind of exposure of their evil underbelly.

Unless we stop them, their next wars will evidently be fake pandemics, poison-laden nanoparticles to attack our blood and immune systems via vaccines, Taviscek-inspired mass mind control, and 5G wireless irradiation.

Spread this information as the antidote.

The Pilgrims Society was founded in London on [Jul. 16, 1902](#) (The Pilgrims of Great Britain), and in New York on [Jan. 13, 1903](#) (The Pilgrims of the United States).

Each time since then when an investigation into their criminality got too close to revealing their organized crime, investigators were deported, people died mysteriously, or wars started that sidetracked the efforts at truth telling.

For example, on [Nov. 13, 1919](#), Lillian Scott Troy, a courageous American suffragette and investigative journalist living in London, was kicked out of Britain because she focused her investigations on Andrew Carnegie, J. P. Morgan and the Pilgrims Society. She smelled a rat and said so, in newsprint. The British tolerated her during World War I, but two days after the peace treaty was signed, they deported her from Britain on fake grounds. Here is just one of her many [hard-hitting exposés](#) of Andrew Carnegie and the Pilgrims Society.

Pilgrims 24-step Takeover Strategy Exposed in 1912

In 1912, Ms. Troy had uncovered and published the Pilgrims' 24-step plan to take over America in *The San Francisco Leader* on [Feb. 24, 1912](#).

She discovered that Carnegie, an American, was registered on the *voting roles* in Scotland (as a British subject). She also discovered that he had been awarded a "dukedom" in 1902 by the newly-crowned King Edward VII. This dukedom was most likely a title in the Knights of Malta over which Edward had just assumed control at the death of his mother Queen Victoria.

Here is a summary of the Pilgrim's 24-steps to retaking America in 1912 that Ms. Troy first revealed. [Editor's note: The original Troy article is missing from the Hearst archives. However, [on Aug. 06, 1940](#), [Rep. Thorkelson \(MN 1st\)](#) preserved them in the Congressional Record.

1. Diminish the power of Congress,
2. only permit pro-British Justices on the Supreme Court [**remember John G. Roberts, Jr.** is a Knight of Malta; so is the current president of the U.S. Pilgrims Society, **John R. Drexel, IV**—Kidder Peabody, now UBS AG (Swiss)],
3. only anti-Senate court rulings,
4. marginalize or compromise all Congressmen and Senators hostile to Britain,
5. allow some appearance of autonomy for show,
6. **entangle the U.S. in treaties**,
7. exchange Naval officers and pretend to defer to American officers,

8. exchange British and American soldiers and missions,
9. send English royalty stationed in Canada to the U.S. regularly,
10. be lavish with social invitations for American wives and daughters to rub shoulders with titled Brits,
11. **liberally distribute royal honours to Americans,**
12. honour all Americans who promote "peace" (meaning war)
13. ostracize woman of men hostile to "peace,"
14. when the above is done, the King and Queen may visit Washington,
15. only British troops will quell disturbances triggered by a royal visit,
16. distribute titles to the very wealthy, their wives love it,
17. **buy the newspaper editorials or start a new one next door,**
18. flatter educators in the press; oppose (Fourth of July) fireworks on public safety grounds,
19. celebrate British-American milestones using "peace" themes,
20. **discourage education among the masses, help them love their lowly existence,**
21. discourage Irish immigration by denagrating the Irish chacter and hygene,
22. **annex the U.S. in quartered sections overseen by the Duke of Connaught in Canada,**
23. persistently create bad blood with Germany, and
24. keep France off balance with treaties and arbitrations.

Fig. 5—Lillian Scott Troy was a courageous American suffragette and investigative journalist living in London ca. 1900-1918. On Nov. 13, 1919, Ms. Troy was deported from the United Kingdom—two days after WWI ended—because she dug too deeply into the corruption of British and American Pilgrims Society. Ms. Troy was the perennial target of Pilgrim propaganda attacks and smeears in both the U.S. and British press. She focused her investigations on the evident corruption and treason of Andrew Carnegie, J. P. Morgan and the Anglo-American (British) Pilgrims Society, which she (and many at the time) saw as undermining the sovereignty of the American Republic. Their voice have largely been silenced by the mockingbird Pilgrims Society-controlled world press, until now.

[Starting in 1938](#) (509 pgs, 33.3 MB), a joint committee of House and Senate began hearings titled "Investigation of Concentration of Economic Power" spanning the 76th and 77th Congresses (Res. 113, S. J. Res. 300).

No. 113, Temporary National Economic Committee, 75th Congress, 509 pgs. GPO. (33.3 MB).

Every segment of American economic life was put under the microscope in exquisitely fine investigative work. They started with patents, life insurance, beryllium, liquor, poultry, savings, etc. At hearing numbers 22-23 they published meticulously detailed and overwhelming evidence of conspiracy to monopolized the investment banking sector by certain banks and investments houses—all members of the Pilgrims Society and aligned with N.M. Rothschild in the UK. [Investment Banking, Rept. 22-24, Dec. 12, 1939](#) (509 pgs, 33.3 MB).

Curiously, while the Fall 1939 Congressional research for their report on banking was occurring, on Sep. 01, 1939, Adolf Hitler, armed with IBM-generated data, rolled his GM-manufactured tanks into Poland to start World War II.

Notably, Hitler was being financed by many of the "interlocking" banks under investigation, like J.P. Morgan, Chase National Bank, Morgan Stanely,

Goldman Sachs, Brown Brothers Harriman (with Prescott T. Bush, George H.W. Bush's father).

"The present membership in the American Pilgrims, and those who have passed away, represent the leadership of America in many important fields."

FTC ON THE PILGRIMS SOCIETY'S ORGANIZED CRIME (1950): "MONOPOLIES AND CONSPIRACIES IN RESTRAINT OF TRADE"

To repeat, on Jun. 25, 1950—*five days before* the release of the report on Interlocking "monopolies and conspiracies in restraint of trade"—the Korean War was triggered by the United Nations, dragging the U.S. into a "police action" that was never declared officially as a war, yet approximately 3 million souls died, including 128,000 dead and wounded Americans.

The FTC very clearly said, as you will read, that this activity by the Pilgrims Society and their CFR minions was an evident violation of the Clayton Act of 1914, the U.N. with the U.S. in tow started the Korean War.

START OF THIS POST

Jul. 28. 2020—In morality. ethics and common

decency, if a public figure fails to disclose a "material" relationship—meaning a relationship that does or might affect his or her impartiality in carrying out the public's business—then that person commits a crime.

In government, the ethics requirement is even broader. Even a relationship that *might* give the appearance of impropriety must be disclosed.

Therefore, when a Congressional committee is formed (like the Marshall Plan kick off hearings), the public interest and nature of its activities are assumed, and therefore, the disclosure rules require disclosure of potential conflicting relationships so the public can assess the impartiality of the participants.

For example, an ethical chairperson would not allow an AT&T stockholder to investigate AT&T securities violations. In today's courts and Congress, our public figures are hiding these relationships and holdings inside mutual funds with an ethical shell game called the "safe harbor concept" (its not a law, rule or even a policy. where one can hold stocks in these companies as long as they are buried inside their mutual funds. And yet, our judges almost across the board are claiming the safe harbor concept makes them exempt from disclosure. See U.S. Judicial Conference [on Mar. 14, 2001](#)).

Members of Congress are now claiming "safe harbor" as well to hide investments in their insider crony companies to whom they are shoveling contracts. "Safe harbor" mocks ethical duties. It is the American equivalent of the Queen's Court that hides manifest Pilgrims Society criminality. Not surprisingly, since our legislators claim the same safe harbor "concept-not-a-rule-or-even-policy," they are *silent* about this total moral lapse in our government.

For example, just look at attorney [Robert S. Mueller, III](#)'s financial holdings and tell us you don't smell the Pilgrims Society insider traders. His holdings even include two Cayman Island offshore funds [Mellon Optima L/S Strategy Fd LLC and Defenders Multi-Strategy Hedge Fund LLC](#).

It destroys the public's expectation of fair dealing.

Cecil Rhodes, British Privy Councillor, chairman of De Beers Consolidated Mines (diamonds, gold) and founder of the Rhodes Scholarship, told the Pilgrims Society founders that they should seize the wealth necessary to achieve their 200 year dream of a neo-imperial corporatist, socialist new world order run by the British Privy Council.

Rhodes' co-

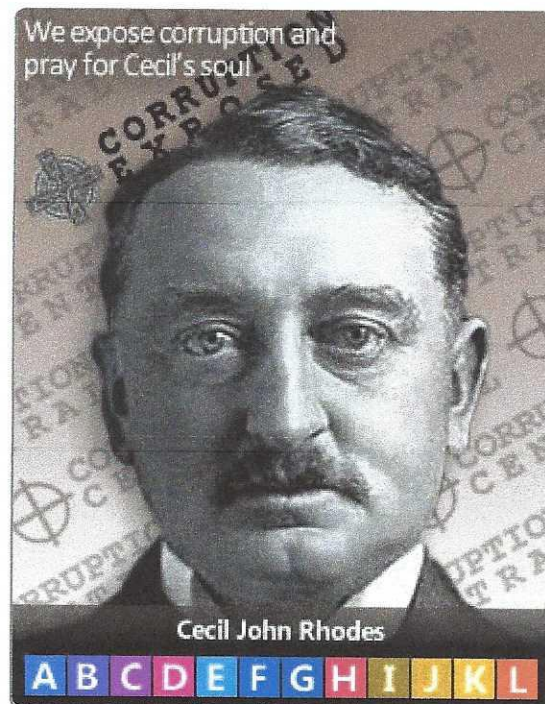

Fig. 9—Cecil John Rhodes. See [AFI](#) (Jan. 24, 2019). So you thought Rhodes Scholarships Were Good? *Americans for Innovation*.

conspirators were all Rothschilds, namely Lord Nathan Mayer Rothschild, Lord Rosebery (major N.M. Rothschild stock inheritor), Henry de Worms (1st Lord Pirbright, inheritor of his mother's Rothschild fortune), J.P. Morgan (coached in banking by Lord Rothschild, formerly Peabody Riggs Bank) and Andrew Carnegie, co-founder of the Pilgrims Society with Lord Rothschild. See [previous post](#).

This secret Pilgrims Society order they created would operate like a Masonic secret society, use Jesuit tactics of deception, and be run by banks and their insider corporations. They would dispense British titles and titillation liberally.

To this very moment, the Pilgrims have concealed their criminality behind the Crown's legal and banking protection using a tactic they coined called "incrementalism." It means to implement sedition slowly, imperceptibly. In other words, they stuck us frogs in the water, and have been slowly, incrementally turning up the heat ever since.

ON DEC 17, 1947 THE TAKEOVER OF AMERICA TOOK A BIG STEP FORWARD

On Dec. 17, 1947, the Pilgrims Society and their Council on Foreign Relations offspring revealed their soft underbelly that is only now being discovered in 2020—73 year later

On this day, Dean Acheson, the recent under secretary of state (August 16, 1945 – June 30, 1947), came before the House on Foreign Affairs to ask for Congress to approve and fund his newly minted COMMITTEE FOR THE MARSHALL PLAN TO AID EUROPEAN RECOVERY that had just been initiated a month earlier on Nov. 17, 1947.

Click here for a detailed spreadsheet breaking down the ~300 members of Acheson's newly hatched Marshall Plan Committee.

The Pilgrims lemmings gathered for Acheson's big reveal:

AFTERNOON SESSION

The committee reconvened at 2:20 p. m., at the expiration of the recess.

Chairman EATON. The committee will be in order.

We are very glad to have our good friend Dean Acheson with us.

This is not a very large number of committee members here, but it is a select group, Mr. Acheson. You can see the large audience you have, which is another tribute to your immense popularity.

STATEMENT OF HON. DEAN ACHESON, MEMBER OF THE EXECUTIVE COMMITTEE, COMMITTEE FOR THE MARSHALL PLAN

Mr. ACHESON. Mr. Chairman, and ladies and gentlemen of the committee. May I start with a less serious comment? I remember many, many years ago I used to inhabit the old boathouse at Yale University. There was an old boat rigger there, and when we would come in, he would greet us with enthusiasm and would say, "Well, well, it certainly is old-fashioned to see you."

It is certainly old-fashioned to see the faithful gathering in this committee this afternoon.

ACHESON'S SCARE-MONGERING WAS FINE-TUNED

TAVISTOCK PILGRIMS SOCIETY PROPAGANDA

Acheson described the newly-organized Committee as if it had arisen from the ashes like a phoenix in the heartland by those "waiting anxiously for someone to express their deep desire for action."

He painted the image of a veritable groundswell for this action by "leaders in our Government, in business, labor, and farm groups, in our colleges, churches and other professional" who wished to "play a larger role in helping the countries of Europe restore their war-shattered industries and farms and homes."

He climaxed his soliloquy by claiming that "Henry L. Stimson provided the voice in his now famous article *The Challenge of Americans*" in *Foreign Affairs* of October 1947" (italics added).

This 11-page Stimson article in *Foreign Affairs* (CFR) sets up Soviet Russia as America's brutish but wiley and pragmatic new enemy against whom the Marshall Plan must defend. Never mind that Russia had just been our Ally two years earlier. Oh how quickly the Pilgrims Society morphed their communist Russia creation from two-war ally to "Cold War" enemy.

The telltale Pilgrims Society Tavistock Institute mind control scare tactic *trigger words* were all dragged out for this day-long Acheson testimony, including:

[.... unless of course, Congress approves Acheson's \$6.8 billion Marshall Plan request, then all will be well.]

Our first clue that Acheson and Stimson were deceiving the American public was the source of the alleged anxious groundswell: a Stimson article in *Foreign Affairs* quarterly published by the Council on Foreign Relations (CFR, founded in 1922 by Pilgrim Elihu Root, also attorney to Andrew Carnegie). This is so clearly a self-serving argument since Stimson and Acheson are promoting their own inspiring words as the rationale for their alleged spontaneous organization of the Committee.

The article was reprinted right across the J.P. Morgan-Rothschild-Rueters-AP mockingbird press.

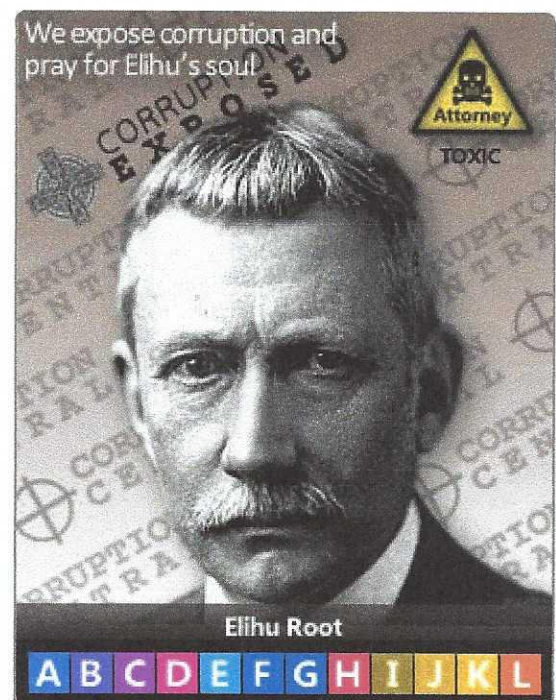

Fig. 13—Elihu Root. Attorney for Andrew Carnegie (ca. 1890-); Co-founder

Stimson wrote: "Lasting peace and freedom cannot be achieved until the world finds a way toward the necessary government of the whole [one world]" (p. 8).

Stimson had been Secretary of War both before World War I (1911–1913) and during all of World War II (1940–1945). Between the world wars he had been Secretary of State (1929–1933).

of the Pilgrims Society (1902); Secretary of State (1905–1909); Secretary of War (1899–1904); U.S. Senator (NY, 1909–1915); President of the Carnegie Foundation for International Peace (1910); President of the Council on Foreign Relations (1921)

Over 125 million souls perished on Stimson's watch.

Let's get this right. Acheson, Stimson's successor as Secretary of State, and two-time Secretary of War, claimed that warmonger Stimson suddenly gave voice to an anxious grassroots cry for lasting peace and freedom in a single 11-page *Foreign Affairs* magazine article, with maybe 2,000 readers?!

More insipid tripe cannot be imagined.

The proverbial ink was not even dry on Stimson's *Foreign Affairs* article two months earlier before its contents were alleged by Stimson to have generated a groundswell of American public sentiment to fund the rebuilding of Europe to allegedly stave off the spread of the new global threat—Soviet Russian communism.

So fake, yet so insidious.

Acheson's Testimony is the Scene of the Crime of the Marshall Plan

The CFR's first president was Elihu Root. Root had earlier been Stimson's and Acheson's counterpart as Secretary of War (1899–1904), Secretary of State (1905–1909) and New York Senator (1909–1915).

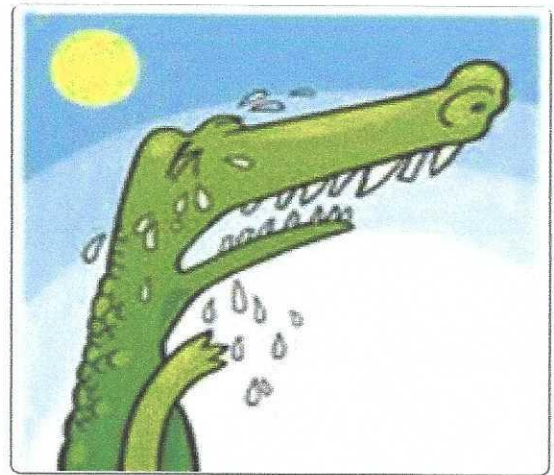

Fig. 14—Stimson cried crocodile tears of fear about a communist resurgence (a Pilgrims fabrication to begin with) in Europe to get Congress to approve an initial \$6.8 billion for the Marshall Plan. The final number received was \$15 billion.

Root was also president of the Carnegie Endowment for International Peace (1910-1925) and was Carnegie's personal estate attorney, along with James P. Patterson, who we will highlight below.

THE SCENE OF THE MARSHALL PLAN CRIME

(DEC. 17, 1947)

On Dec. 17, 1947, Dean Acheson, former under secretary of state during WWII, started his long-winded testimony by entering into the Congressional record a Marshall Plan Committee pamphlet.

The pamphlet described the Committee's purpose and listed the members that were allegedly inspired by the warmonger Stimson to drop everything to help Europe recover.

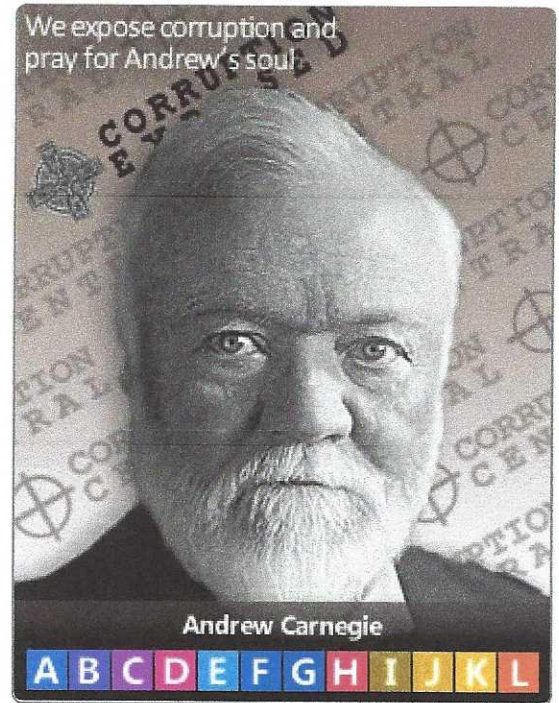

Fig. 15—Andrew Carnegie.

The committee already has begun to work. The members of the national council throughout the country are lending their support, and with the executive committee, whose chairman is Robert P. Patterson, we are engaged in presenting the issues to the American people so that they may understand the questions and provide their answers to the challenge.

The committee is distributing printed material, arranging for speakers, and working with other existing organizations for an increasing attention to the Marshall plan and support of its legitimate objectives. A petition to the Congress is being circulated calling for legislation to provide a sound and adequate program, in the light of Secretary Marshall's proposal, to aid European recovery.

But even this is not enough. Each of the members of the committee will also have to stir the minds of people in his own community and work for the achievement of an understanding deep enough to give the Marshall plan so firm a support that we will all "Think of our prosperity, our policy and our first principles as indivisibly connected with the facts of life everywhere."

With the benefit of hindsight, the article was unremarkable anti-Soviet propaganda and saber rattling, evidently intended to frighten Americans into agreeing to provide \$8.5 billion to fund the Marshall Plan Committee's hidden agenda (\$93.5 billion in today's dollars). The ultimate amount provided was \$15 billion, or \$165 billion in today's dollars.

For context, the term "Cold War" as a socio-political expression of tension between the West and the Soviet Bloc was first used *eight months earlier*, on April 16, 1947, by Herbert Bayard Swope.

Stimson had appointed Swope to his executive committee a month earlier. Keep in mind, Congress did not create this Committee, the Pilgrims Society did, then pushed it on Congress to approve.

For further context, the American 69th Infantry Division and the Soviet 58th Guards Division had broken the back of the Nazi Army at "[The Meeting at the Elbe](#)," river, also called "The Link-Up," on Apr. 25, 1945, *just two years earlier*.

Fig. 17—Historic East Meets West—The [American-Soviet Linkup](#). The American 69th Infantry Division the Soviet 58th Guards on Apr. 25, 1945.

Evidently, the new Soviet menace being spouted by Acheson, Stimson and the Pilgrims Society was merely recycling their long-nurtured Tavistock mind control propaganda fabricated in London starting with Lenin in 1902. The objective was to frighten Americans with the Red Communist Terror in order to get them to agree to fund the Marshall Plan (which will eventually implement communism as one of the end products of the Pilgrims Society neo-imperial takeover).

We have proven in a [previous post](#) that Soviet Bolshevism was *fabricated* in London by the Pilgrims Society. Lenin, Trotsky, Stalin all took their brutal marching orders from the British Pilgrims Society. A seemingly belligerent Russia has been a useful propaganda foe for centuries, and given the fake Steel dossier and the Trump-Russia hoax, it still is.

ACHESON'S FIRST BIG LIE: OUR MARSHALL PLAN

COMMITTEE IS "BROADLY
REPRESENTATIVE OF

ALL SECTIONS OF THE
COUNTRY"

Acheson's first big lie was his statement that the membership of the council "is broadly representative of all parts of our national life and all sections of the country."

According to our best assessment, the 300-person Marshall Plan Committee was exclusively liberals, democrats, socialists, closet communists and left-leaning internationalists. If any reader discovers an exception to that, please let us know.

ACHESON'S EXECUTIVE COMMITTEE WAS THE FIRST "ACELA MAFIA"

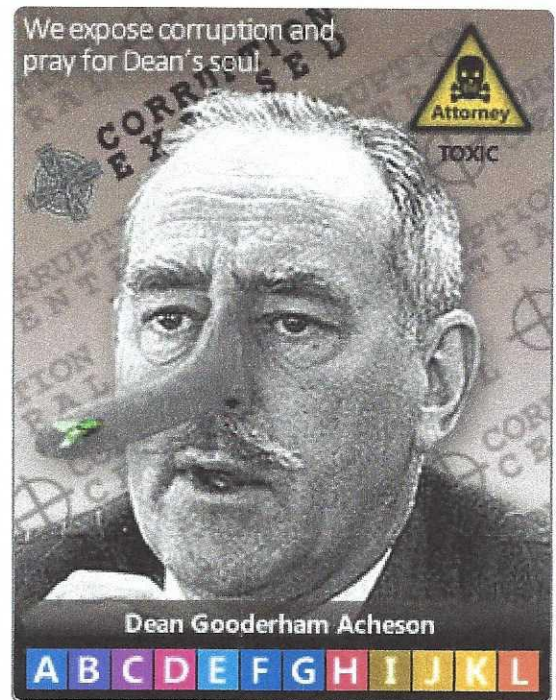

Fig. 17—Dean G. Acheson. Introduced the Marshall Plan Committee to Congress on Dec. 17, 1948—the scene of the Pilgrims Society crime against humanity.

Acheson claimed to represent “all sections of the country,” but of the 19 people on his Executive Committee, only four state entities were represented:

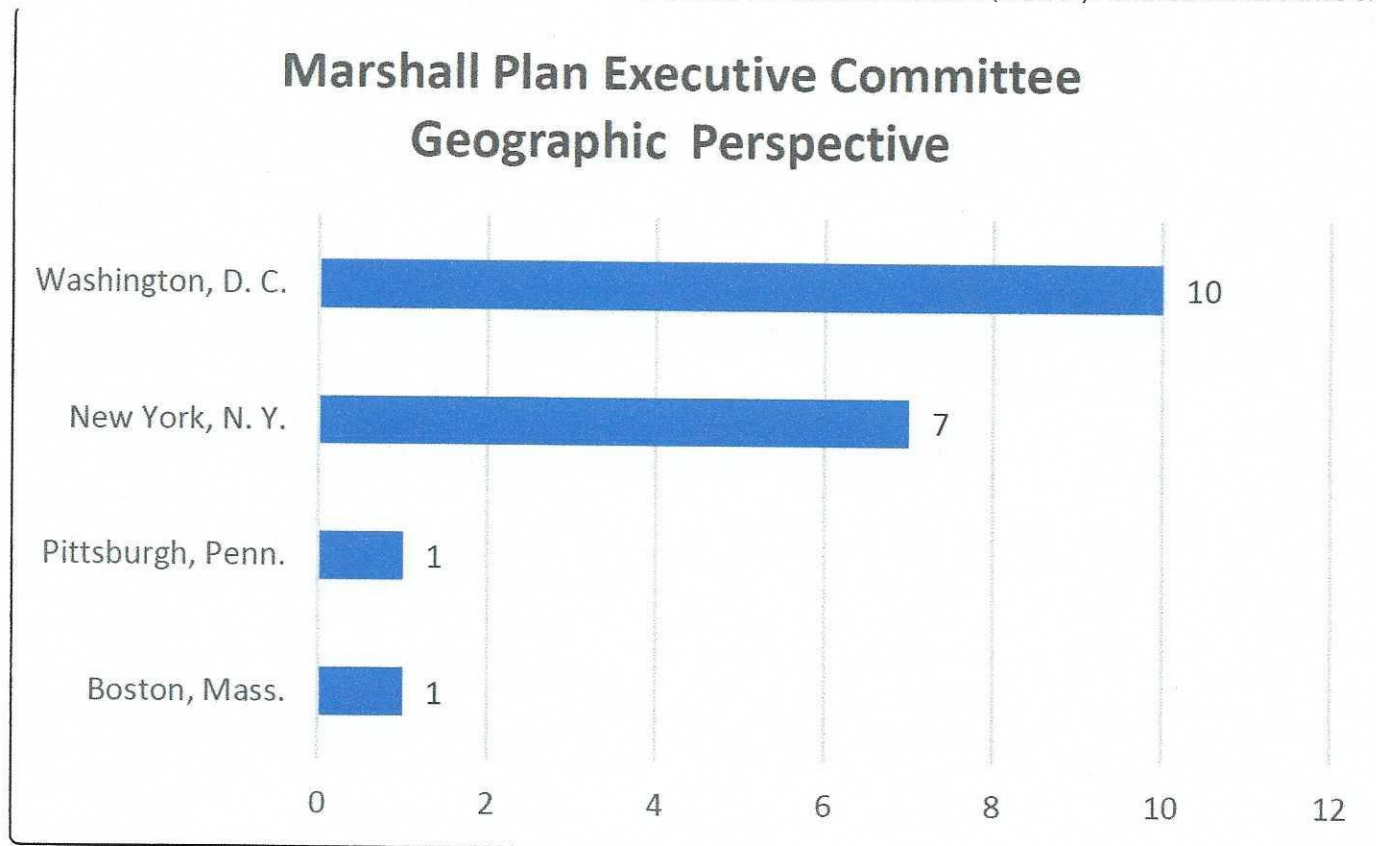

Fig. 18—GEOGRAPHIC REPRESENTATION ON THE MARSHALL PLAN EXECUTIVE COMMITTEE - [DEAN ACHESON Statement. \(Dec. 17, 1947\)](#). H.R. 480, H.R. 4579, Pt. 1, Dec. 17, 1947 to Feb. 12, 1948, US Foreign Policy For A Post-War Recovery. Marshall Plan funding. U.S. House, 80th Cong., 1st and 2nd Sess, pp. 689-694, p. 84 of ANALYSIS. GPO.

1.	Washington, D.C.	10	(53%)
2.	New York	7	(37%)
3.	Massachusetts	1	(5%)
4.	Pennsylvania	1	(5%)

This geography is *identical* to that of the Acela Mafia northeast corridor. This evidence is pretty convincing that we are seeing here the genesis of the modern day Acela Mafia, the actual "Deep State" in America.

Marshall Plan Top 10 States Represented

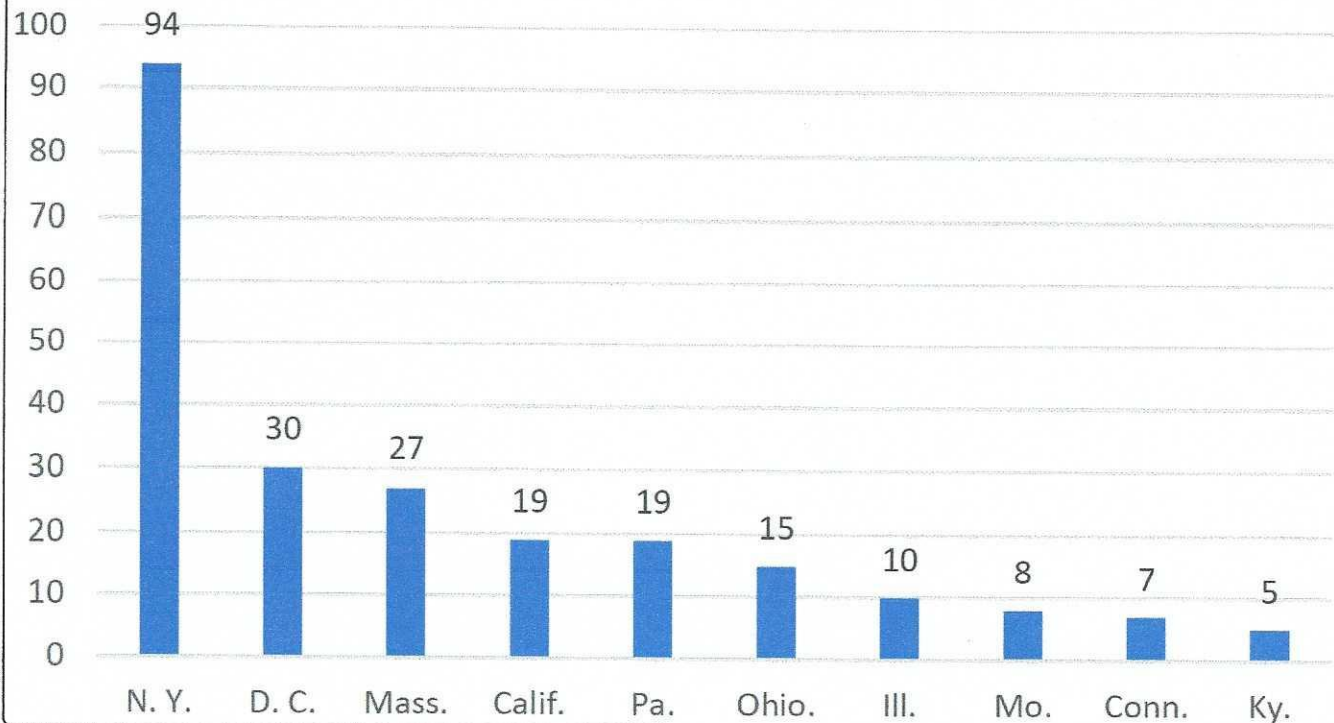

Fig. 18—U.S. STATES REPRESENTED ON THE MARSHALL PLAN COUNCIL - [DEAN ACHESON Statement](#). (Dec. 17, 1947). H.R. 480, H.R. 4579, Pt. 1, Dec. 17, 1947 to Feb. 12, 1948, US Foreign Policy For A Post-War Recovery. Marshall Plan funding. U.S. House, 80th Cong., 1st and 2nd Sess, pp. 689-694, p. 85 of ANALYSIS. GPO.

The Council Members geography among its 270 members revealed that 206 (76%) of them were from just ten states with 13 states not even represented:

1.	New York	87	(32%)
2.	Massachusetts	26	(9%)
3.	California	20	(7%)
4.	Pennsylvania	19	(7%)
5.	Ohio	15	(6%)
6.	Washington, D.C.	13	(5%)
7.	Illinois	10	(4%)
8.	Missouri	8	(3%)
9.	Connecticut	7	(3%)
10.	Kentucky	5	(2%)
	TOTAL:	206	(79%)

If we add the executive committee and council together, the geographic representation is even more skewed to the "Acela Corridor" (Northeast) (64%):

1.	New York	94	(32%)
3.	Washington, D.C.	30	(10%)
2.	Massachusetts	27	(9%)
	TOTAL:	151	(64%)

Did the Marshall Plan create the Acela Corridor?

Acheson's second big lie was that the industries in his Committee were broadly representative of America's national life. Here is a breakdown of the Top 10 industries represented:
